(By Associated Press) DUBLIN, Ireland, Oct. 26.—Eight men said to be residents of Cork, were arrested last evening as they were about to sail for England, and the police are investigating whether they were merely going to the funeral of Lord Mayor MacSwiney or whether there was a possibility that they intended to avenge his death. Each man wore the uniform of the Irish republican army under his ordinary garb and carried four discharges.

HARDING WILL TAKE VACATION AFTER ELECTION

California and Gulf Resorts May be Host to Leader of Republicans

(By Associated Press) MARION, Ohio, Oct. 26.—An election day draws near, volunteer suggestions for a vacation trip for Senator Harding are coming to his headquarters in increasing numbers. Many popular winter resorts have asked to be his host and several elaborate private homes have been placed at his disposal for a rest after the end of the campaign. It was said today that probably no choice of a vacation spot would be announced until after the election.

Hawaii, Bermuda, Panama, California and the Gulf coast have been mentioned in speculation regarding a vacation trip. The general belief of those who know the senator's inclinations, however, is that he will not go outside of continental United States, and probably will not travel so far west as the Pacific coast.

ODDIE FRIEND OF PIONEERS

Tasker L. Oddie, who was appointed general manager of the Tonopah Mining company in 1902, was the greatest friend the business men of this community ever had. In December, 1901, Lothrop & Davis, the pioneer mercantile firm, started the construction of the first telephone line from Sodaville to Tonopah with scarcely enough capital to commence operations, and no sooner had they started than Bob Hoeffler of Carson City conceived the idea of starting an opposition line from Candalaria, and in conjunction with General Manager Jenkins of the Tonopah Mining company, proceeded with operations.

General Manager Jenkins was called to Philadelphia and dismissed and Tasker L. Oddie was placed in charge of the Tonopah Mining company as general manager.

The first thing Mr. Oddie did was to wire Hoeffler to stop construction of the line controlled by the Tonopah Mining company and to enter into a contract with Messrs. Davis and Lothrop to use their private line for the transaction of all Tonopah Mining company business. This is one of the many favors Tasker L. Oddie extended the early pioneers of this camp and shows the character of the man who, with Jim Butler, located and developed the wonderful mineral resources of southern Nevada. Mr. Businessman, don't you think this is the kind of man who deserves your vote November 2 for United States senator?

Broken Hills Makes High-Grade Shipment

BROKEN HILLS, Nev., Oct. 26.—The sampler sheet of the Western Ore Purchasing company, just received here, shows that the recent shipment of 25 tons of ore, made by the Broken Hills Silver corporation to Hazen had an average value of \$206.43 a ton. The mineral content of the ore was 18.8 ounces silver and 19 per cent lead a ton. The shipment was mined in the Belmont incline shaft, where a cross-vein of sensationally high grade ore has been followed from the surface to an incline depth of 90 feet, or to a vertical depth of approximately 60 feet. On the 90-foot level drifts have been run east and west of the station and a lens of high grade ore has been followed having a value as high as \$800 a ton. The average grade of the ore as sacked for shipment from the Belmont workings, as determined by sack sampling, is \$240 a ton. Some lower grade ore from the main workings of the Broken Hills vein contributed to reduce the average of the initial output to \$206.43 a ton.

Ore having an average value of approximately \$240 a ton is now being mined and sacked in the Belmont incline workings at the rate of two tons per day, from the stopes and winzes on the 90-foot level. Two winzes, now going down from the 90-foot level, show the rich vein to be widening with depth, and the company is now rushing the sinking of a new perpendicular shaft, 437 feet, to reach a depth of 150 feet, to get into the ore at that level, and increase production.

(By Associated Press) WASHINGTON, D. C., Oct. 26.—A formal request for the dismissal of Louis Post, assistant secretary of labor, was submitted to President Wilson today by a committee of the American Legion. Representatives of the Legion in Pacific coast states demanded last May an investigation of Post's official conduct with reference to the deportation of aliens.

An announcement by the Legion committee today said that a special committee's report reviewed the entire matter of deportations and stated that the labor department had canceled from January 1 to June 15 deportation warrants numbering 2115, ordered deportations in 530 cases and deferred 60. When Post took charge of matters the deportations ceased, the committee said.

ELKS TO DANCE WEDNESDAY EVE

Plans are complete for the Yama Yama dance to be given Wednesday evening by Tonopah lodges B. P. O. Elks, at their home in this city. Decorations appropriate to the occasion are being put up in the hall and all indications point to one of the most enjoyable affairs of the season. In the past the Halloween party of the Elks has been among the leading social events of the year and the committee in charge is planning that this one shall excel former ones. Lichtenberg's orchestra will furnish the music for the evening. On account of the size of the hall, the affair is restricted to Elks and their ladies only.

THIS SPACE HAS BEEN PURCHASED BY THE FRIENDS OF TASKER L. ODDIE

It took thirty-six states to ratify the Woman's Suffrage amendment to the Constitution before women were given the right to vote for President this year.

TWENTY-SEVEN OF THOSE STATES WERE REPUBLICAN

Tasker L. Oddie always has been a strong champion of Woman's Suffrage. This year he was a prime mover in the agitation for a special session of the legislature of Nevada to ratify the Woman's Suffrage amendment. In February last men and women of the Republican party met in Reno and in meeting assembled unanimously petitioned the governor to call such a session. Tasker L. Oddie was the man who conceived the resolution and presented it for action by those representative Republicans.

The women of this county and of the state will stand by the man who helped their cause, TASKER L. ODDIE.

He is the champion of the rights of the people, men and women, considerate of their interests and welfare. He was such as a citizen and as a governor. He will be as a Senator.
