LORD READING TO BE CALLED BACK LONDON

(By Associated Press)
LONDON, Mar. 10.—The removal of Lord Reading as viceroy to India is believed in some quarters, will be the announcement to the public of the Indian government's decision. There is nothing tangible on which to base this belief, but it is not improbable as a sequel to the virtual dismissal of Edwin S. Montagu as secretary for India.

The Earl of Derby, former secretary of war, has been offered the secretaryship of India in succession of Edwin S. Montagu, who resigned yesterday, according to reports in parliamentary lobbies.

GUISTI HEARING IS SET FOR TOMORROW

The preliminary examination of Abraham Guisti, charged with shooting Frank Erick, whose name is said to be Molina, is scheduled to take place at 10 o'clock tomorrow morning, but it is probable that a postponement will have to be taken by reason of the fact that the wounded man is still confined in the county hospital.

Erick or Molina was shot in the right leg by Guisti on the night of January 21 at the former's place of business on lower Main street, because he refused to leave the premises after starting trouble. Previous to being shot he is said to have struck Guisti when the latter attempted to eject him.

YOSEMITE WILL KNOW NEWS OF OUTER WORLD

(By Associated Press)
YOSEMITE, Cal., Mar. 10.—Comprehensive wireless telephone and telegraph service is planned for Yosemite Valley, where conditions result from the valley being a "hole in the ground" work said by many wireless experts to be against successful operation of a radio station.

Yosemite's granite cliffs rise straight into the air for 3, 4 and 5,000 feet, yet a wireless station on the floor of the valley recently has been getting news reports, weather predictions, market quotations and plans of good music. Two of the giant trees on the valley floor serve as aerials.

Government authorities have put in a station which will be used to keep the valley in touch with the outside world when storms drive down the wires. The valley station also will talk with another station on Glacier Point, one of the park's show places, which is 3,254 feet above the floor.

LOCAL RELIEF IS ESSENTIAL AT THIS TIME

Drive Starts Saturday Morning With Cooked Food Sale at the T. & G. Market.

Plans for reestablishing a local relief fund are being perfected and it is expected that a great sum will come into the hands of the ladies which will be turned over to Mrs. J. J. McQuillan for use in the months to come. The drive will open Saturday morning with a cooked food sale at the T. & G. Market. Are you "hunger"? Wouldn't some home made soups, stews, etc. be good? Are you eating at the restaurant? Wouldn't a piece of cake "like mother used to bake" and your thoughts fly on the "big of your tongue back to the little old lady?" In remembrance of her buy a cake or a pie or some doughnuts.

In this camp there are a few old people, men and women living by themselves in self respect and independence. A few of them receive a stated amount every month from the county. Some of them have a bit of an income from some far-away child. In every case the little money they have is not proof against the added expenses of sickness or death. In the past Mrs. McQuillan "our Mother of Charity" has watched over them, sending to the old man a bit of meat, to the little old lady material for aprons or some such, another two warm suits of underwear to add to his scanty covering. When you look back to your own parents and measure their falling strength with their desire for independence isn't it a wonder to you to think that there is some one in this camp who will watch over the aged among us, and in the name of your parents will you not give to this fund?

Do not say to yourselves, "They ought to go to the county hospital, we support them there." In all these cases these elderly people are still able to care for themselves. Their independence is their dearest possession. They live cheaper than the county can care for them, holding on to their self respect, to warmth and comfort as long as possible. Should we deprive them of this? If not kinder to let Mrs. McQuillan watch over them as a daughter, adding to their comfort where she can by a few dollars spent on a friendly visit? There are not many, but the few need your kindly assistance given in such a way that it is robbed of its stigma of charity.

These are women in this town who are victims of bad men, cruel sons who abuse their mothers, husbands who spend on themselves money that should be used to keep their women warm and free from hunger, and these women are too proud to let the world know that they are abused by the men who ought to cherish them. Such women have a friend in Mrs. McQuillan. They come to her with their broken hearts knowing that she will respect their confidence and the little money that she gives them quietly, without any one's knowledge is sometimes all that stands between them and despair. If these women came to you you would open your heart to them and comfort them, but why should they come to you? Why not let them go to Mrs. McQuillan whom they know is always listening to such tales and therefore it is not so trying to tell. Let her be your agent. The money will go farther in her hands. Put your heart in a dollar and send it out on its mission.

TREATMENT OF CRIMINALS IS BY INTERMENT

(By Associated Press)
STOCKHOLM, Mar. 10.—Habitual criminals in Sweden would be "interred" until they are cured of their criminal tendencies, under a plan recommended by a special government committee.

The committee has been making an extensive study of the best means of protecting society from such undesirable as well as from epileptics and moral offenders.

It recommends the establishment of special institutions in which to keep habitual criminals until they are reformed to normal.

Many Swedish legal experts favor the committee's plan.

The head of the Swedish prison board has further recommended that effective means be taken to prevent all such undesirables from having children. He says this is in line with efforts which have been made in certain parts of the United States.

Chief inspectors of hospitals and homes for indigent have sponsored a bill in the Riksdag which provides that habitual "alcoholics" who have returned to drink after treatment in asylums for inebriates shall be sent to special workhouses for indefinite periods.

EGYPTIAN LEAGUE IS BEHIND BIG BOYCOTT

(By Associated Press)
CAIRO, Mar. 10.—One of the features of the movement to boycott British goods is the strong propaganda to that end which is being conducted by the Egyptian Women's League. It has resulted in attacks on a few English shops.

It is reported also that Mr. Snellman, editor of the leading British paper in Alexandria, has been compelled to give up his editorship due to his attitude in the present crisis.

(By Associated Press)
OXFORD, Eng., Mar. 10.—After 20 years of rowing, Oxford oarsmen have just reached the stage of using skidding seats in their boats.

The delay has been due to the fact that skirts have hitherto been the official rowing gear for women and those were liable to catch in the rollers of sliding seats.

Short skirts were proposed but quickly vetoed and a compromise has now been effected by adapting pleated serge bloomers as the official rowing dress.
