TOWNSEND CHARGES SENATOR PITTMAN PLAYING POLITICS

The Democratic press of the state has had a great deal to say about a bill in the United States senate recently between Senators Pittman and Dobbie, but they have overlooked that part of the particular day's proceedings showing what happened immediately after Pittman made mention of a number of telegrams he had received relative to pending highway legislation.

The Congressional Record of date October 4 shows Senator Townsend of Michigan was recognized and spoke as follows: "Mr. President, if it would delay action on business before the senate, I would pay absolutely no attention to what the senator has said. Perhaps he, Pittman, ought to be compensated upon this auspicious opening of his campaign. I cannot possibly explain the reports which come to me from the press of his state and his speeches on the floor, on any other theory than that he is attempting to get political credit when he is entitled to none. I would not make reply if the senator had not so frequently injected into the Record statements which are not faithful to the facts."

"It is true that the Phipps bill, so called, which had special reference, and reference only, to the public-land states, was passed in February, near the end of the last congress, and will be pardoned if I say that it was not the senator from Nevada. Mr. Pittman—who first called the country's attention to this proposed legislation beneficial to the public-land states. I introduced that measure in a bill several years ago, and brought it to the attention of the senate. I have supported it ever since. It took form in the Phipps bill and was passed by the senate. The house did not act upon it in the last congress and it lost its place on the calendar last March 4."

"At the beginning of the extra session—this extra session—we took up that bill again, simply for the purpose of aiding the public-land states by granting them rights of apportionment which they did not have under the law as to existing appropriations. That bill passed the senate practically unanimously. It went over to the house, and the house

YANK EES GO DOWN TO DEFEAT BY SCORE 1-0

(By Associated Press) NEW YORK, Oct. 13.—The New York Giants attained the pinnacle of baseball honors for 1921 when they whitewashed the Yankees today by a score of 1 to 0 in the deciding game of the world's series. Neft pitched a shiftable ball and held the American leaguers helpless. Hoyt pitched for the Yankees, and his lack of control in the first inning, followed by an error by Peckinpaugh, resulted in the Giants' run.
