## THE PUBLIC BE BULLED

VOTE getting is, of course, the primary object of a political campaign. All manner of inducements are offered for the aforesaid votes. The Democratic mass meeting last evening was a fair example of what a party may resort to to take the place of argument, enunciation of principles and recounting of accomplishments. The country is on the eve of determining most vital matters, matters which will themselves determine the future prosperity of the nation.

Yet how was the appeal to voters made? The little girls all over town were presented with crackerjack. The little boys were given blatant tin horns. Lord knows what some of the "workers" were given, but there is no disputing what was handed out to the people in the Airplane when the candidates got into action. One didn't care what God or man thought of him, so long as the women were for him. That was a vote getting speech. You remember what the Indian said to Roosevelt and the latter, not understanding Siwash, accepted as a compliment.

Then the barrels were burned. If an individual had set a fire on the street on a breezy night he would have been incarcerated and fined, yet our friends, the enemy, ignited twelve, and the kids snatched brands from the burning and extended the risk. Meanwhile the band, under orders, confined its portfolio to ragtime. Somehow patriotic airs were lacking.

At all events, it was a big meeting, the kind that P. T. Barnum would have admired, but it is not necessary to fool all the people all the time; the only intent being to cajole a majority of them for the next three or four weeks.

## NEVADA NEEDS HIGH PROTECTIVE TARIFF

NEVADA is as vitally interested as any other state in the union in the enactment of a high tariff law at the next session of Congress. It has been proven during the years of the war that this country is capable of producing nearly every necessity and a bulk of the luxuries of life. The "Made in Germany" articles have been replaced by those "Made in America." And they are just as good, considering the brief time that has been given for developing these new industries. Unfortunately we still have in superabundance the "Made in Japan" jimeracks, but we could either do without them or duplicate them here.

The great factories in the east that sprang up to fill war orders will soon be idle and a vast army of operatives will lose their positions unless the machinery is remodeled to manufacture wares that have a market at home. Unless the tariff is amended at the earliest possible moment the manufacturing centers of the east will be scenes of suffering and want. The blow recently struck by the U-53 is beginning to be felt in cessation of exports, even though there remain unfilled war orders, probably none of which will be duplicated. The working man who does not grasp the situation and vote for the party that will restore the tariff is pursuing suicidal tactics.

Yet how is Nevada to be effected whether there be free trade or protective tariff? Nevada is a producing state, one that has a heavy balance of trade in its favor. Here on the desert we little realize the magnitude of the livestock industry. It is immensely profitable under good marketing conditions, but loss is entailed when the people are too poor to purchase our beeves and muttens, or when Argentine or Australia and Canada and New Zealand are permitted to invade our markets without paying tribute to the government in the form of an impost.

Nevada has a developing beet sugar industry, one that cannot thrive under free trade. There are hundreds of farmers, employing many hundreds of men, that will engage the coming season in beet raising provided the sugar company can pay a remunerative price for the raw material.

One of the greatest industries in the state is the mining of a metal that can be produced more cheaply in Mexico, and the silver mines will be reopened there before long. America now controls the price of the white metal and if it is admitted duty free, to be coined in our mints and used in our arts, the price certainly cannot be maintained. Altogether, Nevada needs a protective tariff just about as much as any other state in the union. To secure this tariff a Republican president and a Republican congress must be elected.

## DISCOVERY NUMBER ONE

TODAY is an anniversary of a find, and so far as we Tonopahans, Nevadans and Americans are concerned, it was the first one, unless we concede the fact that Adam discovered that there WAS light. Four hundred and twenty-four years ago the banner of Spain and the cross of Christ were planted by Christopher Columbus on an islet of the West Indies, marking the discovery of the New World.

Today the Knights of Columbus in particular and the people at large in general are doing honor to the memory of the intrepid navigator who sailed on and on and on until land birds hovered over his flagship and beneath the clouds of sunset he descried the blue outlines of another world. In the midst of money getting and pleasure seeking let a moment or two be devoted to contemplation of the man and his mission. Turn to history's pages and read of his great endeavor, his numerous discouragements and his ultimate success. Christopher Columbus, te salutamus.

Wonder if the little boys and girls who tooted the horns last evening that were presented to them by the Democratic committee realized that they were whooping it up for a candidate who did his utmost last term to have the public schools closed by cutting off the salaries of the teachers.

## HE HESITATES

THE vacillating policy of President Wilson has become a jibe in the east, being really more serious than a jest, in view of the changing viewpoints he takes on matters domestic and foreign. It is well expressed in a letter received by a guest at the Mizpah from his sister in New York, who writes: "The Wilson waltz is now all the rage. It is a very simple dance, consisting of one step forward, two steps backward, one step to the side, and then—hesitating."

## GAFFNEY PLANNING TO BUY BROOKLYN CLUB

(By Associated Press.) NEW YORK, Oct. 12.—James E. Gaffney, former owner of the Boston National league club, announced yesterday he would purchase the Brooklyn club if Charles H. Ebbetts, who has indicated his willingness to sell, would name a "reasonable figure." He conferred with Mr. Ebbetts before the game yesterday and after the conference it was said the negotiations would be resumed upon the completion of the series.

## RECORDS OF GAMBLING FILL TWO AUTO TRUCKS

(By Associated Press.) CHICAGO, Oct. 12.—The records desired by State's Attorney Macley Hoynes in connection with his announced intention of seeking indictment of Chief of Police Charles C. Healey, which developed a raid on the city hall Tuesday, were delivered

to the grand jury yesterday. Mayor William H. Thompson and his private secretary, Charles C. Fitzmorris, appeared briefly as witnesses in connection with the records. Others from the city hall and a large number of police captains also were summoned, the captains being instructed to bring all records dealing with vice, gambling and saloons. The records from the office of Chief Healey alone occupied two auto trucks.

## BISHOPS CHOOSE CHAIRMAN

(By Associated Press.) ST. LOUIS, Oct. 12.—Right Rev. Thomas F. Gailor of Memphis, bishop of Tennessee, was elected chairman of the house of bishops of the 44th general convention of the Protestant Episcopal church. Bishop Gailor succeeded Bishop Boyd Vincent of southern Ohio, who has served the prescribed six years. The Rev. Samuel Hart of Middletown, Conn., was re-elected secretary and the Rev. George T. Nelson of New York was chosen assistant secretary.

## Kelly-Springfield Automobile Tires--Hand Made.

OUR tires are guaranteed for 5,000, 6,000 and 7,500 miles. They needn't be, for it doesn't do you any particular good. Save in the rarest instances, it brings you nothing. Cases when Kelly-Springfield tires fail to yield their guaranteed mileage are nearly as scarce as hen's teeth. But the buying public expects a guarantee when it buys a tire, and we're willing to concede that to its prejudices. Normally, Kelly-Springfield tires yield 8,000 to 10,000 miles—often 12,000 or more. Why shouldn't we be willing to guarantee 5,000 miles or more, if it makes anyone any happier. If there were any doubt of them yielding 5,000 miles, we would only guarantee them for 4,000 miles, or even less. We are not selling guarantees; we are selling tire service. We don't want bickering over guarantees; we want satisfied customers only. Once you buy a Kelly-Springfield tire, you keep right on using them. You forget about mileage, guarantees, or anything else but service. That's why we are embarrassed by orders we cannot supply; why our users are willing to order their tires before they actually need them. We don't like to be in that position, and disappoint loyal customers, but you can't increase the production of hand-made tires overnight. We never have made machine-made tires. We have always built in mileage by hand. Of course, the tires cost more, but the service justifies the cost. Few users get a chance to try Kelly-Springfield tires until they have tried other tires, for we cannot afford to meet price competition to equip cars at the factory, unless the car manufacturer can afford to pay our price.
