CALUMET BISCUITS—light, flaky mounds of goodness—capped with a tender, done-to-a-turn crust. You'll admit that no other biscuits can compare with them—the minute the first batch comes from your oven.

CALUMET Baking Powder
Makes Most Palatable and Sweetest of Foods

—because it is absolutely pure in the can and in the baking.
—because its leavening strength never varies, never weakens. It is always the same, and results are always the same—always the finest.

Absolute certainty—more than the usual rising force, with the moderate price you pay for CALUMET—make it decidedly the most economical of leaveners.

You save when you buy it. You save when you use it. You save materials it is used with.
A perfect product of the world's largest, most up-to-date and sanitary Baking Powder Factory.
Contains only such ingredients as have been officially approved by U.S. Food Authorities.
Try it! Drive away hazy-day failures. Reduce baking expense. Have most delicious and wholesome bakings.

BEST BY TEST
Remember when you buy Calumet, you get a full pound, if you want it. 16—not 12 ounces.

TOOK 30 YEARS TO PAY A BILL

PHILADELPHIA, Feb. 3.—Payment for building the Philadelphia city hall has just been completed, although construction was started in 1872. The cost was \$25,000,000. The city hall was built by a public building commission, authorized by the legislature in 1870. A four mill tax for its construction was levied on all taxpayers in each of the following six years. At that time, however, the city did not have the power of lien for taxes and as a result, part of the building taxes remained delinquent.

ARRESTED FOR ATTEMPT TO EXTORT BY THREATS

J. H. Cavanaugh, a miner, was arrested on a charge of attempting to extort money by threats. The complaint was made by T. Martin of Jackson mountain, who alleges that Cavanaugh threatened to kill him unless he paid money which Cavanaugh claimed Martin owed him. Cavanaugh's preliminary was set for this afternoon before Justice Ritchie, but when the case was called it was dismissed at the request of the district attorney on account of lack of evidence. Hunt held Star.

WILLOW CREEK MINES MERGE

Through the efforts of J. Henry Goodman the Willow Creek Gold Mining company and the Liberty Gold Mining company have been consolidated and in the future will be under one management, with ample capital assured for the development of the entire holdings of the new company.

Andrew C. Lawson, head of the Berkeley school of mining, and who made the original favorable report which interested the Nevada Gold Mining company at Hillman, Mont., is largely interested in the new venture, and will see that it is well managed by California and Montana capital within thirty days from date. Andrew C. Lawson is expected to arrive in the district in a short time to look over the ground and outline extensive development work which will be pushed along as rapidly as possible under the new management. The two companies control a large number of the original locations made at Willow Creek by the discoverers, W. J. Blackwood and Steve J. Pappas, and upon which a considerable amount of development work has been done during the past seven or eight years. A large amount of excellent rich gold ore has been taken from the property much of which ran into the thousands of tons. Recently an assay of \$42,000 was had from ore taken from 249 feet beneath the surface. There is also a large amount of good milling ore on the dumps which will be treated during the present summer.

GERMAN ATTACK ON GIBRALTAR

(Correspondence Associated Press)
LONDON, Feb. 3. A German submarine for an hour and a half in Gibraltar, in company with the Italian and Austrian fleets, has just been disclosed, says the Evening Standard.

In the course of 1914 an aviation exhibition was projected at Malaga, Spain, but was suddenly abandoned on the eve of hostilities. German competitors had entered ostensibly for show purposes, the Standard states, but really in order to be close at hand for an air attack on Gibraltar. They hoped to secure the cooperation of the Italian and the Austrian fleets in this venture.

The British authorities had previously learned of this plan and it is all hope of participation in the Italian fleet failed, the coast had to be declared off limits to the chartered Germans who had risked an attempt at an excellent place for a submarine base.

SAGE HENS DRIVEN FROM HILLS

The flock on the high mountains has covered up most of the feed for sage hens, and the birds have been forced to seek their subsistence in the valleys, where the brush and grain which they feed on is scarce. Sage hens have, consequently, been seen in their droves when approached by their arch enemy man. They were a million dead this year, according to the government about as many as the common pigeon, and when the rains no more the birds for which they were the prey, the sage hens are killed.

AERIAL POWER GERMAN'S HOPE

(Correspondence Associated Press)
BRUXELLES, Feb. 3. Proposals to bring numbers of zeppelins which could be used for the transport of troops and supplies to the front, the German plan suggests that it is necessary to have a large number of zeppelins in the air.

ARGENTINA IS OVERRUN WITH IMMIGRANTS

(Correspondence Associated Press)
BUENOS AIRES, Jan. 10. Every steamer arriving here from Latin ports in Europe and from Holland is loaded with immigrants coming here to settle. Most of those on the Dutch ships are Germans. They are attracted by the fact that Argentina is prosperous, untroubled by war and the belief that it offers promise of rapid development.

A great increase in the foreign population of the Argentine is expected, owing to this immigration. Already nearly enough at the population of Buenos Aires is foreign born and a majority of those have failed to become citizens, although only two years residence is required. Many have been residents of Argentina and own large property owners.

The influx of new immigrants has prompted a proposal by Dr. Juan Carlos Galarza, professor of law in the University of Buenos Aires, of special opportunities of a new massive educational obligation, without the satisfaction of citizenship in the case of those who do not become citizens. This was to solve the problem presented by failure of too many foreign-born persons to become citizens and take part in the affairs and politics of the country. He admits that this is a revolutionary measure, but contends that the Argentine circumstances would outweigh the disadvantages.

TRACK PROSPECT GROWS BRIGHT

(Associated Press)
PUEBLO, Colo., Feb. 3. The prospect of a new gold mine in the mountains of Colorado, which has been the subject of a number of years of former rumors, is now being actively pursued.

Yaphet "Dip" Smith, holder of the exclusive prospect in the Colorado and at Miller, says the prospect is good and that the mine will be open in a few weeks. Smith and Floyd (Patrol) holder of the Colorado prospect in this mine, will be available this month.

You football men will bring out for track. They are Elton, George, holder of the college, you will record and winner of the conference meet at last season's meet. Mike Moran, Jack Hunter, and the King, holder of the conference, other letters, you will be expected to bring you track, high and low hurdles and the mine. Ketchum, former guard made, holder of the college and Wagon, put and center dashes.
