CONSTRUCTION OF THE TYBO RAILROAD IS ALMOST ASSURED

The mining and smelting of the Tybo ores compels the construction of a railroad to Tybo and, rather than build a branch line to connect Tybo with either Ely, Eureka or Tonopah, it is contemplated to build a through north and south railroad line from Eureka or Ely to Tonopah, says the Reno Journal. This railroad, having a length of approximately 175 miles, besides making it possible to bring custom ores from the southern part of the state as well as the northern part, will become a link in a transcontinental line connecting the Southern Pacific and the Western Pacific on the north with the Tonopah & Goldfield, the Tonopah & Tidewater, the Santa Fe and the Owens valley railroads on the south.

AMUSEMENTS

BUTLER THEATER Do not miss the concert by the new four-piece string orchestra during the first show at the Butler this evening. It will be a treat to all music lovers. The feature picture this evening is Gladys Coburn and an all-star cast of Fox actors in the latest William Fox release, "The Primitive Call." Miss Coburn plays the part of Betty Malcolm, a girl who uses her influence to make an Indian chief sign a land contract with her father. She plays on the sympathies of the chief's son, whom she had known as a college boy in the east. She is successful, but the Indian is infuriated when he learns the tricks by which she has lured him on, and gets his revenge by making her work as a squaw in his encampment. Miss Coburn is practically a newcomer to the movies, for she had been acting only a few months when Mr. Fox saw her and engaged her for his new picture. The preliminary reel will be a Hearst-Pathé News. Tomorrow, the celebrated emotional actress, and popular screen star, Pauline Frederick, in "Ashes of Embers." Wednesday, Clara Kimball Young, in her second big picture, "The Foolish Virgin." Watch for "War Brides" and "The Eyes of the World."

SHIPS INTERNED IN MEXICO PREPARE FOR A DASH TO SEA

(By Associated Press.) WASHINGTON, D. C., Mar. 19.—Reports of preparations for a dash to sea by 11 war-bound German ships at Santa Rosalia, Lower California, in the event of war between Germany and the United States have been received at the state and navy departments and by the French and British embassies. The interest of the United States in such a dash is, at present, purely passive, as the ships are not in an American port and this government has no jurisdiction over them. The allied governments undoubtedly look to the Mexican government to prevent the German ships taking to sea as commerce raiders. Japanese warships which have been conducting practically all operations in the northern Pacific for the allies, probably will be called on to look after them. Sailors from the ships, who had been in Arizona, to seek employment, returned to Santa Rosalia when the news of the break with Germany was made public. One stated he had been called back by his captain. Mining men from Santa Rosalia state that although the German captains assert they are merely preparing their ships for service after the war, it is evident they are being made ready for sea. When the news of the crisis between Austria and Serbia, forerunner of the war, became known to the German skippers then plying

RUSSIA SENDS OUT NEWS TO WORLD

PETROGRAD, Russia, Mar. 19.—Following is the message sent by Foreign Minister Milukoff to the Russian diplomats abroad: "The news transmitted by the Petrograd agency (the semi-official Russian news bureau) already has acquainted you with the events of the last few days and the fall of the old political regime in Russia, which collapsed lamentably in the face of popular indignation provoked by its carelessness, its abuses and its criminal lack of foresight. The unanimity of resentment which the order of things now at an end had aroused among all healthy elements of the nation has considerably facilitated the crisis. All these elements having rallied with enthusiasm to the noble flag of revolution and the army having lent them its speedy and effective support, the national government obtained decision victory within eight days. "This rapidity of realization happily made it possible to reduce the number of victims to a figure unprecedentedly small in the annals of upheavals of such extent and importance. "This government, which assumes power at the moment of the greatest external and internal crisis which Russia has known in the course of her history is fully conscious of the immense responsibility it incurs. It will apply itself first to repairing the overwhelming errors bequeathed to it by the past, to insuring order and tranquility in the country and finally to prepare the conditions necessary in order that the sovereignty of the nation may be freely pronounced as to its future lot. "In the domain of foreign policy the cabinet in which I am charged with the portfolio of the ministry of foreign affairs, will remain mindful of the international engagements entered into by the fallen regime and will honor Russia's word."

ST. PATRICK'S DANCE WAS A GREAT SUCCESS

The dance given at the Airdome in celebration of St. Patrick's day was a success of the first order. The floor was crowded until midnight and the music rendered by Young's orchestra was in harmony with the anniversary. The hall was decorated with the national and Irish colors and the dancers enjoyed themselves to the utmost. Father Dias was present in the early part of the evening and expressed himself highly pleased. The moving pictures given in advance of the dance were pronounced very edifying and instructive and it was regretted that the attendance at this part of the programme was not what it should have been.

A Riot for Groceries

The talk about the railroad strike has stirred up everybody's interest in it. The question "What will happen if the strike is declared?" is upon everyone's lips. Do you know that there is less than three carloads of flour to supply Tonopah, Round Mountain, Manhattan and Belmont? There isn't a carload of sugar in Tonopah, and potatoes are short. What are you going to eat, a week after the big strike starts? The supply of canned goods will not last long. The bakeries can't make bread without flour, and the bread shipments from the city will not be regular if at all. You'll be wanting flour at \$10 and \$20 a sack if the strike lasts long. Let's hope it don't materialize, but be prepared for it if it does. When the strike order comes it will be too late to load up with groceries. The Southern Pacific will not take freight now, except subject to delays and shippers' risks. There will be bread riots and hunger if freight is stopped. Come early and get your orders filled. We'll not raise our prices, as long as we have a pound left to sell.

Grinnell drove him off by kicking him on the nose, but the bull returned to the charge, and Grinnell fled, running backward and kicking at the bull. Not looking where he was going he backed into a cottonwood tree and the bull crushed him against the trunk.
