I. W. W.'S THREATEN TO BREAK A JAIL CAPTURE TRAIN AND WHEN BATTER WAY OUT

(By Associated Press.) LOS ANGELES, Nov. 27.—Twenty-two men who said they were Industrial Workers and who were taken from a Southern Pacific train they commandeered yesterday, later nearly battered their way out of the Newhall jail. They were as "quiet as mice" in the steel cages of the county jail here. No charges have been filed yet. They were brought here when they threatened to break out at Newhall. Several said they were at Everett during the recent trouble.

WAGES RAISED 50 CENTS SHIFT

The mine workers who responded to the shrill shrieking of the seven o'clock whistles this morning did so with greater alacrity. There was a quickness about their movements and more cheerfulness than had been manifested since the pressure of high living cost began to make inroads on the savings of the industriously inclined. The fact that the Tonopah Mine Operators' association had agreed to advance wages fifty cents a shift for all classes of employees was the reason for the better spirit shown as the men got ready to go down the hole. For some time there has been talk of asking the mine operators for more money to offset the increases demanded by grocers, bakers and butchers, but this sentiment never took the shape of a formal demand. Last week two shifts employed on the Victor shaft quit work because they said they thought they were entitled to more than \$5.00 a shift. There was no strike and there was no trouble. The men simply left it to the management. The carpenters and machinists, however, made representations some time ago to the effect that members of their crafts were getting more money in other places and action was left with the operators. The mine operators have had the matter under advisement for some time and the events of last week brought a decision late Saturday afternoon to the effect that after the first of December, and while silver remains at 70 cents an ounce or better, wages would be advanced fifty cents a shift for all classes of wage earners employed by the mining companies. This makes the minimum of the Tonopah district \$4.50 for eight hours and raises the machinists from \$5.50 to \$6.00 a shift. The notice posted at every shaft in the district yesterday reads as follows: "Effective until further notice, and beginning December 1st, 1916, and only so long thereafter as the average monthly New York market price of silver for the previous month as shown by the Engineering and Mining Journal shall be above 70 cents per ounce, a bonus of 50 cents per shift of eight hours over the present wage scale will be paid to workmen of this company. As an illustration, if the average monthly price of silver for November, 1916, is above 70 cents per ounce, all work performed during the month of December, 1916, will be paid for at the increased rate. Any work performed in the month of January, 1917, will be governed by the average price of silver for December, 1916, etc." The Goldfield scale, which always has been lower than the Tonopah schedule, remains the same as before, with the minimum of \$3.50 a shift.

VILLA DRIVEN AWAY AFTER 3 DAYS' FIGHT

(By Associated Press.) JUAREZ, Nov. 27.—Information says Villa has been completely driven away from Chihuahua City and is retreating toward the mountains. It is understood Villa entered the city at different points Sunday, but was repulsed. The battle (Saturday) started soon after the telegraph communication with Juarez was cut. The wire went down at 10 o'clock a. m., and the battle started shortly before 11 a. m., and was raging by 11:30 a. m. The bandits' attack covered the entire southern front from east to west with flanking operations to the east and west. The most desperate fighting occurred on Zarco avenue, within the city. The bandits threw their best equipped forces against the entrenchments which had been thrown up across this street and street fighting followed. The Villa forces made every possible effort to take these entrenchments which were the key to the defenses of the city proper.

German Invaders Driving in Direction of Bucharest

(By Associated Press.) BUCHAREST, Nov. 27.—An official message says the Rumanians have retired from the line of the River Alt. Craiova, have rapidly pushed to the southeast and are, according to German official accounts, already in touch with Field Marshal von Mackensen's forces, which crossed the Danube at Simnati, and now are before Alexandria. The reports say that the roads leading eastward from the Alt river are encumbered with fleeing Rumanian supply columns and marked by burning villages. The Rumanian official bulletin to a large extent corroborates these reports reporting an engagement with an enemy column advancing towards Roshiori de Vede, on the railroad, a little north of Alexandria. Thus the central forces now are within fifty miles of Bucharest, which is threatened from the west, north and south. The German communique also says Field Marshal von Mackensen is personally commanding the movement across the Danube. There is no indication as to what strength he has been able to put into this sector, but his movement seems to confirm the impression that his latest withdrawal into Dobrudja was voluntary in order to assemble forces for the Danube crossing. Should Rumania be forced to defend the line running north and south from the mountains between Red Tower and Totezburg passes to the Danube, in order to protect Bucharest, military critics here consider that her position would be extremely critical. It is hoped, however, that Russia has been able to send sufficient reinforcements to relieve Rumania and that she will have sufficiently strong forces to carry on an effective fight in the Wallachian plain. (By Associated Press.) PARIS, Nov. 27.—Bulgarians on the Macedonian front launched a counter attack on the Serbians in the Cerna region and were repulsed with heavy losses. Italians continue progress west of Monastir.
