

ELECTION OF ODDIE ARENTZ IS SURE THING

Candidates Receive Rousing Receptions in Every Section of State

LOVELOCK, Nev., Oct. 28.—We are all familiar with the old story of the politician who complained, after election, that his friends did not vote as they drank. Yet bearing the significance of that classic in mind, it seems safe to say as the close of the campaign of 1920 draws near, that the canvass made by Tassler L. Oddie and Samuel S. Arentz, Republican candidates for United States senator and representative in congress, respectively, will bear the fruit of success.

Of course, this statement bears with it the correlative one that Nevada will shift from the Democratic to the Republican line-up of states. With the election now but five days away, it appears certain that nothing but an entirely unforeseen reversal of popular sentiment can hinder this result. Elko and Winnemucca are looked upon by the candidates as crucial points. They have been passed, and results appear to have been better than had been even hoped for.

Nobody doubts a considerable revision in the general voting against the Democratic national administration. But, politics and policies aside, Oddie and Arentz are liked by Nevada people. They are warmly received. This was, perhaps by contrast, even more apparent in the two "Democratic strongholds" mentioned than at some other places. The recent Republican meetings at Elko and Winnemucca were said to be the most political gatherings ever held in those towns.

Voters who appreciate the present stagnation of Nevada state affairs—and they are many—are considering more than ever before the qualifications of the candidates who are asking their suffrage. As Captain Arentz sometimes expresses the idea in his speeches, "It's not going to be a question of how a candidate has his hair cut, or what kind of necktie he wears, but what does he know which will enable him to properly represent Nevada."

A dozen of the best qualified Elko

county politicians predicted to your correspondent that Senator Henderson would receive a plurality in his home county of less than 600. If this is true, he cannot be elected. In Humboldt county, one of the wisest politicians of the state predicted an even break for Republican candidates for senator and representative. This, taken in connection with other considerations, would be sufficient to elect them. Most effective work was done in Humboldt outside of Winnemucca. County Clerk Davey reported the receipt, Tuesday afternoon, of 12 new registrations from Idaho Canyon, and they were all Republican! During all the registration period this year in Humboldt, Republicans have been in heavy majority.

Albert Lindley, the national committee speaker, told his Winnemucca audience he could not tell from their speeches whether Oddie and Arentz were working for "themselves or the other fellow," so many compliments were exchanged. He likened them to Damon and Pythias. The candidates also tell they people they will work together if elected to congress, and the voters like that idea. They know both men to be energetic workers, and they understand their experience in Nevada affairs.

The campaign pace of the Republican candidates has reached the limit of speed in the home stretch. For example: They left Wells at 6 o'clock Sunday morning and retraced their route through Elko and Battle Mountain. At Carlin they addressed 100 railroad men from the depot platform before a movie camera. They met voters at Golconda, where the campaigning automobile stalled. Fifty-two miles were covered into Paradise Valley in time for three speeches, and Winnemucca was reached during the evening. Two meetings, six speeches and much personal work occupied the time there Monday. Tuesday the candidates went to Linsay and Rochester, meeting voters also from Lyner Rochester and Packard, and arrived at Lovelock in time for a big evening meeting, with bonfires, a band, a free picture show, free dance and luncheon as added attractions.

J. Adam Bole and Rev. Brewster Adams joined Oddie and Arentz at Lovelock. Albert Lindley has returned to the campaign in California. Energy, and more energy, is the program of the campaign from now until the finish. Physical fatigue is smothered in a fire of activity and enthusiasm. One last short period of work, at whatever high pressure and then—the bacon!

MARTIAL LAW IN SOUTH AFRICA

(Correspondence of Associated Press)

JOHANNESBURG, South Africa, Sept. 11.—The authorities of Lorenzo Marquez, Portuguese East Africa, have given warning to striking railway men in that province that if they attempt to dynamite trains, as threatened, the ringleaders will be bound with ropes and put on a truck in front of locomotives, says the Central News.

Lorenzo Marquez has been almost cut off from communication with the hinterland for several days owing to the strike. Martial law has been proclaimed and the railway brigade, which is composed of ordinary railway workers, has been ordered out for service. It is reported, however, that the majority of the men ignored this order. Work at the port has been at a standstill.

AUSTRALIA MAY STOP SHIPBUILDING

(By Associated Press)

MELBOURNE, Australia, Oct. 27.—On account of the heavy decline in the value of steamers there is much speculation in shipping circles as to whether the Australian government will proceed with its shipbuilding program. If it does, the public will be asked to pay one third more for steamers than the price they could be purchased for in the open market.

At present there is no scarcity of tonnage, hence the fall in prices and the certainty that there will be another fall as more tonnage becomes available.

LONDON HIT BY SPANISH CRAZE

(Correspondence of Associated Press)

LONDON, Oct. 4.—A society craze for things Spanish seems to be imminent in England. Two Spanish plays are running in London and Spanish singers and dancers are in great demand. Many fashionable women are wearing the high Spanish comb and one sees tentative attempts at the mantilla, or mantilla effects. All the new fashionable dances are said to show distinct leanings toward Spanish interpretation.

SCHOONER BARELY ESCAPES FREEZE-UP

(By Associated Press)

SEATTLE, Wash., Oct. 28.—By about 24 hours the Seattle trading schooner Kamchatka recently escaped being sealed in the Arctic ocean ice for the winter, according to officers of the boat which has arrived here from the far north.

The Kamchatka had been hunting walrus to the east of the straits when a fierce storm began blowing from the northeast, driving the ice toward the straits. The boat stopped hunting and headed for the passage, reaching there in time to find a narrow lane open between ice that extended out from the shores.
