MUST SPEAK ENGLISH IN PUBLIC PLACES

The Nye County Council of Defense has adopted a resolution decreeing that all places of entertainment shall be closed at midnight during the war. This action was due to the fact that one of the dance halls in the lower end of the city was not engaged in selling liquors and therefore was not covered by the ordinance closing saloons. The county commissioners will amend the original ordinance to apply to all places of entertainment.

Another resolution was ordering the posting of placards announcing that "The use of any language other than English in public places will be deemed evidence of disloyalty" and published accordingly. In discussing the expediency of adopting this resolution the council referred to Paté Beko, who assured the members that every Slavonian knows enough English to comply with the rule when conversing in saloons. FRENCH AVIATOR DROPS SAFELY WITH THE AID OF A PARACHUTE

(By Associated Press) WITH THE AMERICAN ARMY IN FRANCE (Tuesday), July 30.—Captain Sarret, a French aviator experimenting with a parachute, dropped 800 yards from a moving airplane and landed safely. He used an umbrella twelve yards in diameter and fell from the observer's position. Similar experiments for the pilot will be undertaken. He crawled from his seat, hung by his hands with the parachute attached to his body and lightly attached to the airplane. When he jumped the parachute opened perfectly and bore him gently downward. Successful employment of parachutes would enable aviators to leave flaming airplanes. The captain wrote a brief message describing his sensations during his three-minute descent.

WAR OF EXTERMINATION ON THE WESTERN FRONT HUNS MUST FALL BACK

(By Associated Press) WASHINGTON, July 31.—General March at a conference of correspondents said the sole object of the allies and Germans now is to kill as many men as possible. Whatever objective either had in the beginning is submerged by developments of the fighting. He said the salient had been flattened, virtually dissipating any hopes of bagging a large number of Germans. The maximum German retreat in the center is fourteen miles and the retirement has reduced the length of the line to fifty-four miles. The Rablow division participated in the fighting east of Fere en Tardenois. The third regular division was among the troops that defeated the crack Prussian guards.

(By Associated Press) WASHINGTON, D. C., July 31.—General March had nothing to reveal regarding American casualties during the recent fighting. He said General Pershing had been ordered to cable the casualties as received and would announce immediately. There would be no distribution over a long period hereafter. In pursuance to the new policy "one army" letters "U.S.," heretofore reserved for regulars, will be placed on the collars of everyone in military service.

ALLIES HOLD STRONG SALIENT TO SOUTH

(By Associated Press) French, British and American troops are fighting their way forward east of Fere en Tardenois and seem to be in a position to compel a hurried retreat of the Germans from Roncheras and St. Gamme at the extreme bottom of the Rheims-Soissons salient. The allied line runs south from Soissons to Grand Rozol, where it turns eastward and passes north to Fere en Tardenois and continues to the apex of a new wedge at Nesles where it turns south toward Roncheras.

Such designations as "national guard" and "national army" will be abandoned. General March said thirteen major generals and thirty-six brigadiers necessary for the new divisions, will be selected from all elements of the service. The statement indicated for guards and national army officers promotion to the rank of general officers even in regular army divisions. The general announced the formation of six more divisions in the United States numbered from 15 to 20. These will be located at Camps Logan, Texas; Kearny, California; Beauregard, Louisiana; Travis, Texas, and Sevier South Carolina. These like the six divisions announced last week will be built around the regular infantry. He announced the conversion of fifteen national army cavalry regiments, numbered 301 to 315, into field artillery. These will comprise part of the artillery units of the new divisions.
