## TITANIC STRUGGLE NOW GOING FORWARD IN FLANDERS

### WHITE SOX APPROACH A STEP NEARER GOAL

McGraw's Giants Vanquished Yesterday in Second Pennant Game at Chicago By a Score of Seven to Two

(By Associated Press.) CHICAGO, Oct. 8.—The Chicago American League baseball machine trundled half way to victory in the world's series clash with the New York Nationals Sunday, when the White Sox defeated the Giants 7 to 2 in the second game of the titanic struggle. The teams are now in New York City, where on Tuesday the series will be resumed, and if the local team continues to play the type of game it has displayed here supporters of the Comiskey clan are convinced that the Sox should at least break even with the Giants in the next two contests at New York.

The White Sox rolled over the Giants like a baseball juggernaut, leaving disaster and dismay in their wake. The second victory was far more impressive than the win of Saturday and when the teams left the field the Chicago club was surcharged with confidence, while the New York combination was badly shattered, both physically and in morale.

The National League champions were obliged to use four pitchers and now the White Sox have sampled, with satisfactory results from their standpoint, the service of five of the seven hurlers of the Giants' staff. Only Benton and Demaree remain unscathed.

Both at bat and in the field the

### SOX CONFIDENT; GIANTS UNDISMAYED

(By Associated Press.) NEW YORK, Oct. 8.—The Sox and Giants are due to be late today. Local fandom is disappointed but undaunted with the result in the two defeats, hoping the Giants to win the next two. Wagers of three to one on the Sox are asked, but little money is in sight. The weather promises to be fair.

McCart, who was forced to retire from the game in yesterday's mix-up at the plate, declared he expected to resume play tomorrow. He was not seriously, though painfully, hurt.

Still confident, the Giants passed Detroit en route to Gotham. Beyond admitting that they were clearly outclassed in practically every department, they had little to say of their Chicago defeats.

### PRINTING COMMITTEE FILES ITS REPORT

(By Associated Press.) WASHINGTON, Oct. 7.—A report recommending government operation of the print paper and pulp industries during the war and arranging with what it calls the defiant attitude of print paper producers was filed today by the senate printing committee. It will await action at the December session.

The report says the federal trade commission's finding "show beyond any question that the print paper industry, in its greed for excessive profits, had imposed a most unjust burden on the American people, which faces a serious disaster if relief cannot speedily be had from the oppressive prices now exacted for print paper."

It adds that the commission, in its recent investigation, exhausted every resource at its command to obtain relief for the publishers, but has been able to get only a small measure of relief owing "to the defiant attitude assumed by the principal producers of print paper."

### GERMANY'S DEFEAT IS ADMITTED

(By Associated Press.) AMSTERDAM, Oct. 8.—George Goethen, progressive member of the reichstag, is quoted as telling the members of his party that, although the military situation is satisfactory, there is no hope of crushing Germany's enemies on land. Germany's allies are not inclined to continue the war for pan-German plans of conquest, but are striving for peace by an understanding conciliation, Goethen said. He asserted that long working hours and insufficient feeding at home had increased the workers' desires for peace. He predicted strikes if the war continued for conquest.

He said the pan-German plan of annexations was finding a bad reception among Germany's allies. Asserting that submarines sunk 7,000,000 tons of shipping, but without disposition on the part of England toward making peace, the rationing system for foodstuffs had not been even introduced, none being able, he said, that when the submarines make England more inclined for peace.

"America cannot be forced to make peace or pay indemnity," he said. "It remains only for England, should we, in order to obtain an indemnity of 10,000,000,000 marks, sacrifice 50,000,000,000 and another 500,000 men."

### DENSE FRONT BY THE BRITISH CONTINUED

British Repulse Counter Attack By Germans Last Night East of Ypres

(By Associated Press.) WASHINGTON, Oct. 8.—Decisive ascendancy for the allies in the supreme test of battle strength now taking place on the bloody fields of Flanders is claimed by Secretary Baker in the weekly review of war operations issued by the war department.

While it may be premature to assert that the British war machine has forced a decision over the Germans, Mr. Baker says, the victories of the past fortnight, threatening the German submarine bases on the Belgian coast, are conclusive indications of the allies' superiority. With favorable weather, he thinks, these victories will be repeated and extended.

The review, which is for the week ended last night, makes no reference to the American forces in France or to the great preparations for war going forward at home.

"The attention of the world," it says, "is focussed on the titanic struggle now going on in Flanders. The battle raging there is proving an engagement of wholly unprecedented scope and potentialities.

"At the beginning of the week, owing to bad weather, the Germans were able to launch counter-attacks against the positions recently

### LIMIT PLACED ON EXPORT OF SILVER

(By Associated Press.) TOKIO, Oct. 8.—A limit on the export of silver, both specie and bullion, is fixed under a special ordinance issued by the ministry of finance. This is inspired by the recent appreciation of silver in the European markets and diminution of the silver output in various producing countries. As a result of the advance in price the actual value of silver currency in Japan has risen above the face value. A contravention is also provided for melting coin into bullion which could thus be sold abroad at a great profit.

### DRAMATIC CRITICS ARE LIABLE TO MISTAKES

(By Associated Press.) PARIS, Oct. 8.—One of the small Paris theaters has set about proving that dramatic critics are not infallible. Every evening before the rise of the curtain on an adversely criticised but no less successful play, the irate manager appears, bearing a bundle of newspapers, from which he reads the choicest condemnatory excerpts. Having thus stated the newspaper view of his play, he leaves the rest to the judgment of the audience, which, in most cases, proves highly favorable to author, actors and manager.
