Terms of Subscription by Mail for Daily Bonanza: One Year \$12.00, Six Months \$7.00, Three Months \$4.00, One Week \$1.00, One Month \$2.00. Delivered by Carrier, \$1.25 per Month.

MEMBER OF THE ASSOCIATED PRESS. The Associated Press is exclusively entitled to the use for republication of all news dispatches credited to it or not otherwise credited in this paper and also the local news published herein.

REWARD. A reward of \$10 will be paid for information that will lead to the arrest and conviction of parties stealing The Bonanza from subscribers.

The Bonanza is kept on file at Dempsey & Stanley, Turk and Mason streets, San Francisco.

Entered at the postoffice in Tonopah as second class matter.

TEAM WORK OR INDIVIDUAL EFFORT

WE have been told that it is team work that is wanted, that team work gets results, that team work will win the war. We agree. But when team work is thought of there is grave danger of forgetting that without individual effort there can be no team work. The team work of any body is as strong, as effective, as efficient only as the individuals composing that body are strong, are effective, are efficient. As we are wont to do in mechanics so may we measure the strength of any body by stating that it is only as strong as its weakest member. That seems self-evident. In our opinion we have heard too much about team work and not enough about individual effort. When once we accept the team-work idea we are likely, very likely, to allow too much of the work to fall upon the shoulders of our team mates. After all, it is the individual effort that will win this war. It is each individual doing his or her part to his or her utmost that will bring victory. When the individual realizes that it is all up to him or her as the case may be, then and then only will we begin to see the effects of the team work that is being spoken of on every side. For then we will have developed a genuine and lasting, unified effort. We all know what is wanted. We agree on the essentials. It is up to each individual. We are still behind on the third Liberty loan. Let each individual settle that question the way it should be settled and when he does that we will have done our duty to all concerned. Never mind what your neighbor is doing. Let each one of us give to the limit of our ability and the team work will take care of itself. Let's have a great deal more individual effort along the line of buying bonds.

NEW DEATH-DEALING DEVICE

THERE have been machine guns and machine guns, one after another, and the United States army has adopted the Browning machine gun after tests had been made of many. The Browning gun fired 39,000 shots without interruption at the rate of 500 per minute and was said to be practically as good after the test as before. It is a water-cooled piece which is operated by the recoil. It is used with a tripod and weighs with the water jacket filled, some 34 1/2 pounds. It uses the .30 caliber, rimless, cupro-nickel bullets, the same that are used by our soldiers in the Springfield and the modified Enfield rifles. Modified and stripped of its water jacket the Browning machine gun weighs 22 1/2 pounds and can be used on airplanes. Comes now, however, a new form of "coffee mill," as machine guns are termed by our soldiers. It is one of the most remarkable death dealing devices of its kind that has ever been invented. It is remarkable for the following reasons: It uses steel balls, uses no explosive in any form, fires the balls at the rate of 3000 per minute and at such a terrific velocity that they will pierce boiler plate three-eighths of an inch thick at a distance of 100 yards. The steel balls travel at a sufficient rate of velocity to kill at 5000 yards, it is claimed.

The new gun operates on the principle of a cream separator. Its inventor claims that it has been designed to slaughter Huns more rapidly and more economically than any other form of machine gun. The inventor has taken advantage of the principle of centrifugal force. The machine is equipped with a hopper into which is fed the steel balls. From the hopper they are fed to a revolving disk traveling at a terrific rate of speed and from which they are driven at the enemy. The operator has no difficulty in directing a veritable stream of death dealing steel balls at the enemy. The machine is run by a small electrically driven motor and the entire gun weighs slightly less than 90 pounds. Other means are provided for driving it also. Imagine a regiment of American soldiers in the first line trenches. Imagine every tenth man in the regiment equipped with such a device and then imagine the Huns sweeping toward that trench in their massed formations. Imagine the other nine Sammies employed in bringing up the necessary steel balls. It might require easily that number to feed such a machine. It is well known that the Americans are expected to teach the Hun what the true meaning of his "program of ruthlessness" is. It is entirely possible that the new "coffee mill" will be used for that purpose. Its weight would not prevent it being carried on the American airplanes. The only difficulty would be in keeping it supplied with steel balls. Perhaps the "coffee mill" is the long looked for surprise that is to come from the Americans.

PLAYING AT POLITICS

DISPATCHES from Washington state that there is to be a finish fight on the Overman bill. In other words there is a certain faction in congress that is bitterly opposed to clothing the president with the power to select the men he deems necessary to get desired results. The passage of the Overman bill would give him the power to place the most efficient men at the work that they are best fitted for. In other words, the president would not have to ask permission of the senate and would not have to ask the house to pass the necessary appropriations to pay such individuals. At the present time he is in much the same position as the managing director of a mining company would be were it necessary for him to ask permission of the board of directors whenever he wished to hire a superintendent and to call the stockholders together and ask them please to pungle up the money for the superintendent's salary. There are some mining companies that do that very thing but they don't last long. Nor do such companies get very much done. The excuses offered by the obstructionists to the Overman bill are various. One of the principal ones is that it would give the president too much power.

But we think that the principal reason is that the president does not care to put the political friends of the politicians to directing work for which they are not fitted. He has demonstrated that he is capable of selecting the right man for the right place. He has picked the best known purchasing agent, the most active railroad executives, the leading coal operator, and many others. One of the men added recently is Charles M. Schwab, who started right

in by ending a dispute of three weeks standing as to whether the railroads or the shipping industry should have the preference in getting steel. It is not a question of politics with the president for the men he has selected represent all shades of political opinion. It is a question of getting the work done. We are at war. Let the haggling go on and we will be facing a crisis if we are not facing one already. This is no time for politics. Patriotism has inspired the distinguished men that have answered the call of the president. Patriotism should inspire, if such a thing is possible, those that are attempting to obstruct the passage of the Overman bill. They should be big enough to forget their petty jealousies at this time and if they are not big enough they should be retired by their constituents at the earliest possible moment.

CLIPPED AND CREDITED

The humiliating spectacle of Russians fighting again must almost unsettle Mr. Lenine's faith in human nature.—Kansas City Star.

Since we must Hoopverize on summer ice, it should be a comforting thought that the mint julep has gone out of fashion.—Atlanta Constitution.

The cost of living in Germany is said to be enormous, and the cost of getting into the fertile part of France via the region of the Somme seems to be prohibitive.—Louisville Courier-Journal.

What a joy to see the British troops in the Palestine ravines and besides the Mesopotamian lagoons keep at their lonely mopping up as if the destinies of Europe rested only with them.—Boston Herald.

German agents may be paying the blacks in Mississippi to resist the draft, but Uncle Sam will pay for burying them.—Portland Oregonian.

NOTES ON SPORTING EVENTS

(By Associated Press) ST. PAUL, April 24.—The feeling persisted in the Twin Cities last night that the proposed championship fight between Jess Willard and Fred Fulton would not be held in St. Paul on the fourth of July.

Active opposition from several organizations and the announced determination of leaders of these forces to enlist state-wide support was regarded as the chief cause for pessimism.

It was believed this opposition was responsible for an intimation from the capitol that the safety commission would forbid the fight while the United States is involved in war.

The safety commission yesterday listened to arguments and then took the matter under advisement. About 100 women, clergymen, attorneys and other persons attended the hearing.

Colonel J. C. Miller, promoter of the contest, made no new announcement last night. He was quoted yesterday as declaring that he would give \$20,000 if he could shift his fight burdens to other shoulders.

(By Associated Press) MINNEAPOLIS, April 24.—Charles Jackson, outfielder, who played with Spokane in the Northwestern league last year, has been purchased by the local American association club from Pittsburgh. It was announced here yesterday. William Gray, catcher, who played with Fort Worth in the Texas league last season, has been

NAME BRINGS HIM MUCH HUMILIATION

(By Associated Press) SALINAS, April 24.—After being subjected to great humiliation ever since America entered the war, because of the war Carl Bernard Detrich Kaiser today petitioned the superior court of Monterey county to have his name changed to Carl Bernard AH.

The reasons given in the petition for the change of name are as follows: The United States is at war with the imperial government of Germany whose ruler is known as the kaiser; which name is synonymous with autocracy which is the opposite of democracy; cruelty, which is opposite to humanity; barbarism, which has no respect for civilization; Prussian militarism, which hates Christianity.

The petitioner recites that he is a native born American citizen, having been born in Nebraska, and believes in all the principles of the United States government; that daily he is subjected to great humiliation by people whom he meets because of the name of his ancestors but changed to Kaiser by German customs over which he had no voice.

BAR NEGRO FROM RING

(By Associated Press) TOLEDO, O., April 24.—Willie Langford, Buffalo negro pugilist, was fined \$100 and barred from further participation in Ohio rings at a special meeting of the Toledo boxing commission yesterday. Langford was found guilty of "stalling" in his twelve-round bout with Jack Blackburn of Philadelphia here Monday night in which he was outpointed in every round. The commission gave bleachers off Marquard was his second make Langford fight.

BUILDING SHIPS

(By Associated Press) LONDON, April 24.—An official announcement states that seventeen standard ships have been completed in Great Britain, of which one has already been lost.

Seventy-seven ships damaged by submarines were under repair in British shipyards on March 1, and five more were awaiting repair facilities.

Table with columns: Team, R, H, E. Includes games at Salt Lake, Sacramento, Salt Lake, and San Francisco.

EASTERN GAMES

(By Associated Press) ST. LOUIS, April 24.—A triple by Baird, followed by Schmidt's error in the seventh inning of yesterday's game enabled St. Louis to defeat Pittsburgh 6 to 5. Pittsburgh, due to Doak's wildness, got off to a five-run lead in the second but St. Louis tied the score in the third when Steele was driven from the mound. May, who replaced Doak in the third, held his opponents to two hits as did Sanders, who relieved Steele. In the seventh Baird tripled, Hornsby was safe when Schmidt dropped his high fly, Cruise fanned and while McKechnie threw out Paulette, Baird scored what proved to be the winning run.

(By Associated Press) NEW YORK, April 24.—The New York Nationals made a clean sweep of their first home stay, defeating Boston yesterday for their sixth straight victory, the score being 9 to 2.

The Giants hit both Crum and Canavan hard and opportunely. Doyle made a double and two singles and drove in three runs, scoring a fourth. Zimmerman hit a three-base hit with the bases full in the sixth inning.

(By Associated Press) NEW YORK, April 24.—There are 107,000 women employed in the Prussian railroad service. The Prussian railroad minister, Von Breitenbach, in so announcing in the Prussian house of deputies, said it was astonishing to see what the women could do.

(By Associated Press) CLEVELAND, April 24.—The Indians bunched hits off Gallia yesterday and defeated St. Louis 8 to 2. The locals made their long hit count for runs, most of the coming with men on the bases. Coumbe

pitching his first game of the season, was scored upon in but one inning, the fourth when Sister walked and scored ahead of Gedeon when the latter hit for a home run to left. The hit would have been good for only two bases but Left Fielder Grady made no effort to field it, believing it a foul ball.

WASHINGTON, April 24.—Philadelphia made it two straight victories over Washington by taking yesterday's game 5 to 0. Myers held the locals helpless, while the visitors bunched hits on Dumont in three innings.

CINCINNATI, April 24.—By annexing yesterday's game 3 to 2, Cincinnati succeeded in winning the series with the Chicago team 2 to 1. Yesterday's contest was a pitchers' battle with Tyler having the best of it from number of hits recorded, but Bressler being returned the winner through his ability to keep the hits made off him scattered, combined with poor fielding by the Chicago team.

Chicago took a two-run lead in the third on passes to Barber and Pascher and singles by Mann and Kilduff. Cincinnati scored their first run on singles by Allen and Groh and Elliott's wild throw. The home team tied it up in the sixth on Hollocher's fumble, L. Magee's sacrifice, a pass to S. Magee and an error by Merkle after S. Magee had been caught off first. The Reds won the game in the seventh on a double by Blackburne and a single by Allen.

BOSTON, April 24.—Pitcher Thormahlen of New York held Boston hitless until the ninth inning yesterday when Boston, with the bases full and none out, scored the only run of the game on Whiteman's long sacrifice fly to left which Bodie dropped. With one out in this inning, Strunk singled and took third on Ruth's pinch single on the first pitched ball. McInnis was purposely walked, filling the bases, setting the stage for Whiteman's sacrifice fly. Bush was hit safely three times, twice by Bodie, Peckinpaugh, Strunk and Whiteman contributed brilliant plays.

PHILADELPHIA, April 24.—Bradley Hogg, recruit from Los Angeles, pitched Philadelphia to victory in his first game of the season yesterday 7 to 2. Brooklyn scored first, but the locals hammered Mammaux from the box soon afterward.

Captain Luderus' drive into the cleachers off Marquard was his second home run of the season. He also hit the right field wall twice for a double and single.
