## OIL WORKERS ARE CONSIDERING EXTENSION STRIKE

### WEALTHY WOMAN IS SHOT BY RELATIVE NEW YORK STREET

(By Associated Press)  
NEW YORK, Sept. 23.—A double shooting, in which several persons, including a wealthy woman, were wounded, occurred today in the streets of New York. The shooting, which took place in the vicinity of the late Alfred P. Hahn, a wealthy manufacturer, by Mrs. Grace Hahn, a distant relative of Mrs. Hahn and daughter of Mrs. M. E. Hahn, of San Francisco. Mrs. Hahn then committed suicide.

The shooting occurred in Brooklyn. Mrs. Hahn and Alfred Hahn, an exporter, emerged from an apartment house where they had been visiting a woman friend. Hahn admitted the shooting to jealousy, and admitted the police said that he had quarreled recently with Mrs. Hahn.

The police said the two women had been almost inseparable for four years. They expressed the belief, however, that Mrs. Hahn became jealous because of Mrs. Hahn's acceptance of social invitations from Hahn that her name became attached.

In an endeavor to determine whether Mrs. Hahn was a drug addict, the police showed interest in an incident preceding the shooting, described by a woman neighbor of Mrs. Hahn, who Mrs. Hahn was visiting. This woman was looking out of a window and said she saw Mrs. Hahn at a drug store, take a package from the counter and dash it into the street. Detectives found china fragments later by Mrs. Hahn's bag and also an empty drug vial.

### CHINESE FORCE STARTS FIRING ON PORTUGUESE

(By Associated Press)  
SINGAPORE, Sept. 23.—Warfare between the forces of the Chinese southern government and the Portuguese at Macao, a port and district of Portugal, 35 miles west of Hongkong. The controversy is of long standing, growing out of Portuguese efforts to retain land along the waterfront, and culminated in firing on a Portuguese police launch by Chinese soldiers. The Portuguese force at Macao numbers 800. The Chinese have 5000 troops near the city.

### HUNGARY MUST GIVE AUSTRIA DISPUTED LAND

(By Associated Press)  
PARIS, Sept. 23.—Hungary must in the near future completely withdraw from Bessarabia and West Hungary, awarded by Austria by the treaty of Trianon, or be forcibly expelled by the allies, was notified today by the cabinet of ambassadors.

### SHIPMENTS ARE IN ORDER FROM CASH BOY MINE

There is a boom of activity at the workings of the Cash Boy Consolidated Mining company, and results of a highly satisfactory nature are being accomplished. On the 1645 level a streak of ore has been encountered that shows a width of from 2 to 4 feet, and returns from mill shipments give an average value of \$18 a ton. The vein has been explored by a drift that has a length of 90 feet, and still retains the same average values, with no diminishment in the size of the ore body, which is showing strong in the face.

Shipments of ore are confined wholly from development that is going forward with such pleasing results. Exploration work also is being centered on the 1750 level to pick up the ore shoot that is exposed on the northeast and southwest.

Along with other development that is being carried forward, experts are engaged in exploring and surveying ground relative to the contention between the Cash Boy Consolidated Mining company and the Tonopah Extension Mining company.

### SINN FEIN GOODS BEING BOYCOTTED

(By Associated Press)  
BELFAST, Ireland, Sept. 23.—Shopkeepers here have begun a boycott on goods from southern Ireland in reprisal for the Sinn Fein boycott on Ulster products.

LEAD HAS TAKEN ANOTHER ADVANCE

(By Associated Press)  
NEW YORK, Sept. 23.—The American Smelting & Refining company today advanced lead from 4.65 to 4.70 cents.

### TREATY TO BE APPROVED BY U. S. SENATE

(By Associated Press)  
WASHINGTON, D. C., Sept. 23.—A favorable report on the peace treaty between the United States, Germany, Austria and Hungary was ordered today by the senate foreign relations committee.

Senator Brandegee, in the fight against the treaty of Versailles, was the only member to vote against reporting the treaty. Before reporting the treaty the committee adopted a resolution requiring congress to pass an act for the appointment of an American representative on the allied commission by the president, with the advice and consent of the senate. Another resolution adopted by the committee provided that protection given the United States in its property interests should apply also to American nationals.

It was made known officially that Harding's administration would raise no objection to ratification of the treaty with Germany with the reservation providing there could be no American participation in foreign bodies provided under the Versailles agreement without expressed authorization of congress.

### MAN IS FOUND MURDERED IN A FREIGHT CAR

(By Associated Press)  
CHICAGO, Sept. 23.—Southern Pacific officials here have received a report from a freight train crew that the body of a supposedly murdered man was found in a box car which the crew picked up from a siding near Winona, Minn. The report said there was a hole in the car. There were bullet holes in the man's breast.

### BELCHER SHOWS HIGH GRADE IN TWO WORKINGS

The showing on the property of the Reorganized Belcher Divide Mining company is of a most encouraging nature, and it need give no surprise to learn at any time that something important has taken place. Mining from the 100 level in shaft No. 2, to connect with the rich ore shoot encountered on the west end of the property, is now in progress, and official reports show that splendid results are forthcoming. This raise is up 30 feet and the ledge has a width of from 4 to 5 feet, with well-defined walls. Values on ordinary samples are varying from \$9 to \$27 a ton.

Prospecting on surface shows the shoot referred to above as being about 150 feet in length, with assays values varying from \$70 to \$300. In prospecting on surface several tons of this ore was taken out in proving up this vein, and the same ratio of silver and gold is reported as being contained as is generally found in the ores of the Tonopah district.

The Reorganized Belcher Divide Mining company has carried forward development without interruption for the last several months, and during the labor troubles, covering a period of approximately four months, operations were continued under the contract system.

### SILVERTON BEGINS TO SHOW ACTIVITY

Silverton gives promise of becoming a busy place during the next few months. New enthusiasm is being manifested in mining circles over the possibilities of that section from a mining standpoint over the rich mineral discoveries that have been made on Ruby hill by the Treasure Hill Mines company, and as a result plans are now being formulated whereby development will shortly be started on several properties that make splendid showings from surface operations.

One of the important undertakings will be the driving of a crosscut tunnel to underlie the shaft workings on the Treasure Hill vein where such high-grade ore was recently encountered at the bottom of the 100-foot shaft, and as there is every reason to believe the ore shoots will be found to be persistent, stimulus is given to the situation in general with the result that several strong companies will shortly be at work in the district.

### JURY DISCHARGED IN RANKIN TRIAL

The jury in the case of Isaac B. Rankin, charged with violation of the state prohibition laws, which had been on trial since Monday morning, reported to Judge Averill this noon that they were hopelessly apart and that there was no prospect of an agreement being reached. Accordingly they were discharged at just one minute to 12 o'clock. It was not stated how the vote stood, the members maintaining secrecy. Whether the case will be retried is not known at this time, but pending disposition of the matter the defendant will be at liberty under his former bond.

Street rumors are to the effect that they stand 7 to 5 for acquittal.

### FORMER TONOPAHAN DIES AT COLFAX

John Morris Kelly, aged 19 years, a former resident of Tonopah, died last Tuesday night at Colfax, California. While living here he resided with his aunt, Mr. W. J. Sinclair. Deceased was the son of John M. Kelly, and was born in Butte, Montana, where the father was prominent in city and county affairs and in mining circles. He was a nephew of Mrs. W. J. Sinclair and Henry Kelly of Reno, Mrs. G. W. Strieder of Lovelock and James J. Kelly, chief of police of Yerington. Mr. Kelly attended St. Mary's college at Oakland, and while in his second year there about two years ago contracted the influenza from which he died. He did not recover. During his whole period of illness he had been attended by Mrs. W. J. Sinclair.

### FALLON BANKS MERGE ON OCTOBER FIRST

The consolidation of the Bank of Fallon and the Churchill County Bank will become effective on October 1, according to George Wingfield, who was instrumental in bringing about the consolidation after purchasing the majority of stock in the Bank of Fallon. A meeting of the board of directors will be held next Monday. The consolidated bank will occupy the banking rooms now occupied by the Churchill County Bank, while part of the fixtures in the other bank will be moved to Virginia City, where Mr. Wingfield has made arrangements to start a new bank shortly.

## TONOPAH MINING IS BREAKING RECORDS UNDERGROUND WORK

The report of the Tonopah Mining company, governing development operations for the week ending September 19, shows that there has been great activity at the Mizpah, Silver Top and Sand Grass shafts. The underground work that was performed totaled 208 feet, which has established a new record at that property.

The Desert mill has been operated steadily at Millers and 1250 tons of ore were sent to that plant from the three shafts. A shipment of bullion, consisting of 28 bars, was sent out Wednesday, which is in keeping with the production of previous to the walkout of miners on April 16 last.

The greatest tonnage of ore mined during the week came from the Mizpah shaft, with 890 tons, while the Silver Top was second with 300 tons. From the Sand Grass 150 tons were produced.

The report submitted by H. A. Johnson, mine and mill superintendent, follows:

**Silver Top Shaft.**  
"Drift 109, intermediate east, drifting on high-grade stringer making mill ore. Drift 105 east, drifting on 1 foot mill ore. Crosscut 102, no change to report. Raise 124 north holed to surface. Raise 5022 started from drift 560 to prospect block of ground above the 500 level. A large tonnage is being broken above the 100 level. Stope 490 on South Dip-

**Mizpah Shaft.**  
"Crosscut 242 started to reach a point where a raise can be driven to prospect west of stope 275 on the Mizpah Fault vein. Raise 250 intermediate began run out of raise 250 to cut Mizpah Fault vein west of stope 255. No change to report in raise 349. Drift 463 west made the usual footage with no change to report. Drift 563 intermediate, drifting on low-grade ore in footwall of Mizpah vein. Drift 565 intermediate, drifting on mill ore in footwall of Mizpah vein. Drift 615, usual footage with no change to report. Stope 275 on the Mizpah Fault vein shows 2 feet of mill ore. Stopes 217, 417, 517, large tonnage mill ore. Stope 497, 2 feet of mill ore. Total development 155.5 feet. Tonnage shipped, 800 tons.

**Sand Grass Shaft.**  
"Raise 1167, 1 foot of good ore. Drift 1161 is following low-grade quartz. Stope 1010 has 2 feet of mill ore. Stope 1161 has 3 feet of mill ore. Development 32 feet. Tonnage shipped, 150 tons.

"Total development all shafts, 308 feet. Total tonnage 1250 tons. The mill operated normally. Clean-up for first half of September was 28 bars."

### PATROL WITHDRAWAL IS BEING CONSIDERED ADVICE OF OFFICER

(By Associated Press)  
MILWAUKEE, Wis., Sept. 23.—Lawrence of the striking oil workers from the fields of Kern county said that as a result of conference yesterday with Martin Madson, secretary to Governor Stephens, they are seriously considering withdrawing the patrol of the law and order militia "in case" of the workers from roads in the oil fields and putting up an oil fund to traffic caused by the strikers' activities.

Madson told the men they were withdrawing without lawful right, and he believed the patrol system was harming their cause.

A meeting of the district council of oil workers will be held today to consider extension of the strike to all California fields, and a telegram was received yesterday from the department of labor asking that any further strike orders be deferred pending the return from Washington of a representative of the department, who was called there from California to examine the strike situation. District officials said today they were confident the district council would agree to the government's request that strike orders be in effect now.

The striking of workers throughout the West, former chairman of the oil producers' committee, asking him to see whether the strike could not be brought to an end and "peace" without costing the workmen a cent, or that the organization of a new union, with company representation at a workers' expense, offered at Madson and the arrival of an agreement to be used as a stopgap until a final settlement was reached by W. C. McKay, former attorney of the union and other committee of strikers.

Paul Wagner, manager of the Standard Oil company, who is a constant visitor to the oil fields, said he would be glad to see the strike ended, but he had no authority to make any proposition to the strikers.

### FRANCE STARTS INVESTIGATING BIG EXPLOSION

(By Associated Press)  
PARIS, Sept. 23.—French government chemists have begun an investigation in Oppau, Germany, to determine whether secret war stores or munitions were being clandestinely manufactured there, since a May issue dispatch to the Journal. Their inquiry has shown the explosion to have been due to spontaneous decomposition of the new product—nitrosulphate of ammonia—of which thousands were expected as a fertilizer agent.

### NORTH STAR IS MAKING STRONG SHOWING OF ORE

North Star development is progressing without interruption and results are most gratifying to the management. During the past week a car load shipment of 607 tons of ore was sent out from the mine, to the MacNamara mill that brought an average settlement of \$27.70 a ton.

Development is being prosecuted on the 700 level, the 1000 intermediate level and the 1050 level. In the latter workings good ore is being produced both from the raise and drift, and while the vein is small, the average value of the product is better than a mining grade.

The report of operations covering the period for the week ending Friday, September 23, is as follows:

"The Level Crosscut 702 was advanced 18 feet in trackway cutting stringers of quartz of low value.

"1000 Intermediate Level drift was advanced 15 feet along a vein of very rich ore. So far this vein continues small.

"1050 Level Extension of ore body from the raise and drift. Vein passes small but averages better than mining grade.

"One car of ore was shipped during the week to the MacNamara mill. This car, of 607 tons, ran \$27.70."

### BELMONT SHIPMENT TOTALS \$97,188.35

The Tonopah Belmont Development company sent out a shipment this morning consisting of 45 bars of bullion weighing 81,256 ounces and having an estimated value of \$97,188.35. This was the result of the clean-up of the big mill for the first 15 days of September, which makes the shipments for the half of August and the first half of September total \$192,188.35, which is a record not to be broken upon.

### BROTHER OF MERKLE COMING FROM EAST

No arrangements will be made concerning the disposition of the remains of Frank Merkle, aged 59 years, who died suddenly yesterday morning while seated in a chair in the Bank buffet, pending the arrival of a brother from Philadelphia. F. J. Cavanaugh received a message this noon in answer to a wire sent to Joseph Merkle at Philadelphia, which stated that Mathias Merkle was leaving for Tonopah and to hold the remains until his arrival. Deceased is supposed to have a daughter residing in Philadelphia, while from Sam Lutz it was learned today that his aged mother is still living in Germany.

**BUTLER THEATRE**  
MATT MOORE and GLADYS LESLIE  
—IN—  
"STRAIGHT IS THE WAY"  
A heart-stirring tale of a couple of crooks and a village that treated them square. A thousand thrills and a lot of comedy in city underworld and country lanes.

### PRELIMINARY OF ARBUCKLE HAS BEEN RESUMED

(By Associated Press)  
SAN FRANCISCO, Cal., Sept. 23.—The spotlight of testimony again was turned toward the tragedy of Virginia Rappe today to determine whether Arbutckle will be tried on a charge of murder. Arbutckle this afternoon will be brought from jail to police court for the continuation of his preliminary hearing. The sessions begin at 2 o'clock.

### ROYAL SHOE SHOP A LIVE WIRE PLACE

Attention of Bonanza readers is called to the advertisement of the Royal Shoe Shop, which appears in this issue of the paper. Arbutckle this afternoon will be brought from jail to police court for the continuation of his preliminary hearing. The sessions begin at 2 o'clock.
