

DELINQUENT SALE NOTICE
TONOPAH GYPSY QUEEN MINING COMPANY

Table listing delinquent shareholders of the Tonopah Gypsy Queen Mining Company, including names, share numbers, and amounts due.

PIUTE'S CHIEF
PASSES AWAY

The death of Captain Dave, chief of the Piutes, last of those who knew Fremont the Pathfinder, is an event of historical importance throughout the West. Grandson of Fremont's guide and friend, Chief Truckee—after whose Truckee river was named—Captain Dave was one of a line of chiefs that reached far back into the past north farther than the white man's knowledge of the Pacific Coast Indians extends.

SMELTER BIDS
FOR BIG LEDGE

Mr. J. C. Brumblay, ore purchasing engineer for the United States Smelting company of Salt Lake, returned last evening from a special trip to the Sylvania property of the Big Ledge Divide Consolidated Mines company, where he spent two days examining into the tonnage possibilities of that promising silver-lead property.

CANNOT HANDLE
SHIP FREIGHT

Mr. G. G. G. manager of the Big Ledge Divide says Mr. L. R. Robins, president of the company, Consulting Engineer Mr. Rolla E. Clapp, and Mr. Grabowski, an English mining engineer, expect to visit the Sylvania property the last of this week.

WILL BRING TRUCKS TO
BUILD NEVADA ROADS

Sunday evening Arthur Rayercraft Paul Slade, Bill Stinson, Robert Maclean, Lew Meder and Harry Edwards left for the Presidio, where they will take over a number of army trucks and bring them to this city overland.

THE IRON CROWN DIVIDE MINES COMPANY
INCORPORATED UNDER THE LAWS OF THE STATE OF NEVADA FOR 1,500,000 SHARES, PAR VALUE TEN CENTS; 750,000 SHARES IN THE TREASURY
Offers a limited amount of shares of its Treasury stock at
25c PER SHARE 25c
TO THE PUBLIC FOR SUBSCRIPTION
THIS COMPANY OWNS OUTRIGHT A CHOICE LOCATION
Lying as it does about one and one-half miles southeasterly from the Rosetta Divide and about the same distance southwesterly from the Bee-Har, and less than three quarters of a mile from the Gypsy Chain, now incorporated under the name of the Goldsmith Divide.
The Gypsy was considered such a good mining prospect by the well-known and successful mining man, Owne Dougherty, who was one of the pioneers of Tonopah, and one of the successful leasers on the famous Mizpah Mine, in Tonopah that about the latter part of 1909 Owne Dougherty and associates secured a lease on the Gypsy, when silver was only worth fifty cents per ounce.
They opened up a very promising vein on the surface in a short time and took out considerable ore from shallow surface workings. They then started a crosscut tunnel to cut at greater depth the vein opened by surface workings, and had they continued on to the vein, in the opinion of an able engineer of wide experience, there would have been exposed a body of ore that would have precipitated the Divide boom years earlier.
At Ellendale started Dougherty and his associates for the new El Dorado and for the time being the Gypsy was forgotten and the owner of the Gypsy refused to renew the neglected lease. The Gypsy has now changed hands, and the new owners, under the name of the Goldsmith Divide, have refused several offers from leasers and are now sinking a two-compartment shaft and also installing complete mining equipment.
THE IRON CROWN DIVIDE MINES COMPANY
Not only has the Gypsy ledge system cutting through its property, but it has an intersection of northeast and southwest veins crossing the famous Gypsy vein.
There is also undoubtedly an intersection of the Tonopah Divide vein system and the Gypsy vein system on the Iron Crown claim of the IRON CROWN DIVIDE MINES COMPANY, is the opinion of the directors of the company and of prominent engineers.
THEY HAVE A PROPERTY OF GREAT POTENTIAL VALUE
and we have no doubt that the company will open ore bodies on this property of great dividend-paying capacity, as good values have already been disclosed on the surface. The company plans
AN AGGRESSIVE DEVELOPMENT POLICY
and sinking will be commenced immediately at the intersection of two veins that show contact of Divide breccia and andesite where values can now be obtained and is in direct line with the course of the famous Tonopah Divide ledge from the northwest to the southeast, and an early application for
