

## RIGID CENSORSHIP MAINTAINED

(By Associated Press.)  
 WASHINGTON, Feb. 5.—Great surprise exists here over the fact that up to last night neither press reports nor official dispatches have indicated that Ambassador Gerard has asked for his passports. His instructions were sent both by cable and wireless and there is no disposition to doubt that he has received them and has acted accordingly. It is assumed that the most rigid censorship is being maintained in Germany.

(By Associated Press.)  
 BERLIN, Feb. 5.—According to information in official circles, there is no prospect of any modification of the orders to submarines. The Associated Press learns that Germany will propose to Gerard a special re-ratification of the Prussian-American treaties of 1799 and 1828, allowing nationals nine months in which to leave hostile countries and settle their affairs in case of war. This would insure Americans in Germany and Germans in America against internment. The ancient treaties still are effective and Germany intends to carry them out.

(By Associated Press.)  
 WASHINGTON, Feb. 5.—Still hoping for peace, but taking every possible step to prepare for war, the president appealed to congress today to quickly dispose of routine business and clear the decks to meet any eventuality. Democratic leaders in the senate agreed in conference that a resolution endorsing the president's action in severing relations would be adopted. The situation is one of waiting for an overt act.

The president is ready to sever relations with Austria as soon as it subscribes to the German declaration. Examination of the Prussian-American treaties show that if permitted to stand they might prevent the United States confiscating German ships in American harbors.

The president believes the struggle to preserve peace is not lost and hopes the other neutral nations adding their voices to the United States will unite with the major moral force of the world to compel peace in Europe.

### TARIFF ON TUNGSTEN TO MEET FINANCIAL DEFICIT

It is probable the federal administration will place a tariff on tungsten to help meet the big deficit confronting it.

Congressman Charles B. Timberlake, Mr. Girard is addressing the tungsten producers of the state, advising them of the probable action of congress and urging them to prepare data for the guidance of the ways and means committee of congress in arriving at a suitable tariff.

# Consider Safety First

## When Buying Baking Powder

Consider only quality, only results. For it is results, unfailing results you want, and must have to help keep down living costs in these days of exorbitant food prices. You simply can't afford to experiment with inferior Baking Powders that invite bake day failures—bake day waste. And there is no reason why you should. For

# CALUMET BAKING POWDER

gives every user, every bake day perfect protection against uncertainty. It is a safe baking. A sure Baking Powder. And a pure Baking Powder.

## Safe To USE

For you know positively every baking will come from the oven light, fluffy and temptingly good. And you know this before they go into the oven. For Calumet is composed only of the purest and highest grade materials—combined to preserve as well as produce a Baking Powder of unrivaled excellence. It always possesses the maximum of leavening power—always uniform—always safe to the last spoonful. And because it is safe, it is the most economical.

## Safe To BUY

For Calumet is sold under a guarantee of satisfaction or money back. Order a can. Try it. Put it to a severe test. Use it in bakings that cause the most trouble. Judge its worth, its efficiency by actual bake day results, right in your own kitchen. Then if you are not pleased just say so and your dealer will gladly return full purchase price. The reasonable price you pay will save a substantial sum over the cost of Trust Brands. And the superior quality you receive will render Calumet of far greater value to you than Cheap Big Can Brands. Place an order now for the Baking Powder that has proved its superiority over all other powders. Received highest awards World's Pure Food Exposition, Chicago, Paris, France, March, 1912—Calumet. Look for the name on the label. Be certain you get Calumet.

**Don't Guess at Bake Day Results When You Can Be Sure of Them**

\$5,557,732 was produced in Boulder county.

This sum was a gain of nearly \$2,700,000 over the 1915 figures, showing the splendid progress in the production of the metal during the period. Much of this gain was due to improved methods of handling the metal and to the demand caused by the war for the metal.

Under the Aldrich tariff law an import duty of 12 per cent was levied on tungsten, but this was removed under the present Underwood tariff law. The removal of the tariff immediately admitted great importations of the metal and caused a slump in the market.

As there is keen competition from abroad in the tungsten market, it is apparent a protective tariff would have the result of encouraging home production. The market for tungsten is growing and prices are bound to be sufficiently high to make production a paying proposition, if given the proper encouragement.

## FIRE WIPES OUT ELY LANDMARK

About 4 o'clock Wednesday morning fire was discovered in the upper story of the Hamilton hotel, formerly known as the Graham hall, one of the old landmarks of the town, says the Ely Record. The water plugs were frozen, hence there was much delay in getting streams. Even when water was secured the foam was very weak for a time until the ice could be cleared from the fire hydrants.

The hotel property was owned by Dugan & Wilson and was well furnished, costing about \$7000, upon which there was small insurance. The first floor was occupied by the Home laundry, owned by U. Oyama, and a restaurant owned by Ben Ishihara. Their loss will amount to about \$2000, with no insurance.

The fire was caused by an overheated stove in a room occupied by a woman who had gone out. At the time the fire was discovered the thermometer registered about 14 degrees below zero. Many of the frozen were wet to the skin, but, with their clothing frozen in solid sheets, they continued the battle for more than an hour, until the flames were under control and adjoining property saved.

## FEDERAL EXPERT TO PLAN GOOD ROADS

It is stated on good authority that T. Warren Allen, the expert from the department of public roads and rural engineering, Washington, D. C., who is now in Carson City in behalf of the federal government to aid in the establishment of a state highway department in order that Nevada may be in a position to accept federal aid in the construction of highways, has mapped out a plan as a working basis for the construction of roads in the most thickly populated portions of the state.

This plan, as far as could be learned, is to construct highways between the following points: Lakeside to Ely, via Glenbrook, Carson City, Lahontan, Fallon, Austin and Eureka. From the Utah line to Verdi, via Wells, Elko, Winnemucca, Lovelock and Reno.

Reno to Gerlach, Winnemucca to Paradise, Wells via Ruby valley to Ely, Ely to Tonopah, via Duckwater, Ely via Paranaugat valley to Las Vegas and thence to the California line. Carson City to Tonopah and Goldfield, via Sweetwater, Fletchers, Luckyboy and Hawthorne. Carson City to Yerington, via Wabuska. Branch from Paranaugat road, via Moapa, through Muddy valley to St. Thomas. Possibly from Las Vegas to Goldfield, via Beatty and Rhyolite. Reno to Gardnerville, via Carson City.

front as one of the really big copper producers of the United States. The statement follows:

Tons of ore milled, 1,004,104; value per ton, \$7.45; total gross yield, \$7,481,818.46; total deductions, \$3,065,628.82; net proceeds, \$4,416,189.64; tax on 80 per cent net, \$3,532,951.71; amount bullion tax at \$1.213, \$42,854.70; expense during quarter for plant construction, \$227,140.80.

With such a large income from bullion taxes, it is probable that the board of county commissioners will be able to materially reduce the county tax levy for the present year.—Ely Record.
