DIVINE HEALING FAKER BREAKS DOWN IN COURT

(By Associated Press.) LOS ANGELES, Feb. 17.—"Prince" August Schrader, an alleged healer on trial with "Kings" Francis Schiatter for fraud in using the mails, was taken to the county hospital for treatment. He occupied a cot in the courtroom.

AN EMERGENCY PROVISION

Joe Kennison and Louis Amundsen, drivers of the Tonopah-Manhattan Auto Company's mail stages, have provided themselves with portable telephones. In case they are hung up on the road by a snow blockade or any other cause, they will be enabled to summon help.

INFANTRY SENT TO PROTECT HACHITA

ALL CAVALRY REGIMENTS ON BORDER BEING HELD IN READINESS

(By Associated Press.) HACHITA, N. M., Feb. 17.—Companies C, D, and M, First New Mexico infantry, stationed at Columbus, have been ordered here, according to reports from Columbus today. It was said the guards would come overland from Columbus in motor trucks and be used as a garrison here in the absence of the cavalry which left today for the border.

Lieutenant Colonel J. C. Waterman, commanding the Hachita district, sent orders to his troops today to maintain night and day patrols along the border instead of only day patrols as heretofore. At the same time unofficial reports were received here that all of the cavalry regiments on the border from El Paso to Douglas, Arizona, have been instructed to hold themselves in readiness to move immediately on instructions from General Funston. These preparations were believed to be precautionary against Salazar's threat of another raid.

The funeral of Andrew P. Peterson, Burton Jensen and Hugh Aard, killed by Mexican raiders last Monday, has been postponed until tomorrow to permit all relatives to attend. A number of Mormon missionaries will attend, it is said.

EARTHQUAKE HIS SUBJECT

Prof. J. C. Jones, of the University of Nevada, will lecture next Saturday evening in the high school on "Earthquakes."

John Muir Wanted to Get Far From the Madding Crowd.

Once, on reading a magazine article by an enthusiastic young mountain climber who dilated upon his thrilling adventures in scaling Mount Tyndall, John Muir commented dryly: "He must have given himself a lot of trouble. When I climbed Tyndall I ran up and back before breakfast."

At a time when trails were few and hard to find he explored the Sierra, which, he said, should be called not the Nevada or Snowy range, but the Range of Light. When night came he selected the lee side of a log, made a fire and went to sleep on a bed of pine needles. If it was snowing he made a bigger fire and lay closer to his log shelter.

"Outdoors is the natural place for man," he said. "I begin to cough and wheeze the minute I get within walls." Never at a loss to make his way in the wilderness, he was completely bewildered in the midst of city streets.

"What is the nearest way out of town?" he asked of a man in the business section of San Francisco soon after he landed at the Golden Gate in 1898.

EASY CHEMICAL FEATS.

How to Fireproof Cloth and to Make Sympathetic Ink.

"Sympathetic ink," popularly considered a "first aid" to war spies in writing invisible communications, and "fireproof cloth" offer two interesting chemical experiments the formulas for which have been supplied by a contributor to the Electrical Experimenter. They follow: Sympathetic Ink.—With a clean steel pen write on white paper with a cobalt chloride solution and let dry. When the paper is held near a fire the writing will gradually appear and disappear again when it cools because the chloride absorbs moisture from the air. Even though the paper is scorching, the writing will still be visible.

Fireproofing Cloth.—First get two glass tumblers. Add two teaspoonfuls of ammonium chloride to the water in one glass and stir until dissolved. In the other glass put a piece of cotton cloth two or three inches square and then pour the dissolved ammonium chloride into the glass containing the cloth and see that it is well soaked with the solution. Hang the cloth up and let it dry. Then touch it with a lighted match. It will burn in the flame, but will go out as soon as the flame is removed.

DRILLS STARTED ON BULLION BIG TUNNEL

Manager Davis of the Bunker Hill Mining company at Bullion, says they started up the new machinery recently installed and the drilling in the big tunnel was resumed. Just as a coincidence, he said that the miners at work drilled 13 holes, which totaled 39 feet and in which was placed 39 sticks of dynamite. When this fact became known some of the miners predicted all sorts of bad luck when the blast was fired, but everything went off as smooth as clockwork.

The tunnel is now in a distance of 2400 feet and the intention is now to continue it in to the 3000-foot mark, which will cut the fissure vein of the old Tripoli mine at a depth of 600 feet. This vein has been cut on the 500-foot level by the Churchfields, who are now shipping ore, the first carload being brought in this week and which will go \$75 to the ton.

The Grant lease shipped a carload last week which gave returns to \$60 both of the properties being silver-lead propositions.

On the Burke lease a car was shipped just a few days ago which gave returns of \$109 in copper to the ton. The Palisade Copper company is shipping out a car of copper ore, as is the Sweepstake mine, both carrying big values, and at the price of silver returning the miners a big profit.—Elko Free Press.

LIBERTY THEATRE

TODAY W. S. Hart in "THE RETURN OF DRAW EGAN." —a big lively and interesting western story that is sure to please each and every one. "BLACK EYES AND BLUE" —a two-reel comedy which is a scream. TOMORROW Wilfred Lucas in "RUMMY" —a story true to life dealing with the downfall of an energetic young newspaper man because he was a judge of good whiskey. "His Last Scent." A two-reel Keystone comedy that always pleases.

FOURTH ESTATERS INVITED

All the newspaper writers, printers and pressmen of the city will be the guests of W. B. Evans, manager of the Liberty theater, tomorrow evening, when the great newspaper play "Rummy" will be shown. Nearly all the scenes are laid in the office of the New York World and the actual processes of getting out a metropolitan daily will be observed.

GERMANY'S GREAT FOOD PROBLEM GROWING MORE STRINGENT DAILY

(By Associated Press.) GENEVA, Switzerland, via London, Feb. 17.—The food situation in Germany may not grow worse, but it scarcely can become better. This is the outstanding feature of Germany's great problem.

The German people as yet are not starving, and they still have provisions in adequate quantities to support life, while in the case of further decreases in available supplies there still is the institution of compulsory "soup kitchens," the most economical method of making all foodstuffs go as far as possible, to stand between Germany and any forced termination to the war through an absolute lack of food. Life for the civilian population of Germany on the present scanty allowance, however, is far from pleasant, though the German newspapers are fond of referring to conditions this winter and last winter as exceptional.

They also say the short rations are due largely to bad harvests and like to indicate that normal crops of grain and potatoes in the coming summer may end the present food difficulties.

Many agricultural experts believe that the central empires did as well in both years as could be expected and that the populations of Germany and Austria must reconcile themselves to getting along during the coming harvest year on no greater allowance than in the past.

ANTI-GAMBLING BILL, WHICH WAS LOST, ENGROSSES THE LEGISLATURE

(By Associated Press.) CARSON CITY, Feb. 17.—An anticipated vote on Williams' gambling bill, deposited on the table earlier in the week, was taken yesterday afternoon in the assembly. The bill was killed by a vote of 11 for and 20 against, six members being absent. Voting for the bill were Booher of Elko; Fairchild of Elko; Fulton of Eureka; Gallagher of White Pine; Garrison of Lincoln; Griffith of Clark; Kaeding of Lander; Lindsay of Esmeralda; Stodiek, of Douglas; Tidd, of Lyon; Williams, of Clark. Absent were Beard, of Washoe; Bell, of Nye; Coryell, of Elko; Palmer, of White Pine; Harriman, of Churchill, and Renfro, of Churchill. The absent members probably would have split "50-50" on the bill, Coryell, Harriman and Renfro being classed with the supporters of the measure and the other three against it.

The bill was taken from the table on motion of Hardy, of Humboldt, who later made a short speech against it. Booher and Williams supported the bill on the floor.

Williams attempted to amend the measure by inserting a clause that would permit social games for drinks or cigars. Speaker Luce refused to call for the negative votes on the amendment after ten members had voted for it, declaring it lost.

The Hardy bill, providing for the creation of a state auditor, also carries a section repealing the act of 1912 creating a state board of accountancy, the act with which the grand jury of Nye county came in contact over the appointment of an expert accountant to examine the books of the various county officials.

Assemblyman White's bill providing for an appropriation of \$10,000 to be used by the attorney general in bringing suits against persons contaminating any of the streams

PERSONAL

PETER DOHR returned to Reno this morning. TEDDY OSBORNE came in this morning from Luning. JACK MINNICK returned this morning from Chicago, where he spent the past month. W. D. KNIGHT, deputy United States marshal, returned to Carson City this morning.

GEORGE CLARK is in from McKay City, where he is developing a mining property. A powder plant blow-up is nothing to one of Tom Lawson's personally exploded bombs.—Toledo Blade.

To King Constantine an ultimatum must be getting as interesting as a laundry slip.—Toledo Blade.

Anyhow, why should Turkey wish to remain in Europe, after seeing the way Europe acts when it goes crazy?—Dallas News. One of the saddest things in this world is the ease with which a giggling girl gets married and becomes a grouch.—Dallas News.

From all parts of the country come reports of the demand for men "over 45." They seem to be making good.—Portland Oregonian.

Defeats seem to mean no more to Villa than they do the czar, and perhaps for the same reason—he always keeps away from the firing line. Our observation is that when there are two daughters and only one automobile in the family, mother walks.

BIRTH OF A DAUGHTER

A daughter was born yesterday to Mr. and Mrs. H. D. Badleman. The father is a mining engineer for the West End and Halifax mining companies.

CARD OF THANKS

The Women's Relief Corps wish to express thanks to all who took part in their recent entertainment.

CARD OF THANKS

We desire to express to the members of the Altar Society and all other kind friends, our sincere thanks and appreciation for the expressions of sympathy extended to us during our late bereavement, the loss of a loving and devoted mother.

MRS. ORIENT WARNER, ANNA E. BRADLEY, Adv. F17

BODY OF HIGHGRADE SHOWS IN THE ALAMO

W. O. Dresser of this city was in receipt yesterday of very encouraging news from his Alamo mine, due east of this city, and just inside the Nye county line. Mr. Dresser has been acquiring outstanding stock and now owns about four-fifths of the property. The mine superintendent reports that the tunnel face shows four and one-half feet of ore averaging \$100. The principal values are in silver and lead.

BELGIAN RELIEF IS SADLY HAMPERED

(By Associated Press.) LONDON, Feb. 17.—While restoring American control to the relief work in Belgium, the Germans are still hampering the work by restricting the movements of relief ships, and their cargoes. They have cancelled the safe conducts formerly given those vessels, reports received here say, and have absolutely prohibited the transport of victuals or merchandise between Great Britain and Holland. The Germans permit vessels to approach and leave Rotterdam by the North Sea, but this passage way is so full of British and German mines as to be hazardous and almost impracticable.

The suspension means that more than 75,000 tons has been lost to the hungry people of Belgium, while the demurrage and other charges on detained ships exceeds 50,000 pounds and increases at the rate of 5000 pounds daily.

BIG STORM OF THE SEASON NOW ON

The snow storm at a late hour this afternoon had no appearance of being at an end, the barometer still being low and the humidity almost at the saturation point. At 2 o'clock this afternoon the government record showed a precipitation of 3.2 inches of snow containing 35 of an inch of water. H. Legler, the weather bureau man, announces that barometric pressure is still declining and that the storm promises to continue. It is coming from the southwest in a 15-mile wind. High temperature causes the snow to pack solidly. In exposed places it is drifting heavily. High wind in the Sierras, accompanying one of the heaviest snow falls of the season, has caused all wires to go down. The Bonanza is today receiving its last Associated Press dispatches from San Francisco by way of Los Angeles and Salt Lake City. All the lines east of Reno are working. The storm delayed this morning's southbound train. The storm had just set in at Goldfield when train No. 23 departed at 8:50.

JOHNSON VS. JOHNSON DIVORCE TRIAL ENDS

The case of Johnson vs. Johnson, a suit for divorce, was concluded late yesterday afternoon in the fifth judicial district court. The plaintiff averred that their residence was practically the entire community property. Mrs. Johnson defended the action, seeking first to have the complaint refused, and, in the event that it be granted, to have suitable maintenance for herself and little son. The case was taken under advisement.

AMUSEMENTS

BUTLER THEATER A double bill consisting of a 7-reel program will be the attraction at the Butler this evening. Charlie Chaplin in all his glory, will appear in a two-reel special entitled "Behind the Screen," which is the picture scheduled for Christmas week, but when it arrived, the town was in darkness and it could not be shown, but it will be here tonight and will be shown rain or shine. The other feature is a five-reel Metro production entitled "Life's Shadows," with the popular screen favorite Wm. Nish, supported by Irene Howley, in the leading roles.

Here is a screen play distinctly out of the ordinary. In "Life's Shadows," the author, Mr. Nish, who also directed and stars in the production, has given a photo-drama of unusual power and novelty. Irene Howley was known to a wide circle of amusement lovers as the "Manhattan Girl" in vaudeville, and later as the "Pauline Frederick of the Screen," and her popularity has steadily increased. Come early prepared to spend a pleasant evening. Tomorrow, another big two-hour show: Owen Moore and Marguerite Courtot in a five-reel Paramount production: "Rolling Stones," from Edgar Selwyn's celebrated stage play.

Pearl White in the fourth number of "Pearl of the Army," more exciting than ever, in two reels, and "Percy Brains He Has Nix," another one of those celebrated Paramount-Bray cartoons, in one reel, making a program that is sure to please. Monday, a special musical program by the four-piece string orchestra during the first show.

LIBERTY THEATER

Wm. S. Hart, now to be seen in a new western play, "The Return of Draw Egan," was raised among so-called "bad men," and says most of them are not half as bad as they have been painted.

"The generally accepted idea of the western bad man," continued Hart, "used to be that he was absolutely devoid of soul; that he would stop at nothing to attain his nefarious ends. But I knew him to be different. I was only a boy on the plains, it is true, yet I was at that impressionable age, when unusual occurrences made an indelible stamp on my memory. And so it is easy for me to remember having known of the bad man being converted—particularly by good womanhood. Womanhood in most instances proved to be the magnet I have spoken of. Let a good woman, in fact, enter the life of practically any criminal, and she will bring about some change in him for the better."

Two-reel comedy "Black Eyes and Blue," a scream from start to finish. Do not miss this show, as you are bound to enjoy two hours of real fun. Tomorrow: Wilfred Lucas, in "Rummy," a gentleman, a scholar and a judge of good whiskey is "Rummy," a newspaperman, the part played by Wilfred Lucas. The press room of one of the New York city dailies is on the street level, and the whole street side of the room is of glass. You can hardly get by on the sidewalk, when the big presses are running, on account of the crowds at the windows. But everyone in the U. S. A. doesn't get a chance to walk past the windows of that New York paper, and those who do not may see the same whir of many wheels in "Rummy," the latest five reel drama produced by Triangle-Fine Arts, with Wilfred Lucas, who was a newspaper reporter for several years, in the title role. Also a two reel comedy "His Last Scent," both of these shows are sure to please, so do not pick a favorite, but attend both and enjoy yourself.

KILLED BY HUSBAND OF HARASSED WOMAN

(By Associated Press.) KENNET, Cal., Feb. 17.—William Herriman was shot dead by Claude Reppert as he entered Reppert's home today. Mrs. Reppert said Reppert said Herriman frequently wanted her to elope with him.

Attention Knights of Pythias

All sojourning Knights in Tonopah and vicinity, regardless of their standing, and all Pythian Sisters, and their families, are cordially invited to attend our Fifty-third Anniversary on the evening of Feb. 19, 1917, at 8:30 sharp.

CARD PARTY AT AIRDOME

Given by the Yeomen at Airdome Tuesday eve, Feb. 20. Card playing from 7 to 9. JHney dance 9 to 12. Six prizes; good music; free punch. Admission free. Card game entrance, 25c. F16-4
