The Bonanza is kept on file at Dempsey & Stanley, Turk and Mason streets, San Francisco.

MALEFICENT MUNIFICENCE.

DIRECTOR GENERAL MADOO—we thus speak of him in order to retain the distinction among his many and varied functions—is said to be ready to increase the wages of railway operatives again. Of course, the public will foot the bill. But in paying it we hope we shall get our money's worth in increased efficiency among the beneficiaries of the director general's generosity with other folks' money. Such has not always been the case. The shipping board has told a committee of congress that an increase in wages among shipbuilders on the Pacific coast, while it ended a strike, produced another condition equally acute. The men found that they could earn as much in four days as they used to earn in six, so they refused to work more than four days a week, and a bonus had to be instituted to get the other days' work. Some such a condition developed also among the coal miners, and Administrator Garfield put on a fine for those who absented themselves from work. Thus, by the way, was about the only sensible and effective thing Administrator Garfield has done.

GIVE US DOLLAR SILVER, UNCLE SAM.

THE permanent price of silver hasn't been fixed yet, and according to news received in Tonopah yesterday, it would be well for not only the mine operators, but the shareholders, to get busy. Write to your senator and your congressman and tell them that it must be one dollar an ounce. That leaves the government a big seigniorage and affords the producer a margin of profit. So long as three bewhiskered individuals can meet every morning in a Pearl street office in New York and whisper a while and then send out wires establishing the price, which changes every day, and sometimes twice a day, why should we sell Red Hill in order to buy Cash Boy, or turn any other gold stock into silver? In other words, why should not the silver market be as stable as that of gold? Both the white and yellow coinages bear the government's stamp. It is just as important for Uncle Sam to have something to say about the price of silver as he has about the running of the railroads, and then some.

NOW ISN'T THIS TRUE?

EVERY day the Bonanza receives from fifteen to twenty-five franked letters from all sorts of departments and commissions, requesting publication of government matter. This paper earnestly tries to give as many of the communications as possible full publicity. Guess all the other papers try likewise, but it is a burden. Did you ever stop to think how much the newspapers of the United States have done and are doing to back up the administration and aid the war? In the first Liberty Loan drive it was estimated that the space devoted would have cost any other advertiser \$18,000,000. But the newspapers didn't receive a cent and the publishers didn't want a cent.

At the same time everybody else in every line of business has been annexing the public funds. It is unpatriotic, to be sure, but that isn't all. It must be stopped! War profiteering is the next thing to treason. And inasmuch as the newspapers are doing their best, the other fellows should be ejected or forced into doing at least their bit. It's not only the president's war, but the newspapers' war.

NOT A WILSON PEACE CONFERENCE.

THE president says he wants to be sure that the German delegates to the peace conference shall represent something besides the military party. But, unless the peace conference is to set up novel rules of procedure, how is that to be determined? It might be that President Wilson's own delegates at the table will have their authority put under examination. If, as is altogether likely, the next congress is Republican, and, as we all hope, the peace conference will meet in 1919, would it be proper to ask if the American delegates represented congress, or the army, or the president alone, or the whole American people? Of course, there can be no such inquiry. If a delegate to a peace conference can exhibit impeccable credentials and can establish his powers to act, that is all there is to it. Whoever enters that conference will have to put up with the delegates who the powers participating shall send there. The president can select the personnel of the American delegation only.

DO IT WHILE YOU CAN.

THIS morning the humble writer of this space-filling item attempted to reproduce in typewritten words an image of a thought that came to him when in semi-sleep. If he had arisen at the time, switched on the light and engrossed notes, it might have been a success, but the opportunity passed. Lord, how these opportunities do slip by! Dave Williamson of the Gazette, for instance, could have had Arthur Brisbane's job if he had been an opportunist. At least, he says he could, and that's final. Just a moment, Mr. Operator, you can have enough to finish the column in a second. Reverting again to the theme of opportuning, do you realize that every second you grow older the arterio sclerosis increases? You're growing old, man, and you are less capable every day and will continue to be so hereafter. So, do something now. It will be easier than it will on tomorrow. We cannot afford to pass out of the world without accomplishments to our credit. When the copper pennies are placed over our eyes and the sheet pulled over our face, we will have no opportunity to regret. Get busy. Do something. Think a noble thought. Perform a charitable, a noteworthy deed. The time is getting short. All right, operator. The space is filled.

GET THEM AND GET THEM GOOD.

IT IS disquieting to read news from Gardnerville that a bunch of Germans celebrated the torpedoing of the Tuscania by swilling beer in a saloon conducted by a Teuton, cheering the kaiser and rejoicing over the fact that hundreds of American heroes went to their death. There is a Prussian Lutheran minister who went to all manner of means to prevent a Gardnerville American-born boy, the son of German parents, from being drafted into the army. He visits Tonopah occasionally to help people here to worship God. Wonder if it isn't the kaiser's partner that he is working for? But, on second thought, the kaiser hasn't any partner any more, the latest rumor being that Satan himself has given the German ruler the glassy eye, for the game he plays is too rough. It is well that the commissioners of Douglas county rescinded the license of the Dutch saloon keeper and it will be even more well if federal authorities press the case to the finish and properly punish not only the saloon keeper, but his disloyal patrons.

NEWT WILL SHOW YOU.

KITCHENER, though reputed to be the finest organizer of modern armies, soon discovered that he could not at the same time handle the problem of creating the equipment for them; and his supreme control in the British war office was soon shared by a minister of munitions. In the United States, Mr. Baker evidently thinks he can do what Kitchener failed to accomplish.

NOTES ON SPORTING EVENTS

(By Associated Press.)

CHICAGO, Ill., Feb. 15.—As usual 154 games will be played in the American league in the coming season, according to the official schedule announced last night. The season will open in the East on April 15, one day prior to the opening in the West. In the initial games Philadelphia will meet Boston at the Forbes field, while New York will cross bats with Washington in the capital city. The western opening the next day will see St. Louis in Chicago against the world's champions, while Detroit is scheduled to play in Cleveland. The season will close October 5.

There will be only three conflicting dates with the National league and all these will be in Chicago.

Cleveland will be the opponent of the world's champions on all three occasions—June 23, August 31 and September 1.

Cleveland has been awarded the greatest number of Sunday games—fourteen. Chicago, St. Louis, Philadelphia and Boston have been given thirteen Saturdays each. Independent day games will be played in Chicago, Cleveland, Washington and Philadelphia. The Labor day program calls for games in St. Louis, Detroit, Washington and New York, while Decoration day there will be games at Detroit, Cleveland, New York and Boston.

New York will play two games at Boston on Bunker Hill day, April 19.

GOOD CROPS IN EGYPT.

(By Associated Press.)

CAIRO, Feb. 15.—Egyptian crop estimates are of the most satisfactory character. Rice is 21 per cent above normal, and the yield of wheat and barley will be well above the average. In every case the area under cultivation is larger than ever before.

ASSESSMENT NOTICE.

TONOPAH GYPSY QUEEN MINING COMPANY.

Location of principal place of business and location of works, Tonopah, Nye county, Nevada.

Notice is hereby given that at a meeting of the Board of Directors, held on the 31st day of December, 1917, an assessment (No. 13) of one cent per share was levied upon the capital stock of the corporation, payable immediately, in United States gold coin, to the Secretary, at the office of the company, 265 Russ building, San Francisco, California.

Any stock upon which this assessment shall remain unpaid on the 31st day of January, 1918, will be delinquent and advertised for sale at public auction, and unless payment is made before, will be sold on Monday, the 4th day of February, 1918, to pay the delinquent assessment, together with the cost of advertising and expenses of sale.

By order of Board of Directors, CHARLES D. OLNEY, Secretary, Office Room 265 Russ Building, San Francisco, California.

Postponement.

The above sale, which was to have taken place on February 4, 1918, has been postponed by order of the board of directors until February 14, 1918. CHAS. D. OLNEY, Secretary, Office Room 265 Russ Bldg. San Francisco, Cal. P9P14

WHAT'S WHAT

Vol. 1, Tonopah, Feb. 15, 1918, No. 6

(By L. L. Mushett.)

I wonder where Eddie Mead is. Did you hear the big story about the Red Hill ledge apexing somewhere in Esmeralda county outside their own ground? Isn't it a fright? Stopped over at Divide today, en route to Goldfield. Believe me, they are not shorting that bird. There should be a real market when the crosscut hits the pay crack over yonder.

Do you think it would be a great scheme to consolidate a lot of those companies in Manhattan? Let's hope everybody gets together when the verdict comes in.

Business is rushing, with the supply and demand about balanced. In order to meet the requirements it is necessary to keep a line on machinery of every description. There is no certainty as to when delivery on new goods can be made and as a general thing, when a man wants a piece of machinery, he wants it quick; therefore, the market for good second-hand stuff is fine. There will be an unusual amount of new work started this spring and I would like to have a list of every available piece of second-hand machinery in Nye county in order to keep pace with the demand. Right now there is a demand for eight-pound steel relaying rails. If you have more in stock than your prospective requirements, give me a price on what you want to sell.

Dig into your storehouse and let me turn your surplus into cash. If you don't need the money you can buy Liberty Bonds.

Have a call for a small electric generator. Send in description and price for a quick sale.

You can't beat the Sullivan drills; ask the boys who have used them under all kinds of conditions. The company has neglected this district, but we are going after the business p. d. q.

OLD SHELL AWAKES.

LONDON, Feb. 15.—A huge howitzer shell which had stood on the hearth in the home of Sergeant Daniel Morgan at Tweedmouth for sixteen years, exploded with tremendous violence a few nights ago, almost demolishing the house and injuring the sergeant's three children. The shell was brought back from South Africa as a souvenir and it was supposed that the charge had been withdrawn. It is supposed that a spark of burning soot penetrated the fuse opening at the nose of the shell.

VOLCANO AWAKES TO NEW ACTIVITIES

(By Associated Press.)

SAN JOSE, Costa Rica, Feb. 15.—The Irazu volcano, the largest and highest in Costa Rica, awakened and began a new period of violent activity after nearly two centuries of quietness.

The previous remarkable eruption of this volcano took place in 1723, when Costa Rica was the poorest of the colonies under the crown of Spain. During that year the Irazu was in activity throughout the whole year, emitting huge quantities of ashes, cinders, smoke, vapor and gases, and the manifestation was followed by earthquakes. Then came a period of long rest. It fell into a deep slumber for nearly two hundred years.

Now it has awakened again and is pouring out, without interruption, torrents of vapor, sublimates and ashes, cinders and volcanic debris.

GAS FOR AMERICANS.

AMSTERDAM, Feb. 15.—The German newspapers, speaking of the great offensive which they say Hindenburg is going to launch in the west, say that the army has a new poison gas of surpassing effectiveness "which is being reserved as a surprise for the Americans."

I positively guarantee that every watch repaired by me will not lose or gain a minute a week. Emil Merman, at Roberts Grocery. advJ25t

NEW TODAY

THAT ANNOYING, PERSISTENT COUGH

may lead to chronic lung trouble, or mean that the chronic stage already is reached. In either case try **ECKMAN'S ALTERATIVE**.
