## ADVERTISING THE DIVIDE

It matters not what the motive for the sudden accession of values in the entire list of Tonopah Divide stocks, the result is the same. Nothing is more attractive to the speculator than an active stock where he gets a run for his money with the added exhilaration of the keenest test that ever a veteran gambler experienced. To the people of this section who are conversant with the meaning of ore reserves and who know the difference between a mine and a prospect or a mine with fifteen dollar values and another with values springing into the empyrean nothing surprises them in the way of ascending quotations. The man near the mine is a natural booster. He adores a knocker and still more despises that creature known as a bear who takes a whack at every rising stock for the reason that he believes in the law of gravity, declaring that whatever goes up must come down. There are occasions when the Newtonian theory is slightly displaced and that is found in the stock market especially in recent months of experience with the newly regenerated Tonopah stock market. Not a single price has come down. On the contrary a whole lot of them have gone up and kept going until somebody suggested that the presence of Sergeant Harvey Miller, lately of the U. S. balloon corps, was needed to overtake the volatile securities of the Divide district that are out for the altitude record. The enhancement of \$1,500,000 of a single property in a single day is the kind of boom medicine to administer to the pessimists who dote on alleged evils emanating from the barbaric state of Nevada. One of these days the residents of Tonopah will be aroused to the true meaning of the titanic orebodies that permeate and interlace the Divide geology. The whole world is talking about it and, as a matter of fact, more interest in the Divide is displayed in other western districts than right here in Tonopah where men and women are trained to suppress their feelings to the point of accepting whatever comes their way. Every day brings fresh arrivals from every point of the compass. These are drawn by the magnetic force of the Divide orebodies of which they have read with incredulous eyes not believing that 50 per cent of the statements could possibly be visualized. They come here to see for themselves and find at the very threshold of the new market a warm invitation to descend to the depths of the leading mine and see for themselves that what is written is founded strictly on facts that cannot be controverted.

The shorts have been playing fast and loose with the securities issued on the strength of the mineralized area of the Tonopah Divide section. They have gone on the assumption that this was another Rawhide boom that would flatten out like champagne exposed to the air. On this principle they sold what they did not possess confident that in the long run the prospects would fail in attaining their objective and they would consequently reap a glorious harvest of golden ducats. That is where they dug a pit for themselves and every man who has ever operated in the western country will thank God that there has been a day of reckoning for the parasites who thrive on the misfortunes of the miner. This is the time when the goat getters win and the pelts of countless Nannies and Billies are nailed to the outer walls of the simple mining man whose faith is bringing to Nevada what promises to be the greatest and richest mining district ever tapped.

## EQUALITY OF THE JAPS

OUR friend the little yellow man was shrewd enough to pick out the weakest phrase in the grandiloquent appeal of President Wilson, to secure for their race and the entire Mongolian tribe of yellow visages entry to the United States on the broad ground of universal democracy. Their point was well taken as any parliamentary authority will admit for the reason that, if all races are equal in the sight of the peace conference, it is manifestly unjust to discriminate against any of them on the ground of racial origin. The wily Jap listened to the oily notes of President Wilson without voicing the slightest disposition to inject any animosity or acrimony until, at the eleventh hour, the yellow man appeared with his modest and unpretending amendment which guaranteed to all races like treatment without regard to where they sprang from. In a slyly insinuating manner the Japs interposed a resolution which would pass over to their race the right and title to every foot of ground on the Pacific coast. There would be no call for conquest. Adoption of the motion would hand over to Japan every Pacific state including New Mexico and Arizona. The gift would be turned over on a silver platter and the white citizens would promptly be invited to hit the back trail over the mountains to the central prairies. The scheme was cleverly concocted, but, thanks to the intuition of our Canadian neighbors President Wilson was spared the ignominy of repeating his smooth phrases on the quality of man that have served as an inspiration to the Bolsheviks of America.

## HOME RULE IN AMERICA

INFANTILE American dominions are crying for Dr. Wilson's self-determination syrup with a lustiness that bodes no good for the peace of mind of this nation unless they get it. Porto Rico, by legislative action declares that unless given statehood she will insist upon complete independence. The Philippines, having acquired virtual self-government, now give notice that they will be satisfied with nothing short of independence. A commission composed of forty-one senators and representatives of the Philippine legislature and other island officials, headed by Manuel L. Quezon, president of the senate and former commissioner to the American congress, will arrive in this country next week, to cultivate in the United States a better knowledge of the Philippines and to preach practical application of the president's doctrine of self-determination. The mission has the approval of the American government,

which is bringing the delegation to this country on the army transport Sherman. The Philippine officials will tour the United States, speaking in all large cities and spreading their propaganda of independence. They fully expect to receive indorsement of their movement for independence from President Wilson, who in 1916 favored the defeated Jones bill to haul down the American flag in the islands in from two to four years.

# REVIVAL OF BULL FIGHTS ON BORDER

**By Associated Press**  
BROWNSVILLE, Texas, March 21.—A revival of bull fighting is planned by residents in some of the Mexican states along the border. Reports say the people of Matamoros, across the Rio Grande from here, are arranging for reconstruction of the famous bull ring there and have applied to the governor of Tamaulipas for authority to proceed. It is planned to hold a bull fight in a temporary arena on May 5, the anniversary of the victory of Mexican arms over the French at Puebla. Bull fighting in Matamoros was discontinued six years ago. The arena, one of the finest in the republic, was destroyed by Carranza's adherents when Matamoros was taken by the forces under General Blanco. The federal forces made their last stand in the bull ring. Bull fights were abolished in the republic by decree of General Carranza as soon as he became president. Later the governors of the respective states were permitted to allow or prohibit the fights. Years ago many Americans were attracted to bull fights in the towns across the border and the railroads gave reduced rates.

# Cowmen Prefer Boxing To Steer Sticking Game

**By Associated Press**  
EL PASO, Tex., March 21.—American cowboys here recently attending a livestock convention expressed preference for boxing matches over bull fights. They went to a boxing program in Liberty hall and a bull fight across the border the following afternoon. The boxing contests were between evenly matched young soldiers from the military district here and the cattlemen cheered the winners. These cattlemen express great disgust over the bull fight. Much blood was spilled, many women left the ring and the cowboys yelled their disapproval of the affair. "Shoot him; put him out of his misery," cried the Americans when the toreros made three unsuccessful tries at dispatching one bull. Most of the crowd left in disgust after the second bull was finally stabbed to death.

# MICHIGAN HAS A TRACK STAR

**By Associated Press**  
ANN ARBOR, Mich., March 21.—Michigan track enthusiasts are predicting that Carl Johnson, the Wolverine's all-around star, will figure in one of the greatest track contests of his career when he appears in the Pennsylvania relays April 25 and 26. Particular interest is attached to the low and high hurdles in which Johnson is expected to compete. Thomson of Dartmouth and Erdman of Princeton, according to present indications, will battle with the Michigan star for honors in the hurdles. Princeton also is understood to have entered Trowbridge who won at the intercollegiate state championship over both high and low hurdles.

## FRENCH TROOPS ENTER TOWN OF MANNHEIM

**By Associated Press**  
GENEVA, March 20.—French troops have occupied Mannheim and Karlsruhe on the west bank of the Rhine on account of Spartacoist outbreaks, the Vossische Zeitung of Berlin says.

# YANKS IN ACTION SHOWN IN BIG 'U. S. LOAN FILM

"New Glory for Old" to Be Released During Victory Loan Drive.

The greatest war film ever produced, "New Glory for Old," is to be distributed throughout the United States in aid of the Victory Liberty Loan. In this great film will be shown every activity of the U. S. army and navy in the war including 2,000 feet of the hardest fighting by the Yanks. The five reels of 5,000 feet will be shown as a feature of special Liberty Loan mass meetings and it is planned that no admission charge will be made.

"New Glory for Old" was taken as a part of the pictorial history of the world war by the United States Signal Corps and one operator was killed while operating his camera. It contains the most thrilling pictorial reproduction of fighting that has yet been issued. The American soldier is shown in this film from the time of enlistment to his arrival in Berlin. No part of this film has ever been shown and "New Glory for Old" will be held by the war department for the use of Liberty Loan publicity. Many other special films are being prepared for use in the coming campaign. Douglas Fairbanks and Julian Eltinge have each produced Victory Liberty Loan films which have been turned over to the Liberty Loan committee.

# DETROIT AMERICANS GO TO TRAINING CAMPS

**By Associated Press**  
DETROIT, March 21.—The Detroit American league club advance guard of battermen left here for the training camp at Macon, Georgia, March 17. With the exception of Shortstop Bush, the Tiger infield was signed up before the end of February. Two outfielders, Veach and Flagstead, also were early signers. Receipt on the signed contract of "Pop" Young, second baseman, assured a warm fight for the keystone position, as infielders Ellison, Dowd and Dyer are being counted on to give him considerable opposition. Young figured in 91 games last year with a fielding average of .939. He was credited with 109 putouts and 270 assists.

# ROWDY ELLIOTT COMES TO COAST

**By Associated Press**  
CHICAGO, March 21.—With the disposal of Howard "Rowdy" Elliott to the Oakland club of the Pacific Coast league, Manager Fred Mitchell of the Chicago Cubs is counting on three catchers—Bill Killifer, Bob O'Farrel and Tom Daly—to handle the Cub's pitchers in the National league pennant race. Killifer is Mitchell's "ace" in the line of backstops. He ranks with the best in the league and probably will be asked to do the bulk of the receiving. O'Farrel has been advanced to second string man, while Daly will be in reserve for emergency and in addition will be called into the game as a pinch hitter. Mitchell believes that O'Farrel will develop into one of the real stars of the game. He plans to use the youngster at every opportunity. "O'Farrel is one of the greatest young catchers I have seen in years," Mitchell said. The Cubs' training will be started at Pasadena, California, on March 23.

**NEW TODAY**  
Get Rid of That Persistent Cough  
Stop that weakening, persistent cough or cold, threatening throat or lung affections, with Jackson's Alternative, the tonic and upbuilder of 25 years successful use. 50c and \$1.50 bottles from druggists or from BICKMAN LABORATORY, Philadelphia.

# COACH YOST PICKING HIS KICKING SQUAD

**By Associated Press**  
ANN ARBOR, Mich., March 21.—Iq-conditions are that Coach Yost will not lack good material when he starts to construct his 1919 football machine at the University of Michigan. Information received is to the effect that a majority of the members of last year's unbeaten eleven will be on hand. Among those expected to report are Steketee, fullback, who figured prominently in the victories last fall; Vick, center; Goetz, tackle; Dunne, end; Knobe, quarter; Usher, half-back; Fromke and Weston, Ward Culver, who still is in the naval service, also may return.

**You Can Expect More From GOODYEAR TIRES**

In satisfaction, in untroubled travel, in plain usefulness, they'll deliver—they are built to deliver just such a return on your investment. Such tires are good for you to use. They will serve you as heartily and as loyally as tires can. They will yield you more for what you pay than is the rule.

As a traveling companion to a Goodyear Tire—A Goodyear Tube is the right kind of a tube to put inside your casing if you want it to deliver its maximum mileage. We can tell you more about them.
