# The Farmer's Share

Live stock is marketed from farmer to consumer at a lower cost than almost any other farm product.

The United States Department of Agriculture reported in 1916 that the farmer gets for his cattle "approximately two-thirds to three-fourths" of the final retail price paid by the consumer for the resulting beef.

Under normal conditions, the farmer's share of retail prices of various farm products is approximately as follows:

Butter	71 per cent
CATTLE	66 2/3 to 75 per cent
Eggs	65 per cent
Potatoes	55 per cent
Poultry	45 per cent
Fruits	35 per cent

The difference between farmer's price and retail price represents the necessary expenses of packing, freight and wholesale and retail distribution.

Swift & Company not only performs the manufacturing operations of preparing cattle for market in its well-equipped packing plants, but it pays the freight on meat to all parts of the United States, operates 500 branch distributing houses, and in most cases even delivers to the retail butcher. All this is done at an expense of less than 2 cents per pound, and at a profit of only about 1/4 of a cent per pound of beef.

Large volume of business and expert management, make possible this indispensable service to the live-stock raiser and to the consumer, and make possible the large proportion of retail prices received by farmers.

Year Book of interesting and instructive facts sent on request.

## BILLION DOLLARS FOR COAL ROADS

MINE OPERATORS TOLD THERE WILL BE NO EXCUSE FOR FAMINE

(By Associated Press) PHILADELPHIA, May 29.—Bituminous coal men from all parts of the country attending the first annual convention of the National Coal Association here, were told today that the government will spend one billion dollars to expand railroad facilities and that sooner or later the producing of sufficient fuel will be squarely up to the operators.

This declaration was made to the convention by E. N. Hurley, chairman of the United States shipping board. Mr. Hurley said there must be more efficiency in and about the mines to increase production and that there must be new business methods, new co-operation between employer and employe and creation of schools for training new superintendents, men and workers to meet the military draft on labor.

J. D. A. Morrow, general director of distribution of the federal fuel administration, said the coal production for the coal year starting April 1, must reach 735,000,000 tons in order to meet the country's war needs, and that under the present rate of consumption and output the production of bituminous will fall short 71,000,000 tons.

## REVENUE BILL NOT OPPRESSIVE

HAM LEWIS SAYS THE SMALL BUSINESS MAN NEED HAVE NO FEAR

(By Associated Press) CHICAGO, May 29.—Senator James Hamilton Lewis, Democratic whip of the senate, came to Chicago from Washington last night with a message of confidence for business and an appreciation from President Wilson of the patriotic achievements of the people of the middle west, which the president called "an inspiration to all America."

"The new revenue bill will not take the small profits of any newly started business nor absorb all of the profits of any greatly paying business," said the senator. "In the adjustment of the revenue bill and railroad rates everything will be done to stimulate all business. Nothing will be allowed to injure any business."

"The president authorized me to speak for him to the west in saying that the increase of railroad rates will go to help the properties and will come back to the people in contributions for purchases that will help the government and no injury to business will follow the raise."

The secretary of the Imperial German treasury has informed the reichstag that he does not yet know how much indemnity Germany will win in the war. That being the case, perhaps it would be a sound financial policy not to spend it.—Kansas City Star.

Whether Germany gets sand from Holland depends upon just how much sand Holland has.—Philadelphia Inquirer.

The only yellow peril we know of is the fellow who won't fight for America.—San Antonio Light.

## National League For Woman's Service

A registration of the woman strength of the country. Voluntary and paid service in case of need.

## Heads or Feet

(By Roger W. Babson)

Last Saturday night I was waiting for a friend in a Gloucester shoe shop. While there two factory workers came in to buy a certain kind of slipper. The storekeeper had the right kind, but not just the right size.

"Do you know," said one of them, "that we have been to five shops this evening to get fitted to slippers? One shop has the right style, but the wrong size, and another has the right size, but the wrong style. What are we to do?"

After the couple went out the boss said to me:

"How much better off we all would be if we tried as hard to fit ourselves to our jobs as we try to fit ourselves to our shoes. But then I guess that our feet have more sense than our heads. Unless our feet are fitted they ache, blister, and finally kick. Our heads are too good-natured."

Every time I now pass a shoe shop I wonder why there are so many places where people can be fitted to shoes and so few places where people can be fitted to jobs.

Not only should there be more employment offices to help people who are unemployed, but there should be "job shops" to help people who are unhappy.

Industry today is only about 20 per cent efficient because the great mass of people are unhappy at their jobs; they are working at something for which they are not fitted.

The future of America depends upon making it possible for people to be fitted to the jobs and for jobs to be fitted to the people. Then and only then will be happy and efficient.

This war is opening new chances for men and women with brains, ideas and ambition. Almost every live concern is now doing some work different from what it ever did before. There are opportunities for you in the place where you work that never existed before.

Are not you fitted for some of these new jobs where you work? Never mind if the job is a little harder or a little dirtier provided you're fitted for it. Size yourself up. Think out what you are good at and what you are poor at. Then write your concern a letter, and tell them the truth.

Read today's news today in the Bonanza.

**ASSESSMENT NOTICE**  
MANHATTAN UNION AMALGAMATED MINES SYNDICATE.—Location of principal place of business, Tonopah, Nye County, Nevada. Location of works—Manhattan, Nye County, Nevada.  
Notice is hereby given that at a meeting of the Board of Directors, held on the 21st day of May, 1918, an assessment (No. 2) of one cent per share was levied upon the capital stock of the corporation, payable immediately in United States gold coin, to the Secretary, at the office of the Registration Survey Company, Room 265 Russ Building, San Francisco, California.  
Any stock upon which this assessment shall remain unpaid on the 21st day of June, 1918, will be delinquent and advertised for sale at public auction, and unless payment is made before, will be sold on Friday, the 24th day of July, 1918, to pay the delinquent assessment, together with the cost of advertising and expenses of sale.  
By order of the Board of Directors,  
CHARLES D. OLNEY,  
Secretary.  
Office: 245 Russ Building, San Francisco, California. ME131

## WEST POINT LOSES A GREAT ATHLETE

(By Associated Press) NEW YORK, May 28.—In the midst of war activity the United States military academy will graduate one of its greatest athletes into a broader sphere of battle when Elmer Q. Oliphant receives his diploma and title of lieutenant in the army within the next few weeks. Although a well-known athlete in the middle west when he left Purdue university in 1914 and entered the West Point academy, it was not until Oliphant donned the cadet gray that he developed an athletic reputation which made him famous throughout the country.  
The army school has produced many prominent athletes in the past but few, if any, ranked with Oliphant as an all-round star with a record covering almost every variety of competition which the military academy supports. In one respect his record is unique for Oliphant is the only cadet who has ever graduated from West Point with the honors of having won the army "A" in four different branches of sport. He gained what, at the military academy, is equivalent to the varsity letter in football, baseball, basketball and a fourth letter for establishing a track record in competition. In addition he participated in several minor sports, notably hockey.  
It was as a football player, however, that Oliphant established his premier record. Although the war prevented the possibility of his gaining the coveted honor of captain of an army eleven with a victory over the navy to its credit, he was an important factor in more than one such triumph.  
Having told Ambassador Gerard that he would "stand no nonsense from the United States," the kaiser may now recall that he has not been offered any since.—Springfield Republican.

## YELLOW PINE IS MAKING PROFITS

**COMPANY DECLARES A \$60,000 DIVIDEND AT MEETING OF DIRECTORS**  
The board of directors of the Yellow Pine Mining company met in Los Angeles Thursday, May 16, and declared a quarterly dividend of 6 per cent on the capital stock, amounting to the sum of \$60,000. This dividend is payable June 15 to stockholders of record June 1. Fred A. Hale, Jr., of Goodsprings, director and manager of the company, was in Los Angeles to attend the meeting.  
This payment of \$60,000 will make the total dividends of the Yellow Pine company for the first six months of 1918 \$120,000. In addition to these payments, the company at the last meeting subscribed for \$25,000 in bonds of the third Liberty loan, making their total investment in Liberty bonds so far \$100,000.  
In addition to declaring the dividend and the transaction of the routine business, the directors voted to contribute an additional \$500 to the funds of the Red Cross.  
The treasury of the company is in excellent condition. The contract for the shipment of mixed lead-zinc ores by the company seems to be working out in excellent shape and netting the company substantial profits in spite of the low prices prevailing for lead and zinc.  
The condition of the mine was never more satisfactory than at present, and while no phenomenal new strikes have been made recently, the development of the large orebodies is proceeding with good results.—Goodsprings Gazette.

## MILITARY CLOTHS NOT FOR CIVILIAN USE

(By Associated Press) NEW YORK, May 29.—Olive drab and khaki colored cloth will not be manufactured hereafter for civilian use, the American Association of Woolen and Worsted Manufacturers announces. The restriction was decided upon at the request of the war department, which pointed out that the olive drab and khaki have been consecrated to the use of United States troops and that the commercial use of the colors is improper.  
Efforts will be made to obtain the complete suspension of the manufacture of cloth of these colors from other textiles, it was announced, the association pledging itself to urge upon all manufacturers the propriety of such action.  
It was explained that the decision will affect the Boy Scouts.
