INDIANANS MUST BACK UP WILSON

VICE PRESIDENT MARSHALL COMES OUT BOLDLY FOR PARTISANSHIP

(By Associated Press.)
INDIANAPOLIS, June 19.—Vice-President Marshall in addressing the state Democratic convention said while he wanted Democrats to win, he urged "at the risk of being read out of the party" that members of the party vote against every Democrat who was not in hearty accord with the president's ideas and who would "not favor taking the German language out of the schools of Indiana and welding into a united people by the use of a common language for all those within our borders."
Mr. Marshall said: "Just what the Republican party means by saying its purpose now is to win the war as soon as it can be won and holds to speedily winning it are these essentials: 'Conviction of the justice of the cause; a fixed and definite end to be attained; a whole-hearted, disinterested, political and patriotic sacrifice of personal ambition; party preference and individual success to the object attained and confidence, absolute confidence in the commander-in-chief.'"

CLOUDBURST IN UPPER ROCHESTER

ROCHESTER, June 19.—The road bed of the Nevada Short Line railroad, which runs between here and Orms, was nearly washed away and a great amount of damage to buildings and roads in both Upper and Lower Rochester was caused Monday evening by a cloudburst in Upper Rochester which sent a great volume of water down the canyon. The cloudburst occurred at 4 o'clock and the flood had fully subsided at 7:10 o'clock.
The water rushed down the canyon at great speed, tearing up the streets and roads in all parts of the canyon, but sufficient warning had been given by the heavy downpour or rain previous to the flood to give everyone in the camp a chance to reach high ground.
Two buildings owned by Mrs. Andrus in Upper Rochester were badly wrecked and moved about 25 feet by the flood.

MAYFLOWER OPENS VEIN OF GOOD ORE

Reports from the southern end of Nye county are to the effect that the Mayflower has opened what promises to be a sizable vein of ore in which five inches run at the rate of \$500 a ton and the balance a good milling grade with the values in gold. The district of Springdale and Pioneer is looking better than ever before and those who are interested say that the Mayflower will make one of the big mines of the state. This is a property which was abandoned shortly after the collapse of the Bullfrog boom and nothing was done with the property for a period of five years, during which time a few stockholders did their best to interest others in furnishing capital to make afresh start. Finally the company was reorganized with the result that it would not surprise the management to find it develop into a regular dividend payer.

FUSION AGREEMENT IN LOCAL POLITICS

To Republican and Democratic Voters in Nye County:
The Democratic and Republican county central committees announce that a formal agreement has been entered into by and between said committees, acting in their official capacity as representatives of the Republican and Democratic voters in said county. The agreement is as follows:
"We, the undersigned, members of the Democratic and Republican county central committees of Nye county, Nevada, having conferred together with a view to bringing about the election of officers at the coming election who are known to be 100 per cent Americans, do hereby recommend to the voters of our respective parties that they combine in Nye county upon the following basis:
District judge (Rep.), district attorney (Rep.), sheriff (Dem.), county recorder (Dem.), treasurer - clerk (Dem.), commissioner, long term (Dem.), commissioner, short term (Rep.), constable Tonopah township (Dem.), justice of the peace (Rep.), state assemblymen (two Democrats and two Republicans).
By so uniting we are assured that none but true, patriotic, 100 per cent Americans will be elected to office in Nye county, and we believe that in this critical time no one, whose loyalty can be questioned should occupy an official position. We, therefore, are willing to forget our political affiliations and unite together in county affairs, in order that all the county offices may be filled with loyal patriotic citizens whose sympathies and aims are one in winning the present war against the central powers. In order that this may be accomplished we recommend to the voters of our respective parties a united front to the enemy upon the foregoing basis."

It is understood that the foregoing arrangement does not preclude any Republican or Democrat being a candidate at the primary election for any of the offices which have been apportioned to their respective parties. The foregoing plan does not in any manner dictate, or have the effect of, a united front to the enemy upon the foregoing basis.

TRANSCRIPT OF THE WEST END DECISION

The supreme court of the United States has rendered a decision in error to the supreme court of the state of Nevada in the case of the Jim Butler Tonopah Mining company, plaintiff in error, vs. the West End Consolidated Mining company. The opinion of the court was delivered by Justice Van Devanter.

This was a suit by the owner of the two mining claims—the Eureka and the Curtis—to enjoin the owner of an adjoining lode claim, the West End, from exercising an asserted extra-lateral right in respect of a vein extending beneath the surface from the latter claim into the others. All the claims are patented and their ownership is conceded. The Eureka adjoins the West End on the south and the Curtis lies immediately south of the Eureka.

The state courts, both trial and appellate, upheld the defendant's asserted right to follow the vein extra-laterally and the plaintiff sought a reversal of that decision on the theory that it is in contravention of the mining laws of congress, in that the end lines of the West End claim are not parallel and straight, and therefore an essential element of the right to follow the vein extra-laterally is wanting, and that this right can be exercised only in one direc-

NO HARM FOUND IN BEER DRINKING WHICH IS REGARDED AS ESSENTIAL TO THE PRODUCTION OF TONNAGE

(By Associated Press.)
WASHINGTON, June 19.—Baltimore Colby, member of the shipping board, protested today against absolute prohibition before the senate agriculture committee. He declared it would reduce the output of American shipyards 25 per cent if the workmen were deprived of beer. He said he appeared at the request of

Chairman Hurley.
Colby told the senators attempting to cross-examine him that he was not present to discuss the virtues of prohibition, but merely was expressing the views of men in touch with the shipbuilding situation. He said the shipbuilders saw no harm in beer drinking and think it essential. He said because of the urgent need of

tonnage in order to carry men and supplies to Europe the shipping board is endeavoring to make work at the shipyards as attractive as possible to increase the workers employed from 325,000 to 600,000.
In conclusion, Mr. Colby said: "Let's not attempt to reform men's appetites. Let's fight now; it's not teetotalers but fighters we want."

ACT OF WAR MAY PLACE TURKEY ON FULL ENEMY LIST

AMERICAN CONSULATE SACKED IN SPITE OF PROTEST FROM SPANISH CONSULATE

(By Associated Press.)
WASHINGTON, June 19.—The American minister at Teheran has reported to the state department that invading Turkish troops sacked the American hospital at Tabris, Persia, and seized American and British consulates. If officially confirmed this may be considered an act of war, and settle the question whether Turkey will be listed formally as an enemy of America.
It is reported that the sacking was done over the protest of the Spanish consul in charge of the hospital as a representative of American interests, and in defiance of the Spanish flag flying over the building.
The hospital is a Presbyterian missionary institution, established several years. Many American doctors and nurses were stationed there but, for several months, since a serious situation was resumed, the force was being reduced and recently it was reported the last American had left.
