GENERAL CROWDER ISSUES NOTICE TO ALL REGISTRANTS

PRESIDENT FIXES THE PRICE OF COAL FOR THE WHOLE COUNTRY

(By Associated Press.)
 WASHINGTON, Aug. 22.—Bittum coal prices were fixed by President Wilson last night for every mine in the United States. The next step in coal control, a white house announcement said, will be to fix the prices to be charged by middlemen and retailers.
 Prices were set on cost of production estimates furnished by the federal trade commission after months of exhaustive investigation. The country is divided into twenty-nine districts and every producer in a district will market his output at the same price.
 The president named no agency to carry out the provisions of his order, but is expected to appoint soon a coal administrator who will be given entire control of the coal industry. Rumor names President H. A. Garfield of Williams college as the man. Mr. Garfield now heads a committee named by the president

to fix a government price for wheat. His work will end before Sept. 1, when the wheat committee probably will be dissolved.
 The prices named for run of mine coal in the large producing districts averages slightly more than \$2. In a few districts they are below that figure and in the western territory they are higher. Washington state is highest with \$3.25.
 The prices at western mines are as follows:

State	Run of Mine	Prepared	Slack or Screens
Indiana	\$1.95	\$2.20	\$1.70
Illinois	1.95	2.20	1.70
Illinois (third vein)	2.40	2.65	2.15
Iowa	2.70	2.95	2.45
Kansas	2.55	2.80	2.30
Missouri	2.70	2.95	2.45
Oklahoma	3.05	3.30	2.80
Colorado	2.45	2.70	2.20
Montana	2.30	2.55	2.05

New Mexico 2.40 2.65 2.15
 Wyoming 2.50 2.75 2.25
 Utah 2.60 2.85 2.35
 Washington 3.25 3.50 3.00
 Last night's action was taken as an indication that the president has abandoned a plan originally considered which called for government requisitioning of the output of all mines, with the government selling the product to the public. This procedure was strongly recommended by the federal trade commission and up until tonight it had been believed it would be the program adopted.
 The plan adopted, officials admit, will work hardship on a great many of the smaller mines and may force some to close down. This, it is claimed, will not reduce the total coal output as miners released from the small mines will go to the large ones and more cars can be supplied to mines of large producing capacity.

Japanese Bank Pays 91 5-8c.

The silver market took the bit in its teeth this morning and broke all records by presenting the paradox of east and west contending for the mastery with a difference of 3 1/2 cents an ounce. The east represented the bear element for the official quotation from that quarter was given as 88 1/4 while San Francisco reported sales at 91 5/8. This quotation was received by the Tonopah Banking corporation and cannot be questioned since it came from the regular correspondent who stated that the sale was made on a buying order from a Japan bank.

Mobilizing Facilities Are Taxed to Take Care of The First Half Million

(By Associated Press.)
 WASHINGTON, Aug. 22.—General Crowder, provost marshal, will prepare a full statistical report on the operations of the draft law after the national army mobilization in October. Pending analysis of such report no steps will be taken toward calling a second increment. Gen. Crowder said a second call has never been discussed yet as all

training facilities were taxed by the first call.
 It is not likely that the organization of an additional 500,000 can be begun until early in the spring of 1918.
 Draft regulations probably will be somewhat amended. The changes will be based on the actual experience with the first increment. Some amendments may be necessary

by congress. Possibly some provisions may be made whereby all sons of one family will not be taken. A new regulation defining the status of married men may be acted on and the status of aliens worked out. Another matter to be worked out is the status of men who pass beyond the draft age since being drafted, and those who have become of draft age in the meanwhile.

SENATE WILL TAX THE WAR PROFITS

GRAND TOTALS OF TWO BILLIONS WILL BE SWOLLEN BY AMENDMENTS

(By Associated Press.)
 WASHINGTON, Aug. 22.—When the senate resumed the war tax debate it seemed a foregone conclusion that the bill's total of two billion would be increased by additional levies on war profits and incomes. At least thirty senators are said to favor high levies on big incomes.
 Senator Lewis of Illinois, charged that the government had been defrauded of fully \$300,000,000 by income tax evaded by the wealthy, of which the treasury department has proofs. Lewis was speaking on the war tax.
 The senate tentatively adopted Senator Gore's amendment adding \$40,375,000 by greatly increasing the surtaxes on incomes over \$500,000. All of Lenroot amendments, made in the house, providing for a 25 per cent increase in surtax rates on incomes exceeding \$60,000, were retained.

The aliens seem to have extended a certain influence over the uneducated Mexicans. Germany is trying to convince the Mexicans that the United States intends to overthrow the sovereignty of Mexico by force. They also spread the belief that the allies are in desperate straits and the Germans sure to win.
