

FRANCE HOLDING GAINS ON FRONT

(By Associated Press.)
PARIS, August 29.—On the Somme front, as far as Verdun, the French are leading in the offensive, dominating their adversary.

"There is not a point in the general theater of operations where the enemy is not equally reduced to the defensive," continues an official review.

"Actions which we have undertaken continue despite the resistance and reaction of the enemy."

On the Verdun front the French have progressed near Thiamont. German attacks near Fleury and at Vaux fort were repulsed.

GOVERNMENT RUN RAILROADS

(Continued from Page 1)

President Wilson last night definitely decided to go before Congress in person today or Wednesday to recommend legislation aimed to avert the threatened nation wide railroad strike, or stop it if it comes before Congress can act. He worked until late on his message, in which he will tell members of the Senate and House the negotiations to date and lay before them a definite legislative program.

The proposition of the railroad executives was that an investigation of all issues be conducted by a commission to be named by the president, the investigation to last for a period of three or four months, no action to be taken by either side in the meantime, and at the conclusion of the inquiry the situation to be what it now is, the employees having the choice of either arbitrating or striking. The brotherhood heads promised a reply this morning and there was every indication it would be unfavorable.

When the railroad brotherhoods went to the White House the president strongly urged the withdrawal of a tentative strike order sent out yesterday, subject to release, calling for a walkout of the 400,000 brotherhood members at 7 a. m., Labor day, Sept. 4. This request was flatly refused, the leaders saying only the committee of 640, which left Washington, has power to recall the order.

Copies of the strike order were brought to the president's attention after they had got into possession of the railroad executives. It had been known that the members of the committee of 640 carried home with them a tentative order, but no one outside the brotherhood councils had suspected that a date had been set, and the president is said to have been greatly perturbed by the information. After the refusal to withdraw the order, he communicated with the railroad presidents, who held a meeting that lasted until late in the night.

When Nature Was Timekeeper.
In the British museum is a large stone composed of carbonate of lime, which would serve perfectly as a day laborer's calendar, inasmuch as it would indicate to him every Sunday and holiday of the year, though not the day of the month. Moreover, the stone is an actual time record of the work done for a long period in an English coal mine.

The "Sunday stone," as it is called, was removed from a colliery drain. When the miners were at work the water running through the drain left a deposit colored black by the coal dust, but when no work was being done the water ran down clear and left a white deposit. These deposits in the course of time built up the stone. Each day of work left a black streak, immediately followed by a white streak made during the night. Wide white streaks indicate the holidays and Sundays.

WOMAN'S RELIEF CORPS

The Woman's Relief Corps will meet tomorrow afternoon at 2:30 at Butler hall after the summer vacation of six weeks. It is hoped that all members attend.

INDIAN BABY MURDERED

Helen Pascal, a five year old Indian girl, was shot and killed, and Ned Oppenheim, Indian, probably fatally wounded by a Mexican about 8:30 Sunday evening.—Humboldt Star.

RUMANIA SENDS TROOPS INTO TRANSYLVANIA

(By Associated Press.)

LONDON, August 29.—Rumania has thrown her lot with the entente allies by declaring war on Austria-Hungary and almost simultaneously German has announced that she is at war with Rumania.

Already the troops of King Ferdinand are seeking entry into the plains of Transylvania through the eastern Carpathians toward Kronstadt, evidently in an endeavor to press northward through Transylvania toward the Bukovina and Galicia borders and to take in the rear the Austro-Germans trying to prevent the Russians from entering Hungary.

Nothing has come through to indicate what preparation has been made by the Bulgarians to offset a probable attack by the Rumanians along the Danube front or a possible attempt by the Russians at invasion by means

of the Danube and through Dobruja or by the Black sea. It is estimated that Rumania will be able to throw nearly a million men into the field.

Except in the Macedonian sector, little important fighting is reported from the fronts. Along the line where the Teutonic allies are in contact with the Serbians, British and French, Berlin and Paris report additional gains for their respective forces. Berlin records the capture of heights south of Zbrozko by the Bulgarians and the repulse of Serbian counter attacks on Mount Seganska, while Paris says the Serbs have made considerable progress near Vretrenika and have repulsed with heavy losses Bulgarian attacks on the roads from Banica to Ostrovo. Paris admits, however, Bulgarian occupations of positions abandoned by the Greeks west of Kavala on the Aegean.

BRITISH GLOAT OVER GERMAN DISCOMFITURE

(By Associated Press.)

LONDON, August 29.—All the London morning papers give most of their editorial space to discussion of Rumania's entry into the war, emphasizing its political and moral, as well as military effects.

With reference to its military significance the papers all assert that it alters the whole balance of power in the eastern and southeastern theaters, brings Bulgaria between the upper and nether millstones and offers Russia a route to the heart of the enemy's country, a route whose defense involves a large extension of the enemy's line and an enormous increase in the responsibilities. The Daily News says:

"It is the envelopment of the central powers which Rumanian success would complete that is the capital fact of the situation. Economically the importance of Rumania's step is the loss to the central powers of the supplies they have been drawing from the big Balkan state."

CARSON CITY LADY DIES ALONE AT HOME

Saturday evening about 6 o'clock Mrs. Julia Barlow Coombs, mother of Mrs. Herbert Coffin of this city, was found dead on the floor of her bedroom by G. H. Morrill, an old friend of the family, says the Carson Appeal.

Mrs. Coombs was born at Danville, province of Quebec, Canada, January 10, 1839, and came to Nevada 46 years ago. Two daughters, Mrs. Herbert Coffin of this city, and Mrs. Charles Hinds of Simpson, Nev., and one son, George Coombs, of Vermont, and a daughter in law, Mrs. Homer Coombs, survive her.

Mrs. Coombs was last seen alive Saturday morning, when neighbors saw her in her front yard, having come out evidently to pick up the morning paper.

RAY BAKER VISITS HIS OLD HAUNTS

Hon. George T. Marye, former ambassador to Russia from the United States, accompanied by his wife, Senator Jeremiah Lynch, formerly owner of the Hale & Norcross mine at Virginia City; Miss Lulu O'Connell, and his secretary, Raymond T. Baker, motored into town last evening in Ray's large twin six automobile. They left this morning for Goldfield and will return via Mina, Rawhide and Tahoe.

Baker is a Tonopah boy, having left camp in the early days with a caravan of burros, returning some time later with certificates of location to the Ubehebe district.

Mr. Marye stated that the party was simply touring for pleasure and had no definite business matter in mind. He said: "I am really a Nevadan. My father had a bank and brokerage house in Virginia City in the early boom times. He probably executed half the financial business of the camp in those days. The activity was something like that Goldfield must have experienced when it was in its wonderful period of speculation. My father's office was busied 24 hours in the day, the clerks working in shifts.

CAVALRY KILL SEVEN RAIDERS

(By Associated Press.)

EL PASO, Texas, August 29.—A band of armed Mexicans raiding the Big Bend mine, near Terlingua, Texas, yesterday, and destroyed mine machinery. The Sixth United States cavalry, who attacked the raiders, reported killing seven and chased the rest across the border.

HYDRO AEROPLANE NOT IN WORKING CONDITION

(By Associated Press.)

WASHINGTON, August 29.—Commenting today on the big naval war game played last week, Rear Admiral Benson, chief of operations, said the vital lesson demonstrated was the need of aircraft for scouting purposes and the urgent necessity of adding

battle and scout cruisers to the fleet.

Although the aeroplane ship North Carolina participated in the game as a scout, none of her hydroplanes was regarded as safe for use at sea. Admiral Benson said the problem of finding the best type of pontoon for the machines, minimizing the danger on landing, was being given attention.

TWO NEW TEACHERS APPOINTED DUE TO REGENT RESIGNATIONS

At a called meeting of the board of trustees of the Tonopah school district, held last evening, the resignation of Miss Grace C. Filkins was received and accepted. Miss Filkins was last year in charge of the eighth grade in the Tonopah school and in addition acted as playground supervisor. She had been re-elected for the coming year and returned to Tonopah Sunday morning to prepare for the year's work. The same afternoon she was notified by wire of her election to a similar position in the North Berkeley Outdoor school—a private school in Berkeley—on terms that made the offer worthy of acceptance.

The local board, while regretting to lose Miss Filkins for the corps of teachers, voted unanimously to grant her request for an honorable release from her contract here.

The school board last evening elected T. W. Chapman, Jr., of Belvidere, Ill., to fill the vacancy made by

the resignation of Miss Filkins. The gentleman wires today that he will accept the offer made him and will be here for the opening of the term next Tuesday. Mr. Chapman is a graduate of the De Kalb, Ill., State Normal school and holds an A.B. degree from the University of Illinois. For two years he has been principal of a grade school in Kewanee, Ill., and he comes to Tonopah with the best of recommendations.

To fill the vacancy caused by the resignation of Mrs. Muriel Robb Thatcher the school board has elected Miss Emma Inez Bowler, of Manhattan. Miss Bowler is a graduate of the Reno High school and has had three years' training in the University of Nevada. She has had a number of years of successful experience at Lucky Boy and at Belmont, and will undoubtedly be a valuable addition to the teaching force in the city schools.

MACHINES COLLIDE ON MAIN STREET

George Dugan escaped death by a fraction of an inch last night when a heavy truck driven by Bert Pollard scraped the sides of the Dugan car, bending the running board almost in two. Dugan was going up Main street, on the right side of the road, on two cylinders in the low, when the truck was coming down hill in the opposite direction on the wrong side with a view of turning the corner at Bryan avenue. The men in the truck failed to see the car and in an effort to avoid a collision Pollard ran into an electric light pole in front of Dale's. Dugan's car was struck a glancing blow on the dash board and turned half way around.

INDEPENDENT CANDIDATE FOR COUNTY COMMISSIONER

John Clendening through the Bonanza today announces himself a candidate for county commissioner in the independent ticket. Mr. Clendening has spent all his life in Nevada and has established a reputation as a man of integrity and a successful business man who can be depended on to render faithful accounting of the office to which he aspires. Mr. Clendening is first in the field for this office and the announcement will meet with approval from all classes.
