RECOGNIZE US, SAYS ALBANIA TO UNCLE SAM

Wants Diplomatic Representative Sent to That Country to Assist Them

(By Associated Press) TIRANA, Albania, May 31.—(By Mail) "Recognize us," said Bey Zogu, Albania's minister of the interior to the Associated Press correspondent in a recent interview. "If America recognizes us, and sends a diplomatic representative to Albania, it will be the biggest boost Albania can have," he declared. "We are an ancient and proud race. We have traditions antedating the Christian era. We have suffered under the tyrant's heel. We have been oppressed by both Asiatic and European peoples. We have dreamed for centuries a dream of freedom. We are the most homogeneous race in the Balkans and long for the chance to determine our destiny by ourselves. America, whose pages of history gleam with glorious deeds in the cause of human liberty, should recognize Albania, for it is a country which has suffered long centuries of serfdom and now, born again as a nation, wants to retain the liberty so long withheld."

SEA LIONS HOLDING BIG MATING SEASON

(By Associated Press) SANTA CRUZ, June 17.—Several thousand sea lions are now holding their annual mating "convention" on San Miguel Island, near here. Loper seals, black seals, grey seals, even an Alaskan fur seal may be seen basking in the sunshine on the rocks, each bull with a harem of perhaps a dozen cows. Observers say that the killer whale sometimes hang around the rocks to steal the young pups and eat them, the whale sticking his head out of the water and knocking the pup into his open jaws. The seals assemble here each year the latter part of May and by July they have all disappeared.

SOVIETS START COINING SILVER REPLACE PAPER

Coins Resemble Money in Circulation Previous to That of the Late World War.

(By Associated Press) PETROGRAD, May 24.—(By Mail) "New silver money, which in time the soviet government hopes to put in circulation to replace, partly at least the paper ruble of today, is being coined in the Petrograd, the only existing plant of its kind in Russia. The mint began operating several months ago and to the present time it has manufactured 5,000,000 rubles in silver of denominations of 10, 15, 20, 50 copecks, and 1 ruble pieces. The coins contain 90 per cent silver and 10 per cent copper, and in general appearance are much the same as those in use before the war. Close inspection, however, shows that the soviet coat of arms has replaced the old imperial eagle. Another striking feature is the bolshavik motto "Proletarian of the world, united," on the reverse side. The new coins are sent to Moscow where they are held as part of the government reserve. When a sufficient quantity has been assembled the government contemplates using them as a form of guarantee for paper money to be issued in the future. Ultimately it is hoped to put them generally in circulation, and thus obviate the present necessity of calculating in billions and millions for the needs of every day life."

BIG MILEAGE OF PULLMANS WAS RECORDED

Amounted to More than Four and One-Half Round Trips to the Moon

(By Associated Press) CHICAGO, June 17.—The Pullman car mileage in 1921 averaged 4 1/2 round trips daily to the moon, which is 238,810 miles from the earth, according to a statistician of the Pullman company. The mileage averaged 4 1/2 trips to the sun, which is 92,500,000 miles distant, according to the statement.

The mileage reported for the year was 795,572,465 miles, which was declared equivalent to encircling the earth at the equator 88 times each day, or once every 16 minutes and 22 seconds. Each car was said to have averaged a yearly run of 118,374 miles, or approximately five trips around the globe. "Pullman passengers," the company reported, "traveled 11,294,406 miles in 1921, or a car ride of 107 miles for every man, woman and child in the United States. If a new born babe started this trip and traveled at the rate of 30 miles an hour without stopping, he would be 42,977 years old when the paper brushed him off. "The average daily mileage was 2,190,609 miles, or 91,275 miles an hour and 1,520 miles per minute. "Pullman cars carried 21,294,993 passengers, an average of 85,500 a day. Aged 71, Geers is the "fast driver on the Grand Circuit. He and hourly he also trains his own horses. "Pop" has virtually a new stable this year all but two being trotters. Familiar to Grand Circuit fans are his Sanardo, Peter June and Utah. Peter June, with a mark of 2:04 1/4, is his leading trotter. Geers declared he expects to be seen on the Grand Circuit at least ten more years. The arrival of his stable brings the total horses now at Randall up to 470. The stables of Walter Cox, Lou McDonald and several other prominent drivers are still to come. Many of the famous Grand Circuit reinsmen already are here, having arrived preceding the opening of the 1922 harness season which was ushered in in the greater Cleveland district with the meeting at the North Randall half-mile track June 5. DERBY CONTEST WILL ATTRACT LARGE CROWDS

Will Be Run at Latonia On Saturday, June 24 for Purse of Fifty Thousand Dollars

(By Associated Press) CINCINNATI, June 17.—A race that is expected to rival in importance and enthusiasm of the Kentucky Derby and the Preakness stakes will be run at Latonia Saturday, June 24. It will be known as the Kentucky special and the Kentucky Jockey club will hang up a purse of \$50,000. The equine aristocrats of America will compete for this rich prize. The race will be for three year olds, exclusively, and such horse will carry 126 pounds over the mile and one-quarter journey. The race is a special event, put on the Latonia racing program by General Manager Matt J. Winn, in order to insure the presence of the unbeaten Morvich at the Latonia meeting. After the victory of Morvich in the Kentucky Derby Colonel Wm. offered a purse of \$50,000 for Morvich to meet Pillory, the winner of the Preakness stake at Baltimore. R. T. Wilson, owner of Pillory, declined the offer, but Mr. Winn obtained the consent of Benjamin Block, owner of Morvich, to race him against any three year old. Winn then went to James Rowe, trainer of the Harry Payne Whitney stable and asked Rowe how he would like to run one or two of the Whitney horses against Morvich at Latonia for \$50,000. "Bring on Morvich," replied Rowe "I will be there and have something to run in the race." With this assurance Winn framed the conditions of the Kentucky Special, which permits any three-year-old to compete.

STEALS CLOCK WHILE COURT HOLDS TRIALS

Crook Was Unsuspected in Berlin as He Quietly Enters the Room and Takes Clock.

(By Associated Press) BERLIN, May 28.—(By Mail)—Thousands of law breakers have been given "time" at Berlin's central criminal court in Moabit, but recently an ingenious crook posing as a repairman actually was given the court's official clock, and during the conduct of a trial. The sitting was well under way when a man in working clothes entered the courtroom with a long ladder which he calmly placed under the huge, imposing timepiece on the wall. The judge, counsel, accused and spectators were astounded at such an unprecedented interruption. The president stopped the workman's ascent of his ladder long enough to inquire the meaning of his conduct. The visitor explained that he merely wanted to get the clock for repair and that it would only take a moment. The president objected, but consented when the man said he already had called six times and always found the court in session. The vacant space on the wall surprised the janitor later in the day, and his investigations revealed that the court had been robbed under its very eyes, in fact, with its permission.
