UTAH MEN BUY SIGNAL GROUP AT ARROWHEAD

BLIZZARDS GRIP WEST NO TRAINS

Arrowhead district has been per footed with all the trimmings of a live camp. This communitarian was reached Thursday night when a mass meeting was held to complete organization. Resolutions were adopted warning claim jumpers to be careful and not overstep the bounds of caution. It was also resolved that wherever factions are located the notices bear the words, "so far as they don't conflict with previous locations."

Another important sale in the Arrowhead district was closed this morning when W. P. Falkenberg and F. A. Putnam became owners of the Signal group located by Martin Kennedy, Patrick Phillips and John Murray last January and April before any one thought there was any sign of a boom striking the eastern end of the county. The buyers are from Gold Hill, Utah, and are well known mining men with experience and ample backing to carry out a comprehensive plan of development. Mr. Falkenberg has the management of the Babcock Mining company at Gold Hill, Utah, and Mr. Putnam was former owner of the Monte Cristo mine, sixty miles east of Pocatello, Idaho. The company was well financed before the property was taken over, owing to the great interest manifested in Utah and around it. No time will be lost in getting down to work, which, it is believed, will be within the next ten days. Kennedy and his associates retain a stock in the property. The buyers spent some time examining the property and after they made up their mind the price was of little consideration. After finding the property to be what they thought it would be, Messrs. Putnam and Falkenberg drove into Tonopah and called at the residence of Mr. Kennedy, where it did not take many minutes to close the deal.

The Signal group comprises five full claims known as the Signal No. 2, 3 and 4, Signal Fraction and Signal Fraction No. 1, which will have the main Arrowhead shaft for a distance of 1,500 feet and 750 feet southeast from the Arrowhead shaft. The property will be known as the Arrowhead Signal Silver Mining company.

Another sale was effected Sunday by which a Chinese-owned very likely group for some of his countrymen down in San Francisco.

State Stipulates That Mass Meeting May Be Called To Revoke Order

Beating the hopelessness of their cause, the local council of the I. W. W. have decided to call off the strike order in Tonopah and to the deluded followers return to work wherever they can find it. This is the sense of a stipulation filed this afternoon in the district court by Homer Mooney, acting for the I. W. W. holding a meeting for discussing former orders calling out the men. The stipulation reads as follows: "It is stipulated by and between the parties in the above mentioned articles through their attorneys as follows: 1. That without prejudice to the restrictions which or injunction pending against these defendants may be made by public meeting on Sunday, November 9, 1919, or any other date later date within one week hereafter and discuss plans leading to acceptance of remaining work in the mines of Tonopah and Divide. 2. That defendants at such meeting may express their opinions regarding the terms of employment existing in the districts named, making such they do not combine to claim that a strike has existed since August 1, 1919. 3. That defendants may take a poll and communicate the result of their meeting to anyone provided they do not make the claim above described concerning any alleged strike nor warn, advise or threaten persons to keep away from working in Tonopah or Divide mines, or to be in the purpose that Tonopah or Divide mines, shafts or camps or that be workers therein are or will be able if they work. It is stipulated that if the foregoing conditions are not complied with, the court will issue an injunction against the defendants to prevent them from doing any of the above mentioned acts. Dated this 10th day of November, 1919. Homer Mooney, Plaintiff. J. P. Clark, Defendant.

OLYMPIC OPENS PARALLEL VEIN OF MILLING ORE

A major strike in the estate of the Olympic Mines company at Orms, Mineral county, Nevada, brings that mine back into the running after it was supposed to have stopped and entered the liquidation stage. This news was brought to Tonopah this morning by Dr. A. H. Eitman, the geologist and engineer who made an examination lately with a view to making the property into a mine of other companies. The discovery was through a vein picked up in the 100 and 200 foot levels and which parallels in the east part of the mine. The find was made by Robert Bonnemont, superintendent, and the company is guaranteed a steady supply of ore for its big mill which has proved one of the best in the south. The discovery of the vein of the Olympic mine shows a veinings of \$38,000 to September 1, since which the mill has been producing \$25,000 a month, treating ore of an average value of \$15.35.

NEW MAN BURNS POWER SYSTEM

Fire Chief Askin, hired a newly arrived electrician this morning to make certain changes in his signal service. As a result Tonopah, Divide and Manhattan were deprived of light and power for an hour and a half. The power company sustained a loss of approximately \$1,000 and the entire community, which uses twice for heating and lighting, was subjected to considerable discomfort. It happened at 12:25 p. m. when the new man tried to pull a wire over a line carrying 6000 volts burning up an oil switch at the Tonopah sub-station which automatically cut off the two mining camps. The wire hanging on the wire backed up to Manhattan, where another switch was destroyed. Under the circumstances, it is surprising that the igneman was not electrocuted.
