PRESIDENT TO TAKE UP SEAMEN'S ARGUMENT

(By Associated Press) WASHINGTON, D. C., April 30.—Representatives of the marine workers unions were told today at the White House that President Harding will take up with his cabinet officers the matter of mediation in the wage dispute with a view to preventing the threatened strike tomorrow on American ships on the Atlantic, Pacific and Gulf coasts.

The department of labor interested itself in the controversy early in the day, and it was understood that Secretary Wilson was prepared to ask that his department be authorized to use its good offices in the event the executive should fail to appoint a special panel of mediation.

Under agreement with the marine workers' representatives, Secretary Wilson urged President Harding to appoint a committee of three to mediate the dispute between the ship owners and workers in an effort to prevent the strike which has been called for tomorrow. The president assented to the plan.

The committee, under the plan approved by the union men, would report within 15 days, and in the mean time the workers would remain as at present. The committee would consider only those questions of wages and working conditions which were brought up at the conference here between the men, ship owners and Chairman Benson of the shipping board.

Wilson has gone to all government ship operators to make effect a 15 per cent wage reduction at midnight tonight, it is announced by the shipping board.

START SEARCH FOR TREASURE

(By Associated Press) WARSAW, April 30.—Treasure seekers are to begin work soon in an effort to recover a wealth of gold and silver reported to have been hidden from the enemy by French soldiers in a lake near Vilna during Napoleon's retreat from Russia in 1812. The task is to be undertaken by French and Polish engineers under supervision of the two governments.

A plan of the lake, marking the spot where the treasure was dropped into the water by the troops, has been recovered by the authorities. Estimates of the value of the gold and silver range from \$22,500,000 to \$30,000,000.

Many guns and flags and even carriages and other articles belonging to the emperor himself were slipped into the lake at the time, it is said, to prevent their falling into the hands of the pursuing Russians.

Initial plans to recover the treasure were interrupted by the beginning of the war in 1914.

ULTIMATUM WILL GIVE GERMANY MORE TIME

(By Associated Press) LONDON, April 30.—An ultimatum to Germany, giving her seven days from May 1 to comply with or refuse the allied reparations demands, is being advocated by British representatives to the allied conference here.

This proposal is opposed by the French and Belgians on the ground that it is unnecessary and that the Germans have had sufficient time.

Information has been received by the French delegation that unofficial American advisers at Berlin are urging members of the German cabinet to accept the allied terms agreed upon at Paris last January.

ACTIVITY IN EASTERN NYE INCREASING

Eastern Nye county is now getting more than its usual amount of prospecting. With gold coming back as a metal which will soon be profitable to the prospector because of the decreasing cost of supplies, with silver at the dollar mark, and with lead at 4.40 strong and no offer on future lead, the outlook for minerals which interests this section is very good.

When this condition exists every prospector who knows the hills of southern Nevada has something of interest that he has seen on some of his jaunts through that vast mineral empire. At present it would be difficult for one to visit a water hole in that section without finding a prospector's tent; or he may be hauling from the spring to his camp farther back into the country.

NEVADA MINING PROMOTER GIVEN DIVORCE DECREE

(By Associated Press) RENO, Nev., April 30.—A curious matrimonial tangle was revealed in Judge Linnford's court late Friday during the hearing of the divorce petition of Jacob Heerig, widely known under the name of George Graham Rice, stock promoter, who was granted a divorce from Thermautis Myrtle Heerig on the ground of desertion. Rice told the court they were both intoxicated at the time of their marriage in New York April 19, 1895, and indicated that neither was in a condition to appreciate the situation.

Subsequent marriage ceremonies were performed and Rice said he did not see his wife again until she was called as a witness in another divorce suit in which he was involved several years later. No marriage relation ever existed between them except the legal bond of the ceremony, he testified. When asked by the court what effort he had made to locate his wife in the action at bar, Rice said he had done everything but "fish in the ocean." He said her habits were such that she might be anywhere and when pressed for an explanation asserted she was a "dissolute woman."
