## EGGS HATCHED WITH A HOT WATER BOTTLE

(By Associated Press) CALIPATRIA, Cal., July 1. Twelve baby chicks peeped their way into the world here recently, the grateful sons and daughters of a red rubber "mother." The hen which undertook to rear the brood did so two days before the eggs were to have been hatched and Mrs. V. R. Smith, wife of the Calipatria farmer who owned the hens, resourcefully covered the eggs with the family hot water bottle.

## CANADA GOLD RUSH HAS PETERED OUT

(By Associated Press) EDMONTON, Alberta, July 1. The gold rush in the Peace River district has "petered out," according to word brought here by Inspector Hancock of the Alberta Provincial police at Peace River. The rush was strong and enthusiastic while it lasted, the inspector reported, but little gold was found.

Two big dances at the Airdome July 2d and 4th. Good music. J30-31.

## AMUSEMENTS

### KATHERINE MacDONALD AT THE BUTLER TODAY

A screen drama rich in tense situations in which the American beauty, Katherine MacDonald, is starred, is "My Lady's Latchkey," which will be the attraction at the Butler today. The story opens aboard the ocean liner "Monarch," Europe bound, where Ruthven Smith, the trusted international representative of a big diamond merchant, is guarding a rare collection of gems on their way to London, but is robbed of same. In London Annesley plays by Miss MacDonald, has grown tired of a drab five years' existence spent in a house of gloom with her aunt, Mrs. Ellsworth, and so just answered a newspaper advertisement calling for a traveling companion to an elderly lady.

While awaiting the advent of the "old lady" in the Hotel Savoy, he is accosted by a young man, who is ostensibly American, and in apparent trouble. He goes Annesley to see him in pretending to be his wife. She is astounded at this proposal but she agrees. The story moves swiftly to an exciting climax, so to say, but what about it would only wool of its own. Just come and see what happens in this thrilling picture of startling adventure. Added to the program a two-act comedy, "Faded Tom's Clubhouse."

Tomorrow Wanda Hawley in "The House That Jazz Built," and a two-act Mark Sommet comedy.

## PERSONAL

MISS FRANCES MERTEN of Manhattan left this morning for an extended visit to Reno.

WILLIAM McKNIGHT, the attorney, accompanied by his wife and son, returned by auto last evening from Lake Tahoe, where they have been enjoying the cool breezes for the past two weeks.

J. M. FENWICK, the broker, departed on today's train for San Francisco, where he goes on a business mission.

DE ANSELMO of the T. & G. railroad, general agent, was an outgoing passenger today for Marcelline, California.

RUDE KELLY, wife and daughter, left this afternoon for Carson, where they will attend the big picnic of July celebration at the capital city.

J. E. MULLER, deputy U. S. marshal, returned to Carson this morning.

MRS. RIGGS MALATESTA, who arrived from Beneta, California, accompanied by her little son and daughter of E. K. Simpson, general manager of the MacNamara Mining company. The children will make this their home today for San Francisco, where he goes to visit his family.

## SPEND FOURTH OF JULY AT BISHOP

This afternoon Harry C. Stimler and son, Gerald, accompanied by Miss Helene Speart and Miss Bernice Nay, left by auto for Bishop, where they will spend the Fourth. They expect to be gone a week.

Two big dances at the Airdome July 2d and 4th. Good music. J30-31.

The new 1921 designs in Wall Paper are right in tone and supreme in quality. The colorings are dainty enough to suit the most fastidious taste. Ask me to show you the most interesting and attractive line of papers on the market, as put up into a

Set of Five Large Sample Books by the HENRY BOSCH COMPANY Wall Paper Manufacturers. These distinguished patterns are designed to meet the demand for artistic decorations in the home. Color Schemes and Estimates cheerfully furnished on Papering, Painting, Varnishing, Kalsomining, Etc. A POSTAL CARD BRINGS SAMPLES TO YOU. JOS. DAVIDSON PAINTER AND DECORATOR

# SILVERHORN RAPIDLY IS ADVANCING UNDER ACTIVE DEVELOPMENT

By James F. O'Brien SILVERHORN, via Pioche, Nev., July 1.—A find was made last week by G. H. Johnson and his brother on the Los Angeles claim, a mile southeast of the Silver Horn mine, which has the camp guessing. Waddly poking in the loose dirt after finishing their noonday meal, one of the Johnsons found a placer gold nugget that is worth about \$250. Until it is determined whether it is a freak occurrence, like the find of native copper on the Jackson claim north of camp is believed to be, or a find that opens up big additional possibilities for Silverhorn, the miners here are inclined not to get excited or give it too much prominence. It is said that placer gold was washed out some years ago in a draw in the valley about four miles southeast of the Silver Horn mine, but the probability of making rich gold finds in this vicinity has never been emphasized.

The tunnel on the Nickel group of the Silver Horn Mining & Development company has advanced 30 feet. It is breaking into good-looking vein material but has no pay ore as yet. Much greater interest, however, is manifested in the strike made several weeks ago by Dan Foley in the southeastern section of the Silverhorn district and within two miles of the Bristol mine, which is developed to a depth of 1100 feet and is still profitably producing. Foley has opened up ore in several places along the vein and of five recent assays four showed values of from \$11 to \$58 per ton, he says, while the fifth returned values of 703 ounces silver, 65 per cent lead and 96 ounces gold to the ton, a total of nearly \$750 per ton. He is now running an adit tunnel along the vein which will give him some depth but his reports four feet of ore showing two feet of which he believes will pay to ship. Others in the neighborhood are finding good-looking stuff, but so far none have found ore equalling Foley's. C. E. O'Brien and T. K. Wiley have three claims adjoining Foley's on the north and hope to get the same grade of ore with further development. Erwin Riggs has four feet of ore but has had no assays.

New work has been started during the week on the Silver Carlsberg group which is located east of the Silver Horn, and it is believed this will develop into one of the big properties of the district.

On the Nevada Silver Horn work a being pushed on the No. 4 tunnel, which is being driven to get under the No. 6 workings, where there is a body of mill ore running about \$14 a ton. It is planned to soon install a compressor to expedite the driving of this tunnel. The shipping ore on the Smith No. 7 lease is now running about \$1000 per ton, but a second grade running about \$22 per ton is also being saved.

In trenching south of the T cut on the Silver Dale with the object of establishing the relation, if any, of the new find near the south boundary line to the main ore zone, ore in place has been found, but its significance has not been determined. In the north crosscut at the 50-foot level of the Huson shaft the ore at last reports was 10 feet wide and assays range from \$12 to \$30 per ton.

The tunnel on the Nickel group of the Silver Horn Mining & Development company has advanced 30 feet. It is breaking into good-looking vein material but has no pay ore as yet.

All light and power service in the Nevada district will be interrupted by a forced shut-down on the morning of July 4 for a period of from one to two hours, beginning at 8 a. m., in order to make necessary repairs to sub-station equipment.

THE NEVADA-CALIFORNIA POWER CO. J1-21.

## THE UNIQUE MINE WORKERS' MERCANTILE CO.

## VARIETY OF WEATHER HANDED OUT IN JUNE

There was an average of 89 per cent of sunshine during the month of June, according to the report of J. C. Pierce, observer of the local weather bureau. Heavy frosts occurred to the number of 17, with 16 killing frosts. The total precipitation for the month was 68 inches, the greatest rainfall being on the third and eleventh when a total of 93 inches fell. The highest temperature was recorded on the eleventh

when the thermometer registered 92, with the lowest at 32 on the sixteenth. The wind traveled 54.1 miles, the average velocity being 7.5 miles per hour with a maximum of 37 miles on the fifteenth. There were 15 clear days and 13 partly cloudy days during the month.

Two big dances at the Airdome July 2d and 4th. Good music. J30-31.
