

# GOVERNMENT OWNERSHIP OF R.R.S. AFTER WAR CONDEMNED BY ITALY

(Correspondence Associated Press) ROME, June 5.—Dr. Maffeo Pantaleoni, who is considered an authority on systems of government, sees great danger for European nations in the tendency toward government control of railways. He says that after the war the United States will shake off such "parasitic ideas."

In an interview with the Associated Press, Dr. Pantaleoni said:

"Government ownership of railways is only one of the many afflictions sure to be imposed upon this poor old Europe after the war. With the war the government has become all-powerful and everything and after the war its encroachments will be appalling and bring us near to ruin."

"The United States is run on different lines, it was founded on other principles, and while it may be harassed after the war by the bogies of government control, it will shake them off. The country is too young and strong. Parasitic government control ideas attacking it will be no more than lice on a big, healthy dog."

"If I had never before been convinced of the futility of government control, this war would certainly have convinced me. I am now sure that the less government a nation has the better it is for the prosperity of its people. A government is always robbed, always late in what it does, is always betrayed by its employees."

"The war waste in Italy has been about eight billion lire. It is a well known fact that privately owned German railways have always paid greater dividends than those owned by the government there. In France the Western railway, as controlled by the government, is a miserable and costly failure."

"One of the arguments advanced in favor of government ownership is that thereby a nation gets a steady class of employees who pay debts, raise families, live modestly, and do their work for relatively small pay. This is a fallacy, too. The whole world is ruled by chance. The great wealth of the world, its crops,

depend on the weather. If you give a class of people in a nation a sure thing, remove their chances of money loss, you do so at the expense of the other people, of the farmers, for instance, who must take great chances. In other words, you increase the risks of the majority for the benefit of the minority."

"Besides, this class of people with the sure thing on small pay wind up by not earning what they are paid. It is not their individual fault but that of the system."

## BELGIUM SOCIALIST DENOUNCES RUSSIA

(By Associated Press) KYOTO, Japan, June 26.—Julius Destree, Belgian minister to Russia, who passed through here on his way from Petrograd to Europe by way of the United States, told Japanese reporters that the foremost reason for his withdrawal from Russia was that his country did not recognize the Lenin government.

He added: "Of all the allied ambassadors in Russia, I have suffered the most severe privations, having no adequate supplies of food and clothing, while the German influence in Russia has been steadily spreading. This is the second reason for my withdrawal. In politics I am a socialist, but the so-called socialists of Russia act contrary to socialism as understood in my country; their deeds are not calculated to promote the interests of the state at all. This is the third reason for my withdrawal."

Mr. Destree declared that in Russia today neither the authorities nor the people pay any attention whatever to the necessity of preserving peace and order. He continued: "All diplomatic etiquette is utterly disregarded. During my journey through Siberia all my large trunks were closely examined, on the ground, I suppose, that the former emperor might be hiding in them. No Russian paid any respect to the flag of my country."

Public notice is hereby given that according to law, there is now due and payable at the office of the undersigned, John Harrier, County Treasurer and ex-officio Tax Receiver in and for said Nye County, the following amount of taxes, penalties and costs from each person or persons, firms, companies and corporations named in the list below, the same being delinquent taxes on account of the second installment of the year 1917, which said taxes, penalties and costs are a lien upon the property described:

Grissett, William—8 1/2 of Sec 21,

"I repeat, and with the experience of many years of Europe behind me, that everything a government does must be badly done, and the degree of badness depends on the average capacity of the nation doing it. The postoffice and government telegraph and telephone systems of Europe are monuments to inefficiency and waste."

"The prosperity and welfare of the whole world in the near future depends upon the fight which honest and intelligent people make against the follies of government control."
