CALUMET BAKING POWDER SAVES THREE WAYS

A moderate priced Baking Powder of greatest merit. Honestly sold. Economical in every way. Every particle is full of actual leavening value. A full money's worth.

You save time when you use it. Calumet is all full powder. It begins to work before the instant they are put in the oven. You don't have to "peppin'" to see if it is doing the right. You know they are. Calumet is sure—never fails—and is economy. And time money—in cost—in use—in time.

One trial will prove it and show you in results why millions of bread bakers, housewives, and caterers to all other brands.

The unfailing strength of Calumet's guarantee perfect results. Calumet is the only brand that has been approved officially by U. S. Food Authorities.

Calumet contains only such ingredients as have been approved officially by U. S. Food Authorities.

MITCHELL LEWIS IN BIG SHOW PICTURES.

If you like pictures of the north country—God's own country—of real men and women, with heart interest and suspense, a picture that teaches and entertains, a picture that will give you something to think about, come to the Rubin today and see one of the greatest pictures of the continent ever filmed, "Jacques or the Silver North" Mitchell Lewis' "Mad Silver" picture.

It is the story of Jacques La Roche, a Canadian trapper, who saves something for the girl he loves, "Monique" and is forced to leave her. Jacques is a product of civilization but a frontier in the north country. A man in life is to make a good life in a place as good as the "Mad Silver" (the girl) he worships. Jacques is from the objectionable class that is for the man who has and lives on everything to make her happy. The story is a full length field, excellently directed and made possible by the hard work of the country which a background for the dramatic picture. An excellent picture in fact. Mitchell Lewis who has been the lead opposite Mr. Lewis in "Mad Silver" will be the lead in "The Girl from Tomorrow" a picture directed by Robert Warlock. "Secret Service" the most up-to-date picture of the American star.

was produced in some parts of the country, to increase the number of these pictures. "Mad Silver" was made in the month of March.

The picture is expected to be a success. It is one of the most interesting pictures of the "Mad Silver" type.

MEETING OF STOCKHOLDERS.

PHILIPPINES FIGHT AGAINST PROHIBITION

(Correspondence of Associated Press)

MANILA, P. I., Sept. 4.—Still in doubt as to whether it will be held that the constitutional "dry" amendment applies to the Philippine Islands, local interests are aligning themselves to carry the fight into the legislature, which is committed to consider the question at its regular session, which opens October 16.

Dr. D. M. Gaudier, a well known prohibition advocate from California, is now in Manila and is heading the forces of the Christian Service League, an organization recently formed here and pledged to a general program of civic betterment. The league claims to have secured its share more than \$1,500 to meet the expenses of its campaign. Prominent among its officers are Dean Jacobs of the University of the Philippines, and Camilo Osias, assistant director of the bureau of education.

The president of the Philippine federation of labor is thus far the most prominent figure among the forces of the "wets." He has announced that he and the members of the organizations forming the federation will conduct a lobby against prohibition when the legislature opens, their contention being that the distilling industry in the rural districts will be killed and thousands of people thrown out of employment.

If a compromise could be agreed on, whereby imported intoxicants were barred, it would find hearty support, but as a matter of fact, the medical profession is a unit in declaring that the local products are much more injurious to health than the imported.

In legal circles there is a growing belief that it will be held that the prohibition amendment applies here but the enforcement act, if the request of the Philippine council of state is granted, will specifically exclude the islands from its provisions, leaving the entire question in the hands of the Philippine legislature for decision.

RECRUITING HIS IDEA OF HONEYMOON JOY

LEWISTON, Me., Oct. 16.—"Got a job for me for a few days?" asked Sergt. Earl Van Etten, who walked into the marine corps recruiting office here today.

"Sure," replied Sergt. Slack, "I can give you a job for from two to four weeks, if you want to re-enlist."

"Oh, I'm not out of the service," said Van Etten, "I just wanted something to keep me amused for a few days and I thought I'd like to help out with the recruiting. You see, I've got the marine recruiting station in Portland.

"Then what are you doing here?" asked Slack.

"Just passing through on my honeymoon," said Van Etten. Then he explained that a few days before he had married Miss Myra Pauline McLaughlin, of Portland.

"Some people have queer ideas of how to spend a honeymoon," said Slack.

Don't know but that it was all right to allow the Cincinnati Reds to win the world's championship this year—the White Sox can get it any year they really care for it. Eh?

WOMEN CUT UP DEAD HORSES

(Correspondence of Associated Press)

PARIS, Sept. 10.—American Red Cross relief men just returned here from Budapest tell a harrowing story of the extremes to which the civil population were reduced when the bolshevik and Rumanian armies struggled for the mastery of the city, and staple food supplies disappeared from the market.

As the troops swept on, leaving behind them cavalry and artillery horses killed in action, men and women from the Budapest suburbs, made desperate by privation, descended upon the battlefields and vied with one another for the meat supply thus made available. They fell upon the carcasses cutting away chunks of meat with pocket knives and cleavers, and carrying them off wrapped in old newspapers.

You can legally buy all of the ingredients that go to make up whisky and beer, with the recipes for making either—or both, but you cannot make either. Great is the law.

RATS IN ENGLAND DESTROYING MILLIONS

(Correspondence of Associated Press)

LONDON, Sept. 20.—Rats do a yearly damage in the United Kingdom of \$200,000,000, or nearly five dollars per head of the population, according to generally accepted figures.

The pre-war estimate of this damage was \$75,000,000. The seriousness of the situation has resulted in the inauguration of a country-wide campaign, headed by the board of agriculture, for the destruction of the pests.

There are substitutes for everything under the sun except soap. There is nothing else "just as good."

BUCKHECHT ARMY SHOE

The Shoe that gives you "extra Service every step—Comfort every minute."

Sold in Black Gunmetal or Mahogany Calf or Indian Tan Calf.

For practical, everyday wear—no lasting comfort—for the best of service you have a right to expect—look to the BUCKHECHT Army Shoe. It will give you a new sense of shoe-comfort—a new understanding of shoe-economy.
