HUNGRY SOVIETS CONSUME SEEDS FOR PLANTING

Car of Corn Accompanies Every Shipment of Seed Grain to Offset Conditions.

(By Associated Press) MOSCOW, April 14.—(By Mail.)—Every four car loads of seed grain, chiefly wheat, sent to the famine districts of Russia, are accompanied by a carload of corn or other food to prevent the eating of the seeds by the hungry peasants.

In an interview published here just prior to his departure for the Genoa conference, Leonid Krassin, commissar for foreign trade, said the famine districts were supplied with seed grain not only from the United States, but also from the interior provinces of Russia, additional seeds being purchased in Poland, Saxony, the Baltic states, Rumania and Bulgaria.

Old King Winter Waked From Supposed Lethargy

Winter, did you say? Well, the old scout returned today for a brief visit among his Tonopah friends (7), but his visitation was not entirely welcome. The wind kept up a howl last night, and along about 11 o'clock this morning snow commenced to fall, and at the time of going to press the ground was pretty well covered with the beautiful, although it does not lie to a depth of over half an inch.

PERSONAL

JOHN G. KIRCHEN, general manager of the Tonopah Extension Mining company, will leave Friday morning for Pittsburgh, Pa.

E. B. STINSON, traveling agent of the traffic department of the Southern Pacific company, was an arrival from the north this morning.

HAROLD W. STOTESBURY, well known consulting engineer, was an arrival this morning in Tonopah. Mr. Stotesbury now maintains offices in Los Angeles.

CHARLES STEWART, father-in-law of Mrs. Oline Stewart, who has been visiting her for several weeks, will leave Thursday morning for his home at Bridgeport.

GEORGE MURPHY, former well known mining man of Tonopah, is reported as being dangerously ill in a San Francisco hospital. Mr. Murphy has been sick for quite a period, and a short time ago it was deemed advisable to remove a tooth. In extracting the molar his jaw was broken, since which time complications have arisen that made his condition extremely critical.

NOVELIST WILL SEEK COLOR IN WESTERN FIELD

Will Address Several State Universities in His Visit to Various Places.

IOWA CITY, May 9.—Hamlin Garland of New York, will revisit the middle west, from which he derived local color for a number of his novels, on the occasion of the fifteenth annual meeting of the Mississippi Valley Historical association here on May 11 and 12.

Recent reports from various railway centers showed little, if any, improvement in Russia's transportation, and there has been much speculation among the railway managers and experts as to how much of the seed grain would arrive in time for the spring planting.

Mr. Garland, while in this region, will address several state universities, and will be in and about Chicago, where at one time he made his home, for two weeks. The novelist's career is linked with this state by his graduation from Cedar Valley Seminary at Osage, Iowa.

"The Recognition of the Government of Porfirio Diaz" will be the subject treated by Professor Hackett of the University of Texas, Professor Shortridge of the University of Louisville will deal with the successful efforts to keep Kentucky in the union at the time of the war between the state, and with the historical importance of these efforts.

PROFESSORS RESIGN REQUEST STUDENTS

(By Associated Press) CONSTANTINOPLE, April 14.—(By Mail.)—Four professors have resigned from the university of Stamboul at the demand of the students, on the ground that they were "strangers to the sentiments of independence, nationality and sacred rights."

Riza Tewfik bey, professor of philosophy, who was one of the signers of the peace treaty at Sevres, also was requested to resign but did not do so.

The peace treaty of Sevres aroused the opposition of Turkish nationalists on the ground that it took away Turkish territory and resulted in placing the Sultan under the domination of the allies. It was recently revised at a conference in Paris but the revision has not been accepted or put into effect.

Walter Taggart Files an Action for Divorce

Walter Taggart, an employe of the Belmont mine, yesterday filed an action in the district court asking that he be given an absolute divorce from his wife as well as the custody of his son, 2½ years of age.

The filing of the divorce action was the result of a mixup that took place Sunday morning in which Charles Titus, alleged wrecker of his home, received a severe drubbing at the hands of the late husband. The encounter took place near McCullough avenue and Central street.

Mr. Taggart had left home, apparently for work, but hid under the old Mizpah grill building. Shortly thereafter Mrs. Taggart emerged from the family home and entered an auto driven by Titus. It was then that the husband proceeded to get busy, and when the smoke of battle had cleared away Titus was at the sheriff's office. Later he was taken to the justice court, and still later Taggart decided upon filing an action for divorce.

L. Austin, a painter and paper-hanger, is being sought by the authorities upon a charge of leaving a string of bad paper behind him; the aggregate amount of which is about \$700.

Among the people suffering losses through cashing paper were: The Union Drug store, J. C. Penney company and A. M. Hardy, the attorney. Among the names used were Mr. Hardy, E. J. Ramsey and W. L. McKinnon, son-in-law of Austin.

Austin is supposed to have left in a silver that he secured from Lee Hand, on which he still owed a balance.

SAMARA RETAINS LIVESTOCK FOR FARM PURPOSES

Despite Fact It Has Suffered From Famine People Working to Redeem Country.

(By Associated Press) SAMARA, Russia, April 12.—(By Mail.)—There is ample live stock in Samara province to work the fields and harvest the crop of 1922 despite the fact that it suffered most severely from the famine. The rugged, shaggy, little horses, great, groaning camels and slow moving oxen of the famine regions have withstood the winter's hunger as well or even better than the sturdy peasants.

In isolated spots totally lacking in food the live stock, as well as the people, have suffered tremendous mortality. Thousands of draft animals have fallen dead in the road while hauling precious food over the snows to the villages.

Others have been slaughtered for food, but by far the great proportion have gone through the winter, and now, with green pastures only a month or so off, are in fair shape for work. M. Ryazonoff, commissar for agriculture of Samara province, says there are still more than 200,000 head of workable live stock left, or 90 per cent of those available in 1921.

Peasants who have seen members of their own families and neighbors die of hunger have saved their camels, horses and oxen. Except in villages where starvation knew no bounds, they have not killed their beasts, even when they knew that a few pounds of horse flesh might mean a week's life to themselves.

Horses were more precious than humans. Without livestock no food could be brought from the railways and the seed for next year's crops would be useless in the box cars far from the fields.

Ragweed and other vegetation ordinarily considered of no food value, have been used for forage. The animals have been able to do only about half the work that a well fed beast would do. Most of them, particularly the camels, present a wretched appearance. These draft animals go on continuously as they lumber along the snow roads at a rate of three to four miles an hour, protesting over every bump or snow drift in the road.

Nevertheless, they drag loads of more than a ton 15 to 20 miles a day. The horses pull at least half of this load.

Even with the scarcity and dearth of forage, the peasants whom the correspondent encountered were not selling their live stock cheaply. Before the revolution, a good big work camel in Samara province could be bought for 40 or 50 rubles. This represented \$20 to \$25. The 30,000,000 to 50,000,000 rubles now asked for camels in this district represents only about half that amount when figured in gold but, compared with prices asked for other commodities, live stock is still held at a high figure.

EAST INDIAN RAIL STRIKE NOW ALARMS

(By Associated Press) CALCUTTA, April 2.—(By Mail.)—Some disorders have resulted from the strike of employes of the East Indian railway which began February 22 in consequence of a disagreement over wages.

The strikers at Anasol burned the temporary quarters occupied by the workers there and this started a fracas between the workers and the strikers many of whom were injured. Magistrates at Allahabad and Dhanbad have prohibited gatherings of more than 10 men because the strikers were holding mass meetings and intimidating the employes who wanted to work.

More than half the Calcutta suburban trains, which usually carried about 30,000 passengers each way daily, have been discontinued owing to the strike.

The secretary of the Indian labor association has called a conference of railway delegates to be held at Anasol to discuss terms of settlement which have been offered by the East Indian railway.

AMUSEMENTS

GRIPPING MYSTERY PICTURE AT BUTLER

"Nobody" is the tantalizing title of the Jewel Carmen attraction which will be shown at the Butler today. "Nobody" does the shooting which is the climax of the story, but "Nobody" is unaware of it. The story is laid in the realms of high society, but it contains an element of mystery so deep that it defies solution.

Not until the final scene can anyone in the audience be certain as to how it will end. One of the most gripping scenes shows Miss Carmen, as "Little Mrs. Smith," suffering from complete loss of memory. A wild party on a yacht in Florida waters, with cocktails and wines flowing freely, was responsible for her condition. While her husband was many miles away she fell into the clutches of a wealthy New Yorker, but her husband does not learn the truth about matters until it would spoil it if we told you any more, or what followed, but it is one of the most mystifying productions ever staged.

Added to the program, the latest Pathe Review. Tomorrow, Antonio Morino, in "Three Sevens," and a two-reel Sunshine comedy.

CULLINAN INSPECTS NEW REED DISTRICT

E. P. Cullinan, secretary-treasurer of the New Tonopah Dividend Mining company, accompanied by Louis Piesinger, left early this morning for the Reed district, five miles south of Golden Arrow, where they will probably remain until tomorrow night looking over the new mineral field. Mr. Cullinan has his eye on a property in that section and if it stands up to expectations it is probable that he may close a deal and inaugurate a campaign of development.

Judgment Rendered Favor of Wasco, Oregon, Bank

The jury in the case of the W. M. Barnett Bank of Wasco, Oregon, against M. J. Chlatovich, et al., doing business as the Pacific Land and Cattle company, returned a verdict Monday in favor of the plaintiff in the sum of \$4750. The case started in the district court of Esmeralda county at Goldfield on April 24, and was not concluded until last Saturday. Attorneys for the defendants gave notice of their intention to make application for a new trial. Plaintiff bank was represented by H. H. Atkinson, while the defendants were represented by I. S. Thompson, both Tonopah attorneys.

FRENCH CHAMBER COMPOSED GREAT WAR FIGHTERS

Over Half Members Served as Officers in Army and Are Hardly Middle Aged.

(By Associated Press) PARIS, April 20.—(By Mail.)—The debates in the chamber of deputies on the military service bill disclosed the fact that 350 of the 605 members of that body served as officers in the French army. Most of them have scarcely reached middle life and few were active in politics prior to 1914.

Observers predict that French politics for the next generation will be in the control of men with war records in very much the same manner as the American congress was after the Civil war.

General Viscount de Castelnau is the most notable soldier in parliament, but his influence is scarcely greater than that of Lieutenant Colonel Jean Fabry, who was Joffre's chief of staff on his visit to Washington in April, 1917.

Vicomte de Castelnau is better known as a general than as a deputy. De Castelnau was on the list of those whom Premier Clemenceau thought were entitled to be marshals of France. Clemenceau, it is said, finally decided, with great reluctance, to leave de Castelnau a general because he had appointed one Catholic, Poch, to be a marshal, and he did not like to name a second Catholic de Castelnau. The general is a devout churchman.

Besides Castelnau, there are 40 others in this republican chamber holding titles of nobility.

The Marquis de Dion, another deputy, is a manufacturer of automobiles. Baron Maurice de Rothschild is well known as an owner of race horses.

Two dukes in the house are Duc d'Audiffrey Pasquier, whose title goes back to 1750, and the Duc de Dalmatie, a descendant through the female line from Napoleon's marshal, Soult. Another Napoleonic name is recalled by Deputy Prince Joachim de Murat. Baron Albert d'Aubigny has specialized in aeronautics.

KNIGHTS OF COLUMBUS

Tonopah Council No. 1160, will conduct an initiation at the next meeting, Thursday night, when a full attendance is requested. By order of the Grand Knight, M9-21.

CALITROLEUM WELL HAS BEEN CEMENTED

Victor Brandt, who has been on the coast for the last several days, arrived home this morning. Mr. Brandt is one of the principal stockholders in the Calitroleum Oil company at Taft, and brings back the news that the cementing of the well at the 3400-foot point was completed on April 24, and that no trouble will now be experienced from the water pressure. The big drill will again start eating its way into the ground tomorrow, and it is expected that within a comparatively short distance the oil will be encountered. The drill has penetrated the oil sand already, and there is a strong pressure which is indicative that the long sought for goal is about to be reached.

There are quite a number of Tonopah people interested in the Calitroleum company who will be pleased to learn of the bright outlook for encountering oil in commercial quantities at an early date.
