DEMANDS EX-RULER MUST QUIT HUNGARY

(By Associated Press)
VIENNA, Austria, April 4.—The Austrian cabinet has notified the Hungarian government that unless an early hour is set for the certain departure of ex-Emperor Charles, the Austrian government will cancel his safe conduct.

This has evoked the promise from Hungary that Charles would leave that country within 48 hours from Sunday night.

(By Associated Press)
BUDAPEST, April 4.—Former Emperor Charles told members of his suite at Steinmanger yesterday that he was unwilling to leave the country. If he could not remain as king he would settle in the country as a private citizen, he declared.

(By Associated Press)
GENEVA, Switzerland, April 4.—A message today from the Swiss minister in Vienna said ex-Emperor Charles probably would reach the Swiss frontier tonight.

PLAN TO ALLOW FOREIGNERS TO RETAIN HOLDINGS

(By Associated Press)
PARIS, April 4.—Measures are being taken by the Russian soviet government to allow foreign owners of factories in Russia to exploit their properties under a regime similar to that established for mines, it was announced today in a wireless from Moscow.

SAN DIEGO HIT BY HAILSTORM

(By Associated Press)
SAN DIEGO, Cal., April 4.—San Diego had a hail storm this morning, ice pellets about the size of peas slanted to the ground for about five minutes.

PROSPECTOR COMMITS SUICIDE AT BEATTY

The sheriff's office received word last evening that James Barlow, a prospector, had committed suicide by shooting himself through the head at Beatty, where he made his headquarters. The suicide is not known here. Sheriff Thomas and Justice of the Peace Cuddy left this morning for Beatty, where an inquest will be held this afternoon.

FISH LAKE MERGER NEW DRILL SOON ON GROUND

Asked by a Bonanza representative when the Fish Lake Merger Oil company's big drill would be shipped, E. N. Richardson, secretary of the company, replied: "Mr. Taylor is now in Los Angeles and he advises me it will be loaded and shipped on the 9th or 10th. It was thought best before shipping to have the drillers go over the machinery carefully and see if everything was in first-class condition. We do not want to be delayed after the outfit has arrived waiting for some bolt or necessary tool."

Mr. Richardson states they are expecting the lumber for the derrick almost any day now. It will be set down at Blair Junction instead of Coaldale, as Mr. Bellville, the trucker, has decided he would rather haul it out from there.

Mr. Taylor writes that he has employed two of the best drillers in the country to take charge of the work. The drillers are familiar with the

SERIOUS FIRE RAZES PORTION OF CALIF. TOWN

(By Associated Press)
SAN FRANCISCO, Cal., April 4.—Fire which started in a billiard hall wiped out a portion of the little railroad and resort town of Tiburon, in Marin county. The damage is estimated at \$100,000. Fourteen buildings were destroyed in Tiburon. The fire was carried by a high wind to Corinthian island, to the west, where two structures were burned.

AMERICAN RADICAL IS DEPORTED BY MEXICO

MEXICO CITY, Mexico, April 4.—Lynn A. E. Gale, American radical, who was arrested here Friday night, has been deported by way of Vera Cruz, say the newspapers of this city.

It is the general impression here, however, that he has been taken to Laredo to be turned over to United States officials. President Obregon has issued a formal statement asserting that Gale had been deported because of his activities against the present Mexican administration and classing him as a "pernicious foreigner."

COPPER MINERS TO PAY NO RENT

Realizing that there is a scarcity of homes and that many families might suffer if compelled to move at present, the Utah Copper company announces that it will allow the men recently thrown out of employment by the closing of the mines at Bingham and the mills at Arthur, Utah, to remain in the company's houses, rent free.

It was stated that the company wished to do everything possible to ameliorate conditions and that a plan was now being considered of allowing the unemployed to cultivate 10 acres of ground at Garfield, Utah, owned by the company, with a view to cutting down foodstuffs costs to the men.

When a man has actually decided to make a choice of two evils there is no certainty that he will take the least.

PROMISED INCREASE IN WAGES NOT MADE

(By Associated Press)
SAN FRANCISCO, Cal., April 4.—Charges that the Great Western Power company had not granted wage increases which they promised to make when the railroad commission permitted them to add a 15 per cent surcharge for service last year, were made by Leon Gray, assistant city attorney of Oakland, at a hearing before the railroad commission on the company's application for permission to continue making the surcharge after April 10, when the permit is due to expire.

SUIT TO COMPEL THE PAYMENT OF \$500,000 FILED

(By Associated Press)
SAN FRANCISCO, Cal., April 4.—Action to compel them to pay \$500,000 into the treasury of the Eagle Chemical company in connection with the locating of potash, soda ash and borax deposits on 1400 acres in the Searle Lake region, San Bernardino county, was filed against Robert Gordon, Homer Aibers and George Eaton, and other prominent Boston residents.

RICH PLACER DISCOVERY AT JOHNNIE MINE

One of the richest gold placer discoveries in years was recently made between the town of Johnnie and the Johnnie mine. The discoverer was Robert Wedekind, of the Reno Weidakin mine and his associate, Frank Buol. The discovery was kept secret and became known by the act of kindness and brotherly love of a Ford owner. During the return trip of Ambrose Murphy and Edward Bahten, better known as the "Furnace Creek Kid," both of whom had been in the Death Valley region for 10 days, they stopped at Johnnie. Buol and Wedekind had a car but could not make it work, and Murphy volunteered his services and knowledge which resulted in the car being tuned up and put in running condition. This so pleased the discoverers of the placer gold that they made it known to Murphy and the Furnace Creek Kid, and they, with the discoverers, visited the location and after panning coarse nugget gold from the bedrock which is 14 inches from the surface, they made two placer locations. The gold is very coarse, some nuggets being the size of beans and marbles. The discoverers estimate that their shallow workings will average from \$50 to \$75 per yard. There is some water at the Johnnie mine and an abundance of artesian water is to be had two miles below the town of Johnnie. The discovery is in Nye county near the state line. Mr. Murphy and Mrs. Bahten will leave tomorrow or next day to prospect their claims, which adjoin the original discovery. The Johnnie gold quartz property has been worked for years, and this is the first time placer gold has been found in that locality. Considerable excitement prevails over the new find and the stamped for the new diggings is on.

33 KILLED WHEN TRAINS WRECK

(By Associated Press)
EAGLE PASS, Texas, April 4.—Thirty-three persons were killed in a collision between a freight and passenger train on the Mexican national line at Villa Garza, according to reports received here today.

MASKED MEN GET \$50,000 IN POST OFFICE HOLD-UP

(By Associated Press)
DOUGLAS, Ariz., April 4.—While Postmaster Bailey, of Biabee, was working in his office last night, two masked men, whom the officers believe to be Mexicans, entered. At the point of revolvers they forced him to open the post office safe, and escaped with about \$50,000, according to information received here, \$40,000 of which was in cash.

IRISH ARMY REPORTED IN ACTIVE FIGHTING

(By Associated Press)
DUBLIN, April 4.—Flying columns of the Irish republican army are of locally reported to be operating in Fermanagh, Armagh, Kildare and Queens counties. There has been much destruction of roads and in many cases intimidation has been resorted to.

A fight occurred last night in the hills near Dundrum, four miles south of Dublin. Crown forces had proceeded to the hills in lorries to investigate reports of firing. They found 20 armed men, some of whom, after firing at the military, mingled with women and children who were picnicking, for which reason the crown forces refrained from using machine guns. They pursued others, however, and shot two. The remainder set fire to shrubbery on the hillside and escaped in the smoke screen.

EXPECT HARDING TELL STAND ON PRESENT LEAGUE

(By Associated Press)
WASHINGTON, D. C., April 4.—President Harding is understood to have approved immediate reintroduction of the Knox peace resolution when congress convenes next week. Final decision was not reached, however.

The president is understood to have been urged by some advisers to make an emphatic declaration in his forthcoming question to congress announcing unequivocally that under no circumstances will the United States at any time join the present league of nations.

THERMOMETER FALLS THIS MORNING

The weather bureau thermometer this morning at 5 o'clock registered 17 degrees above zero and an hour later it had dropped to 16. This date last year it recorded 32 degrees. Today has been cold and at times during the forenoon regular blizzards prevailed. About an inch of snow fell.

TURKS DEFEAT THE GREEK ARMY

(By Associated Press)
CONSTANTINOPLE, April 4.—The Greek army, which has been operating against Eski-Shehr has been driven back behind the Brussa line following defeat by the Turkish nationalists. It is asserted here.

'TEN-MAN' REVOLT IS ENTIRELY WIPED OUT

(By Associated Press)
BROWNSVILLE, Texas, April 4.—Five Mexican followers of the Cardenas brothers' "ten man revolution" were captured by Rurales Saturday night near San Fernando, south of Matamoros, and were courtmartialled and executed Sunday morning. It is officially announced.

The entire band of revolutionists is now practically wiped out, the announcement said. General Augustine Cardenas, one of the brothers leading the movement, was captured and executed last week.

LEGISLATOR WHO VOTED WRONG GETS BEATING

(By Associated Press)
WARSAW, April 4.—Peasants of western Galicia have set a new fashion of using the cat-o-nine-tails to rebuke a legislator who failed to carry out the wishes of the voters of his district.

Michael Marck, a peasant member of the Polish diet, went home to Galicia recently to report progress of his work. A special meeting was called by his constituents to hear all that their leader had accomplished.

Incidentally, Marck informed those assembled that he had voted in favor of an upper house, or senate, for Poland's next diet, which virtually all peasants of the state opposed, considering it the future stronghold of social reactions.

HEART FAILURE KILLS ENGINEER

Last evening Thomas W. Albrightson, aged 55 years, an engineer at the West End, died at the Mine Operators' hospital of fatty degeneration of the heart. Deceased entered the hospital the day before his death. For several years Albrightson was employed as engineer at the North Star, but recently had worked at the West End in the same capacity. He was highly esteemed by his acquaintances and fellow workers. His only known relative is an aunt, living in Pennsylvania. No funeral arrangements have as yet been made.

VELOCITY REACHED 42 MILES AN HOUR

During the storm yesterday the wind velocity remained around 42 miles, doing considerable damage. Two large panes of glass on the fifth floor of the State Bank building, one in the Cook & Hatton office and the other in a vacant room, were blown in. The roof of Julius Johnson's residence near the Red Plume shaft was lifted clear of the building and was blown against an electric post, falling it to the ground and causing a break in the power line for a short time. Several small buildings throughout the town were blown over and several tar paper roofs were taken over to Goldfield on the wings of the stiff breeze. Autos coming in from the Divide could not navigate except during lulls of the wind. One auto was an hour and 20 minutes coming the six miles.

DICKERSON LOSES HIS PRISON JOB

The appointment of Professor Heber H. Votaw, brother-in-law of President Harding, as superintendent of federal prisons, was announced Saturday by the department of justice. He will take office April 6, succeeding D. S. Dickerson, former governor of Nevada, who has resigned.

DIVORCE FEES ORDERED PAID MRS. STILLMAN

(By Associated Press)
WHITE PLAINS, N. Y., April 4.—Justice Morischauser in supreme court today signed an order directing payment of alimony and counsel fees in the divorce proceedings brought by James A. Stillman, New York banker, against Mrs. Anne U. Stillman, he made within 30 days. Meanwhile, the referee hearings in the case must be stayed.

BOMBS ARE THROWN IN BELFAST FIRST TIME

(By Associated Press)
BELFAST, Ireland, April 4.—Belfast this morning had its first experience of bomb throwing when two bombs were hurled at men who were guarding the Ulster club, at which place General Bainbridge, commander of the troops in Ulster, is a frequent visitor.

Only one of the bombs exploded, however, and this caused neither damage nor casualties. The bomb throwers escaped.

MAY YET SAVE SIGHT OF MISS GALLAGHER

Word comes from Jerome, Arizona, stating that the physicians attending Miss Lucille Gallagher, the Ferington girl who was attacked by an engaged woman in a Jerome cafe on Thursday morning using as her weapon a tumblerful of carbolic acid, say there is every probability now that her sight will be spared. Miss Gallagher apparently is suffering more from burns on her face, neck and chest than from injury to her eyes. Miss Elsie Humphreys, the Reno girl who is with her, is the only person except physicians and hospital attendants permitted to visit her. Miss Gallagher's mother was expected to reach Jerome from Yerington Sunday.

Public indignation continues to run high in that community, and unless it abates, Mrs. Hopkins will not be taken to Jerome for her arraignment, officials say. She is in the Yavapai county jail at Prescott and has evinced a desire to talk about her alleged troubles with her husband, of whom she is insanely jealous.

J. M. Ellis, formerly master mechanic at the MacNamara, but now holding a similar position at the Green Monster Mining company at Jerome, writes the Bonanza that excitement is at fever heat in that city over the cowardly attack upon Miss Gallagher. The Nevada boys were getting together to see that Mrs. Hopkins is given just punishment for her unwarranted crime. The women of Jerome gathered in crowds and freely talked of hanging the Hopkins woman, who was secretly spirited out of the Jerome jail and taken to Prescott for safe keeping. The people of Jerome are clamoring for the life of the carbolic acid thrower and the authorities say she will not be returned to that place for her preliminary examination, as they could not safeguard her life on account of the women population crying "We will give her the noose." If Mrs. Hopkins is returned to Jerome, a detachment of troops will have to guard the cowardly woman.

WEEKLY WEATHER FORECAST

Southern Rocky Mountain and Plateau Regions: Generally fair weather with seasonal temperatures. Pacific States: Generally fair weather except occasional rains along the north coast; normal temperature.

EXCHANGE NOTES ON AMERICA'S ATTITUDE

(By Associated Press)
WASHINGTON, D. C., April 4.—A formal statement of the attitude of the United States as to German reparations is contained in an exchange of communications with the German government officials, made public today by the state department. They are in the form of memoranda transmitted through Loring Drosel, American commissioner at Berlin.

The memorandum was in reply to a communication handed Drosel recently by a German government official in which a frank admission was made that Germany will pay, but hoped for a reopening of the question of terms. In the American reply it was made clear the United States intends to stand by the allied governments in favor of a just reparation. The state department emphasized that the communications were exchanged before the arrival in this country of M. Viviani, as special French envoy.

"This government," the Hughes memorandum said, "believes it recognizes in the memorandum of Dr. Simons a sincere desire on the part of the German government to reopen negotiations with the allies on a new basis and hopes that such negotiations, once resumed, may lead to a prompt settlement which will, at the same time, satisfy the just claims of the allies and permit Germany hopefully to renew its productive activities."

TONOPAH HASHAD DUST BLIZZARD

Tonopah was visited by a dust storm yesterday afternoon that lasted for two hours. Objects a block distant were not discernible. The storm came from the northwest down the San Antonio valley at a 42 mile clip. It could be seen approaching while miles away, and as it neared the city the flying particles of dust obscured the sun and cast a pall over the city resembling the dusk of evening.

The storm filled residences with debris wafted from Carson where the gentle Washoe zephyr had deposited it. The housewives today are busy with broom and vacuum cleaner removing the real estate that the storm deposited at each residence.

The sandstorm of yesterday was the worst ever known in Tonopah, so remarked Pioneers Stone and Wood as they turned to rubber at a chicken crossing in front of Southworth's store at the corner of Brougher avenue and Main street.

BULLION SHIPPED

The Tonopah Extension Mining company shipped 31 bars of bullion and the West End Mining company sent out 29 bars on the same train.
