Entered as the second-class matter Official Paper for the County of Nye and the Town of Tonopah

LINCOLN DAY BANQUET IS AWAITED.

The Republicans of Nye county, as well as the state will pay tribute to the memory next Sunday night of Abraham Lincoln, America's greatest statesman, when a banquet will be given, and which will be attended by the leaders of that party.

Abraham Lincoln was a Republican of the old school and the policies that he advocated have been followed by the last of years as regarding the war which has been instrumental in keeping the Great Republic a united people.

The Lincoln Day banquet in Tonopah will be the opening gun of the coming campaign which will be waged throughout the state and will be held during the month of February. It will be a "rehearsal" meeting of Nye county Republicans whose sole aim and purpose is to bring about a change at the coming election in the management of state affairs as well as county management.

Liberty of action is essential if we are to secure the desired results. Animosity must be laid aside, personal feelings must be eliminated entirely and we must all work for one cause—the success of the present administration in national affairs. It becomes our solemn duty to elect to both houses of congress at the fall election men of the highest intellectual and moral standing, that they may support the President of the United States—Warren G. Harding—in his efforts to bring about a readjustment that will be satisfying to all classes of our people.

Nye county Republicans propose becoming a dominant factor in the future in the management of state affairs. They have witnessed southern Nevada being woefully neglected by state officials who seem to believe that there is only one section of the state which is entitled to consideration in the expenditure of money for the construction of roads, bridges and in making other improvements. Neither Nye county nor any other section of southern Nevada are inclined to be hoggish, but the voters and taxpayers are going to insist that Carson City and Reno shall not receive all the benefits that are to be derived from the tax money appropriated by the legislatures of the future. They are going to insist that every section of this state receive just and fair consideration, and will no longer sit idly by and allow the money that belongs here spent in wild extravagance by only improving conditions in the northern part of the state.

A change of management is sadly needed in county affairs, and the Republicans on Sunday night will lay the foundation that will bring about this change. The editor of this paper will insist that good and true men must be nominated for public office at the fall election. Men of brains, force and stability must be elected. No longer will the good people of this community permit of incompetents holding office, such as has been our lot during the past two years or more. This county must and shall be governed in a law-abiding manner, and favoritism must not be shown to any one particular class.

Republicans are invited to the Lincoln Day banquet, be they residents of Nye county or of the state. Those who are desirous of affiliating with the party in the future, or those who propose to vote the Republican ticket this fall, are urgently requested to be present at the banquet to be held next Sunday night.

PUBLIC SERVICE IS COMMENDABLE.

In the calling of able men to the public service exception should be taken to the advice given to the students of Georgetown university by Senator Walsh of Massachusetts, wherein he stated that young lawyers absolutely blight their careers by becoming mayors of their home cities and that nine out of 10 make a failure of life who enter a public career, and usually die in poverty.

"That idea has apparently been the dominating idea among certain Democrats, as members of that party who have been chosen to fill office reflect credit on themselves or on the intelligence of the voters who elected them," says the Republican Publicity association. "Fortunately there is a different standard among Republicans. To have served one's

city, state or country well is considered sufficient recompense even though such success has not been accompanied by financial magnificence. There is not a member of President Harding's cabinet who could not earn in private practice many times the financial return that he receives in federal office. The offer of \$150,000 a year to Postmaster General Hays to take command of the moving picture industry is a fair appraisal of the most worthless men at the head of affairs in Washington today.

In the senate and house there is scarcely a member of the judiciary who is not in some degree a lackey of public service. The salary of \$7,500 paid to some judges is a pittance compared with what they could earn elsewhere. Their ambition is to win the commendation of their constituents. Someone once said that gratitude is a part of great cultivation. It is won in public life only after unselfish efforts for the public welfare. A man in public life counts himself a success if he can hear the grateful expressions of those whom he has sought to represent."

LAVISH WITH MONEY.

The treasury department has issued official figures showing what it has cost to run the United States government from April 6, 1917—the date of its entrance into the world war—December 31, 1921. The figures show the cost of the government's operation during that time to be more than \$200,000,000,000. The figures show the United States government spent slightly in excess of \$24,000,000,000 to prosecute the war. All of this money was authorized and ordered expended by the Wilson administration. Under Democratic mismanagement and incompetency, it cost the government per soldier six times the amount to wage the war that it cost France and four times the amount per soldier that it cost Great Britain. In the 15 months we were in war under Democratic management it cost us \$2,000,000,000 more than it cost France during the entire four years and three months she was in war and two-thirds of the total war cost of Great Britain for four years and three months. It is to pay off those bills contracted by the Democratic administration that taxes are now being levied and must continue to be levied for many years to come. Economies of the Republican administration can not wipe out the debts incurred by the extravagance of the Democratic administration, or relieve the Republican congress of the necessity of enacting tax laws to raise revenue to pay off the debts contracted by the Wilson regime.

BOOST FOR COPPER.

Predictions are being made that with the coming of spring we will see western copper mines again booming. Copper mines will operate when demand for the red metal can take care of production, and not until then. As nations we control this demand to a large extent. We are the greatest producers of copper and we should be the greatest consumers of copper.

The day has arrived when we should consider building and construction from the standpoint of permanency. Instead of temporary "shacks" in cities and towns, we should begin the erection of more structures which will stand as a monument to this period of our country's history.

Copper lends itself to this class of construction. Copper in the home, copper water gutters, copper down spouts, copper screens, copper in office buildings and more copper and brass in automobile construction would mean an early resumption of western copper mining on which to a large extent depends our silver, zinc, lead and gold mining.

As western people we should all take a deeper interest in the problems of our mining industry which normally turns hundreds of millions of dollars over to workmen in wages.

We give the closest attention to all kinds of job printing. A trial order will make you a regular customer.

THEY BRIGHTEN THE HOURS SPENT WITHIN THE HOME

WITHIN the walls of a home cheerfulness and contentment are the most necessary conditions to help us bear the day's toil and spend the leisure hours in comfort. The cheerful greetings show no radiant departure from the negligence of yesterday's care. Still, delicate Japanese and Chinese crests and ribbons, jackets and coats in soft colors in which silks and wools join hands with ribbons and flowers to make the spring of garments. But the season strikes a new note by presenting us with negligees made of black crepe de chine with black fringe, or new patterns of crepe de chine as decorative features and nothing reflects this alikeness on some of the models. Others show small ribbon roses in any colors set at the bottom of panels.

Another negligee sent over by Paris is more cheerful and more pleasing. It is a slip-over made of rattice in rich colors and ornamented with applique flowers in silk or embroidered in lively colors. They are simply a strip of rattice, twice as long as the slip-

ROYSTON IS WITHOUT STAGE LINE SERVICE

There is no longer any stage line operating between Tonopah and Royston, the new mining camp situated 25 miles north of this town. Under an order issued February 4 by the public service commission of Nevada, favorable action was taken upon the request of Connors & Hallinan and

Shubert & Turner for a cancellation of their certificates of public convenience and necessity. Certificates in both positions were canceled. This leaves the new mining camp without service, and those desiring to visit that section, or who are operating losses or mines there, must either provide their own auto or find someone who is willing to carry them to and from the camp.

AFTER EVERY MEAL

WRIGLEY'S

WRIGLEY'S SPEARMINT THE PERFECT FLAVOR MINT LEAF FLAVOR

Satisfies the sweet tooth and aids appetite and digestion. Cleanses mouth and teeth. A great boon to smokers, relieving hot, dry mouth. Combines pleasure and benefit.

Don't miss the joy of the new WRIGLEY'S P-K—the sugar-coated peppermint tid bit!
