CHINESE STUDENTS FAIL IN A STRIKE

(Correspondence Associated Press) SHANGHAI, June 1.—A strike of thousands of students throughout China to compel the Peking government to disclaim all intention of opening direct negotiations with Japan, concerning a settlement of the Shantung problem has failed. Leaders of the national student organization in Shanghai attributed its failure to lack of popular sympathy and untimeliness.

Snakes are said to be so short sighted that they are unable to see a distance of more than one-quarter of their own length.

OFFICIALS ARE MAKING VIRTUE OF NECESSITY

WASHINGTON, July 1.—Making a virtue of a necessity is now a clever practice of the chiefs of the executive departments. They are all claiming to be saving money because they are cutting down their staffs of clerks for simple lack of appropriations which they begged of Congress and which Congress denied them. Secretary of State Bainbridge Colby, is out in a statement that he aims to bring expenses within the appropriations. He says there has been a total decrease of \$1,969,641 in what was given him to spend and that he sees his way clear to save at least \$1,002,890, in comparison with last year's expenditures. This is encouraging but it should have been done a year ago before the shutting off of the golden flow of the people's money made it inescapable.

FRENCH DESIGN FOR MONUMENT

(Correspondence Associated Press) PARIS, June 15.—Clemenceau is shown at the front, standing at the edge of a trench, with his friends the French poilus below and about him, in the monument to be erected in his native country, the Vendee, early next year.

Francois Sicard, the sculptor, is chiselling the group work out of hard Burgundian stone. Unfinished, the work is already said to visualize with great character, the scene so often pictured of the old "Tiger" mentally and almost physically, fighting for France.

The Premier's figure stands eight feet high. He is, as always in the war days, wearing the long, loose overcoat and the soft, slothfully crumpled hat, leaning on a cane. His face is toward the enemy, his eyes watching the horizon, following indications given him by a seated officer with maps, beside him, on his right are grouped soldiers and in

The trench below are more of the men in the ranks, looking with mingled astonishment and admiration at their Minister of War.

The scent is said by critics to be vividly natural, rough and muddy but historic and full of the color and character of war days.

INDIAN SLAVES WANT FREEDOM

(Correspondence of Associated Press) MEXICO CITY, June 14.—Twelve million Indians, who have slaved for five cents a day for five years at a time to support 3,000,000 idlers, cry out for help to the newly formed national Agrarian party, according to Crisoforo Ibanez, who made the keynote speech at the party's organization meeting here yesterday, according to El Heraldo de Mexico.

"Since childhood I have lived the life of the peasants," said Ibanez. "I know how much the toilers of the field have suffered, how much they need and how much they merit. They have spent five years at a time earning the miserable daily wage of ten centavos, five cents, tilling the earth with the sweat of their brow for other people's profit. In the beginning of our history as a people the Indians were reduced to worse than nothing by the Spanish agents, who to enslave them, incited in them fanaticism for the Virgin of Guadalupe, so as to be able to do anything they pleased with them later, by invoking this name, and the Indian was reduced to slavery."

SPAIN SAID TO BE DESPOTIC

(Correspondence of Associated Press) MADRID, June 14.—Spain has been ruled since March 24th, 1919, by its successive governments in the same way as Russia was ruled under the old despotic emperors, assert the Liberal newspapers.

"On that date the constitutional guarantees were suspended in all the provinces," says La Libertad, "and till this date have never been restored. Even when the general elections were in progress, public rights under only one of the articles of the constitution, and then only the second paragraph of article 13, were permitted to be exercised that is to say, the right of holding quiet public meetings."

"This permission was useless by itself without being accompanied by the others consecrating the same precept of the fundamental law since what could be the object of holding meetings while the prohibition was still enforced against the free expression of opinion and while the press continued muzzled?"

The censorship continually exercised not only on Spanish papers but on telegrams to the foreign press also is sharply criticized.
