JUDGE LANGAN IS NOT VINDICATED AS PEOPLE SEE IT

The vote of the senate members who balloted to acquit Judge Langan yesterday is the talk of southern Nevada citizens today, and the vote for and against him should be cut out and preserved for future reference.

SENATE VOTE Against Removal.

PENROSE, DRESSLER, MILLER, HESSEN, HARRINGTON, KENNEY, KENT and DUCY.

For Removal.

COWLES, GRIFFITH, RAND, MACCALLAN, CHAPIN, FITZGERALD, SCOTT, UNISACKE and SHEHAN.

ASSEMBLY VOTE Against Removal.

FULTON, KING, FALL, WHITACRE, TANNHILL, MACK, LOCKHART.

For Removal.

GUMMOW, VENCIL, HENDERSON, SMITH, HUSSMAN, BARTLETT, BYERS, FAIRCHILD, LUTTS, HARTLEY, WALTERS, WARD, MEDER, BROWN, DEFENBAUGH, ARNOLD, POHL, GENTRY, AVERILL, PIERCY, ROBB, HART, ADDEN, BROOKE, HEWARD, MATHEWS, SPILLER, HILL, CROSS, ROYLE.

The followers of Langan brought his six children into the fight. This was "sob stuff" used to create sympathy for him, when he was not entitled to a scintilla of sympathy.

THOSE "SMALL CHILDREN"

A lot of time was consumed in the Langan hearing before the legislature at Carson in legal jockeying to get before the members the fact that the accused judge has "six small children." How much time was devoted to the six hundred or six thousand "small children" of the depositors of the bank that fell under Langan's control because he happened at the time its doors were closed to hold the office of district judge? These other "small children" have either gone to their graves or grown to manhood and womanhood and have brought us other "small children" while Langan's \$2000 clerk has been nursing his \$10,000 job as lawyer, payable out of the funds the court was sworn to protect!

"Again we ask, for the forty-third time, where in all Nevada or in all America is there a bank that would, out of its own funds, pay this \$10,000 bank receiver as much as \$2000 per year as a banker? The men and women who put their money in the defunct bank put it there for their own children and not for Frank Langan's, who have come into the world since their father and his pet receiver got their strangle hold on the funds of this bank."

The assembly yesterday talked of proceedings authorizing the attorney general to commence action against Frank Wides for perjury.

Judge Langan gave out the following statement:

"I am, of course, glad and pleased at the senate's action. I believe that the senate vote is a complete vindication. I do not think that during my 14 years on the bench I have been guilty of any wrongdoing. As far as the State Bank & Trust company's affairs are concerned, I propose to rush them to completion. I do not know of anything further that I could say."

If Langan can see any complete vindication in the action of the nine senators and seven assemblymen who stood by him, he has better foresight than nine-tenths of the population of our state.

FIND TREASURE IN AN OLD DESK

(By Associated Press) VIENNA, March 15.—The hidden fortune in a piece of old furniture has turned up in Vienna with unusually dramatic setting.

One of the many families who live by the gradual sale of antique family possessions decided to sell a very old desk. The daughter and a friend were removing it to a waiting wagon when the well-known secret apartment opened at the proper cue and disclosed a pile of gold coins.

In the coinage of nearly all European and some of ancient date, they represent 5,000,000 present Austrian crowns.

PLAN MEETING OF ENGINEERS

(By Associated Press) PEKING, March 15.—The Huapei conservancy board of Shanghai has asked that each nation represented on the "consultative board" appoint an expert engineer to attend a conference in Shanghai, beginning October 15, to consider the question of developing the port of Shanghai.

The nations in question, being the five having the largest tonnage entering and clearing at Shanghai, are Great Britain, France, the Netherlands, Japan and the United States.

It is stipulated in the request for such appointments that the appointee must be an engineer of highest standing in his country, with at least 15 years' experience in harbor and river work either as engineer-in-chief or consulting engineer.

It is estimated that the appointment will entail a four months' absence for those from the western world, their expenses being met out of a fund of 15,000 taels provided by the conservancy board. The task upon which they will be asked to give a technical opinion is the developing of the port in the near future with approaches and draft as at present, to conform to the probable maximum draft of Pacific ships.

SOVIETS LOSING CONTROL OF MEN SAYS DISPATCH

(By Associated Press) STOCKHOLM, Sweden, March 15.—The Russian bolshevik authorities seem to be losing control over the soviet troops dispatched from Finland and Estonia reports.

Artillery fire from the fortress of Kronstadt was directed yesterday along the southern coast of the gulf of Finland between Oranienbaum and Petrograd. The bolshevik artillerymen in Khusnaya-Gorka shelled and destroyed the lighthouse at the toll station of Kronstadt during the day.

A man who had just arrived from Kronstadt was interviewed on Sunday night and emphatically denied the bolshevik reports that some of the Kronstadt forts had been captured by the bolsheviks. He declared the garrison of Kronstadt was relying on getting food stores from the American Red Cross station at Viborg, Finland.

STAGE ROUTE TO OWENS VALLEY IS INSPECTED

(By Associated Press) L. L. Mudgett and Frank Lee returned last night from a road inspection trip which took them over the different routes between Tonopah and Big Pine. The trip was made to determine the most feasible route for a stage line between Tonopah and the Owens valley. They went to Big Pine by way of the Midland trail, which passes through Goldfield and Lida, and report this road in fairly good shape, excepting from the Lida summit to Oasis, which is somewhat cut up, but passable.

They report much enthusiasm at Bishop, where the enterprising citizens have raised about \$8000 to improve the new road which is now under construction. This route runs northward from Bishop to Basalt on the narrow gauge railroad, thence easterly in almost a direct line via Caddale to Tonopah.

In order to shorten this road and place it in first class condition, it was necessary to construct a new piece of road for a distance of about 18 miles easterly from Basalt. They state that this route will undoubtedly become the main line of travel between all southern points and Tonopah, as practically all grades are eliminated. The road crew has already constructed about five miles of new road out of Basalt and within the next ten days enough of the 18 miles will have been completed to permit of fast time between Bishop and Tonopah.

On account of the curtailment of service on the Southern Pacific, the people of Bishop were considerably enthused over the prospects of a stage connection between that point and Tonopah, and have offered their assistance in securing patronage for the line, and it has therefore been definitely decided to operate the stage line over the new route and make Bishop instead of Big Pine the terminal.

As soon as the construction work is completed the members of the Bishop chamber of commerce will sign the road completely so that tourists will have no trouble in traveling the route.

Some time ago the California Automobile association secured an appropriation of \$300,000 to be spent on the Midland trail which passes over the White Mountains through Westgard pass, but since this new road has been shown to be so much more feasible, an effort is being made to have this expenditure diverted to the northern route.

(By Associated Press) RENO, Nev., March 15.—Mrs. Jane Nelson, who said her acquaintance with Mrs. Etta Hanna, victim of a tragedy here on February 3 which resulted in the prosecution of James H. Neveu, political mining man, for alleged murder, covered 50 years, told the jury as a defense witness that Mrs. Hanna was a left-handed woman.

The defense contends that Mrs. Hanna took her own life, and fired the fatal shot with her left hand, the bullet penetrating her right wrist and lodging in her brain. The defense expects to complete the introduction of its evidence before the end of the week.

FORMER MINERS TO HUNT PAY STREAKS

(By Associated Press) GRASS VALLEY, Cal., March 15.—Grazed miners, who worked in the Eureka-Idaho-Maryland mine here 35 years ago, are going back into the long-abandoned workings to point out sections from which they look quartz in the early days.

The men, some of whom have been retired for 20 years, are being asked to go into the mine by a company which recently took the property over and which hopes, by the aid of the veterans, to locate the lost pay-streaks.

While details are kept secret, it is known that the memories of the old miners have been verified in several instances. Thousands of tons of debris in the mine make any general exploration almost impossible.

HAWAIIAN OFFICIALS MAY GET INCREASES

(By Associated Press) HONOLULU, T. H., March 15.—The governor of Hawaii, the chief justice of the supreme court, his associates and the judges of the circuit courts are all due for salary increases, if bills introduced in the territorial legislature are made law.

One bill would add \$4500 to the salary of \$7500 now paid by the federal government to the governor, the difference coming out of the territory's pocket. The other measure plans to increase the federal stipends paid the judges named by \$150 per month, unless the federal government increases their salaries in the meantime. This latter measure followed a protest to the legislature by Chief Justice J. L. Coke, who declared that judges of courts of record in the territory could not live respectably on their present stipends.

CALL ON GERMANY FOR REPARATION PAYMENT MAY 1

(By Associated Press) PARIS, March 15.—Germany was called upon yesterday by the reparations commission to carry out article 235 of the Versailles treaty, which stipulates that Germany must pay before May 1, 1921, the equivalent of 20,000,000,000 gold marks.

The treaty provides that payment may be made in gold, commodities, ships, securities or other valuables, and out of this sum the expenses of the armies of occupation are to be met.

The commission also took steps to carry out article 233, which provides that Germany must be notified before May 1 the total amount of war damage imposed upon her by the treaty. Discussing the protest made to the league of nations by Germany against penalties being enforced by the allies on Germany because of her refusal to carry out the reparations obligations, the Petit Parisien says, "Germany is not qualified to demand arbitration from the league, as she is not a member of it."

UNEMPLOYMENT IN BRITAIN GRAVE

(By Associated Press) LONDON, March 15.—The unemployment question in Great Britain is still very serious, but the belief is held in many quarters that the peak has been passed and a decline may be expected, says the American chamber of commerce here.

Wages combined with low output are given as the chief element in the high cost of production, but as yet few proposals have been made by employers for reductions.

In certain industries and occupations where there is either a sliding scale based on the cost of living or where special bonuses are paid to meet increased cost, a reduction of wages will be automatic, according to the chamber.

IMPERIALISM IS IMPEDIMENT

(By Associated Press) TOKYO, March 15.—That the imperialism of Japan will prove as much an impediment to the satisfactory solution of her Korean question as the imperialism of Great Britain will be to the settlement of the Irish, Indian and Egyptian questions, and that of the United States to the solution of the Mexican problem, was the statement of Baron Kokiichi Ishimoto, a mining expert, in an address before the Oriental and Occidental Religion society.

The chief subject of discussion at the meeting was the problem presented to Japan by Korea and Baron Ishimoto's proposed solution of that problem is the granting of a larger amount of economic freedom to the Koreans.

"It is regrettable that the pending questions between the Japanese and Korean peoples should remain unsolved because of the imperialistic policy of Japan," he said, "a policy which combines militarism and capitalism. However free and peaceful a nation may appear on the surface, no real liberty can be enjoyed so long as the economic system of the country is under control of another nation. The emancipation of Korea cannot be achieved under the economic yoke which restricts the free activities of the Koreans in vast away."

CLARA HAMON ON WITNESS STAND IN OWN BEHALF

(By Associated Press) ARDMORE, Okla., March 15.—Clara Smith Hamon, charged with the murder of Jake L. Hamon, took the witness stand in her trial today, and told of the incidents of the day and night of November 21, when Hamon was shot.

She said that Hamon was very drunk and angry. She had locked the door to her room, but Hamon slipped in when the porter brought her some ice water. Hamon, after the porter left, asked her whom she had been riding with. She said she told him he knew she had been with nobody. Then Hamon choked her, beat her, slapped her and twisted the skin from her wrist, and tried to bend back her fingers and break them, threatening to cut her throat. He reached for a small penknife, and then she reached back to her handbag and got a small revolver. She ordered him to stand aside, while she tried to unlock the door and slip out. Hamon, she said, then raised a chair and struck at her, and the gun went off. She said she did not know how it was discharged. She did not mean to shoot him. The court then recessed.
