BIG YEAR FOR NEVADA.

THIS IS GOING to be the biggest prosperity year ever known in Nevada. There is an awakening in every line of business and the farmer and miner will share the glory of fattening their bankrolls before the income tax collector makes his next rounds. The majestic proportions of the mining industry are beginning to be realized and, with the mines in the making, there is no reason for doubting that Nevada will double its mining population in the next three months. The boom which began with the development of the Tonopah Divide is spreading rapidly. Three months have wrought a wonderful change in conditions. Millions of dollars have been placed in circulation through the activity of Tonopah operators and it is almost certain that the success of this section will induce an equally great development in Mineral county where enormous bodies of lead, silver, gold ores are making fortunes for those who have faith in the future of the country. It is not every day that stocks in prospective mines jump from a few cents to \$7 and \$10 a share and the result will be to stimulate a wider spread interest in the industry. Tonopah boasts of the largest known and highest grade gold-silver orebody ever uncovered while in the vicinity of Mina there is opening what is heralded as the largest agglomeration of base and precious metals that ever greeted the eye of man. Capital is seizing this incomparable opportunity. In both districts the actuating motive is found in Tonopah whose engineers, bankers and thrifty citizens have made possible the disclosure of this formidable wealth. The next move will be to bring smelters to the mines which can be done only through development of another potential source of wealth which has lain dormant around Coaldale. The greatest experts have reported that the coal measures within 60 miles of Tonopah possess the best coking properties found anywhere outside of the Connellsville district of Pennsylvania. The only reason for this asset remaining undeveloped is the fact that capital feared locking horns with the fuel magnates who arrogate to themselves the right of districting the country and retaining control of the distribution of coal, coke and oil. With the development of the Simons district which is close to the coal deposits it would be remarkable if nothing were done to bring the lead ore and the coal deposits together in a smelter proposition. Such an investment would bring rich returns and furnish employment to hundreds of men who would be an active nucleus in making Nevada a manufacturing state wherein the raw materials could be wrought into commercial form and millions of dollars spent in wages be retained for home distribution.

HOCKING THE WATCH FOR THE LEAGUE.

LAURENCE HILLS, correspondent of the New York Sun, declares in a recent article that President Wilson has informed Clemenceau he will attempt to compel congress to provide for a guard of American troops on the Rhine for a period of at least five years. "This promise," asserts Hills, "constitutes another victory for Premier Clemenceau and makes still clearer the price which President Wilson paid for the adoption of the covenant of the league of nations and the rejection of Marshal Foch's plan." Surely Clemenceau must be aware of the attitude of, at the very least, thirty-nine senators toward the league of nations covenant. The situation suggests a parody on "Die Wacht Am Rhein!"

A tearful voice chirps out appeal,

"Mid league of nations swap and deal,

"The Rhine, the Rhine, the German Rhine,

"Who'll keep the Huns beyond that line?"

"Dear Fatherland, no fret be thine!

"Cher Clemenceau, that task is mine.

"I'll make old Samuel guard that stream—now sign, Oh, sign."

"Oh, yes, he will, he will, like h—" chant thirty-nine.

No! Guarding the Rhine is not a task for America. We have fought the good fight. We have kept the faith. As Julius Kahn says, we are not collectors for Europe. The war is over, now we must stay out of European troubles. Bring the boys home, each and every one of them.

A TYPICAL CASE.

IT WAS REPORTED from Camp Houston, Texas, not long ago that the barracks and soldiers' quarters at that place had been torn down and thousands of board feet of lumber had been burned. At about the same time information was received that new quarters were to be constructed at Camp Deming, New Mexico. A recent traveler in New Mexico declared that the scarcity of lumber in that state was so pronounced that it was commanding \$50 per thousand. The lumber destroyed by burning at Camp Houston must have been in a fair state of preservation. We have government control of the railroads with the government empowered to ship materials anywhere, at any time. Why under the sun could not the lumber burned at Camp Houston have been taken to Camp Deming and put to use? The reason, of course, is that this administration is drunk with extravagance and without any ideas of economy. So the people go right on digging into their jeans for this criminal wastefulness. Are the wasters to be brought to book or not?

Now if Senator Henderson wants to become famous and pave the way for the next election he will do something about a new postoffice without waiting for ten years to elapse.

If Secretary Glass discharged all the bureau heads who give evidence of "insufferable exaggerated importance" there would be lots of room for a new flock of deserving Democrats.

That must have been some train when the echoes woke up the senator in Washington.

AMUSEMENTS

SCHOOL SHOW AT BUTLER TONIGHT

There will be no picture show at the Butler tonight, as the theater has been turned over to the Tonopah high school for their big annual school show, "A Strenuous Life," which will start promptly at 8:15, and everyone is urged to be present for it is going to be "some show."

Tomorrow, at the Butler the regular moving picture program will be resumed, a special D. W. Griffith production, "The Greatest Thing in Life," being the attraction. Ranking among the very foremost of American motion picture producers, Mr. Griffith has produced numerous screen classics which stand as exemplars of the best the cinema art has thus far presented to the world. In "The Greatest Thing in Life" which will be shown tomorrow, all the qualities of production which have made Mr. Griffith famous, are richly in evidence, and he has simply produced another picture which will stand in definitely as a monument to his genius, craftsmanship and enterprise. Do not miss seeing this picture. It is a masterpiece.

EIFFEL TOWER OPENED AGAIN

(Correspondence Associated Press) PARIS, April 26.—The Eiffel tower has joined the ranks of the demobil-

ized—its military role being ended although its wireless telegraphy station will be maintained and indeed strengthened to bring it equal to the German post at Nauen. It will again be accessible to tourist visitors after being unapproachable for over four years.

During the war a dozen machine guns were mounted on the highest platform as protection against air at-

tacks. On the first platform were four-inch guns and searchlights, and later a powerful siren to give warning against air raids.

CITY SWIMMING POOL

Notice is hereby given that the swimming pool will be opened for children daily from 1 to 5 o'clock during which hours no adults will be admitted. Adults will find the baths available during the morning and from 5 to 10 o'clock in the evening. —AdvM291f.

FIRST OFFERING OF TREASURY STOCK

Roosevelt Divide 10c a Share

One of our most successful financiers says: The time to get into any enterprise is in its early stages.

The history of the properties of the Divide District has already proven the wisdom of this. Stocks that sold for a few cents a share 30 and 60 days ago have since doubled and trebled, some of them several times.

This Is Your Opportunity to Join the Winners

Roosevelt Divide owns about 60 acres adjoining the Sunbeam. The surface showing of this property is good, and there is every reason to expect it to become one of the big producers.

Application will be made to list on the San Francisco Stock Exchange.

OFFICERS OF THE COMPANY

E. S. BERNEY	President
FRED STRASSBERG	Vice-President
MILTON DETCH	Secretary
GEO. A. FOSTER	Treasurer and Manager

Mr. Berney is State Representative from Churchill County, and Mayor of Fallon. Fred Strassberg is a prominent business man of Churchill County, and until recently connected with the Churchill County Bank as Assistant Cashier. Mr. Detch is one of the best known mining attorneys in Southern Nevada. Mr. Foster, known as one of the liveliest wires in the State, has been in the mining business for over 30 years, and enjoys the confidence of all who have ever had dealings with him.
