DEADLOCK SUFFRAGE VOTE

West Virginia Legislature Halted By Anthony Amendment

CAPITAL FOR CINNABAR MEANS PRODUCTION OF VALUABLE BY PRODUCTS

Nevada promises to become the leading producer of quicksilver on the Pacific coast judging from preparations that are being made at Mina and vicinity for developing cinnabar deposits that have been hand-

The Mina Mercury company ranks as one of the strongest and closest corporations occupying the cinnabar district of Mineral county. The holdings of this company comprise one claim and two fractions which has been prospected to an extent that satisfies the stockholders that they have an enormous formation capable of yielding high returns in "quick" at small cost.

The Mina Mercury company, however is not going to be content with extracting quicksilver from its cinnabar ores, for a comprehensive plan has been outlined by which vermilion and sulphuric acid will be saved as by-products.

Frank Mansson, of the Western Ore Purchasing company, has bought for himself and associates the Dewey & Buggs cinnabar property, 14 miles north of the Mina Mercury company's group.

These operations indicate an awakening in the quicksilver industry which should eventuate before the end of the year in a production that will make Nevada a close second to Texas in value of output.
