

JAPAN IS SURE LEAGUE NATIONS IS SUCCESSFUL

Confident Membership Will Achieve the Objects for Which it is Formed

TOKIO, Oct. 31.—That the league of nations, with the cooperation of these powers not yet included in its membership, will achieve the objects for which it was formed, is the belief of the Japanese government. In a statement to the press the foreign office said:

It is true that the league of nations leaves something to be desired in the degree of authority which it carries among the nations, but the fact that it is not a perfect institution was understood and realized by Japan at the beginning, and we entered it with the hope and trust that in the fulfillment of its service its members would derive experience and confidence and guidance work out its imperfections. From the Japanese point of view the greatest misfortune is the league's failure to enlist all of the powers great as well as small, in its membership, as was originally intended.

The league has, however, steadily developed since its organization, and its efforts for peace and international cooperation have already been rewarded with tangible material results. The promotion of accord and the work of benefiting humanity do not make such interesting reading as accounts of wars, famines and other disasters, therefore, the creditable work of the league is not so well known or so generally known as the works of the agencies of war and destruction. Nevertheless, the work of the league is on record and cannot be denied.

The primary objective of the league, which is peace and understanding among the nations, was not only furthered to an incalculably great extent by the Washington conference, but the members were stimulated and encouraged to proceed vigorously upon their labors. The league is now endeavoring to extend the scope of the naval treaty, signed at Washington, so that its members who were not signatory to the Washington agreements may share in their beneficial effects and enjoy the comfort of the security which these agreements provide.

The Japanese government believes that the third assembly of the league will produce at least as good results as the two previous assemblies. It is Japan's intention to continue, as earnestly as heretofore, to promote the cooperation and solidarity of the members of the league, with no hostile intent towards any nation that may be outside that body, but rather with the hope and desire that those outside will at least continue to accord in spirit with the league's aspirations. We are convinced that if the countries that are not members of the league will give their material support to the league's activities, some of the many laudible objectives cannot fail to be advanced and in some cases, even fully achieved."

SIMON LEAD IS NOW DISPOSING ZINC PRODUCT

Smelters Make Attractive Bid for Product With Heavy Tonnage Ready to Ship

The demand for zinc and advanced prices for the metal have enabled the Simon Silver Lead Mines company to make a highly profitable contract for its surplus products. P. A. Simon, president of the company, who recently visited the property, returned to New York but stopped off at Salt Lake City for a conference with smelter representatives and the matter is undoubtedly was closed while he was in the Mormon city.

About 1800 tons of zinc concentrates are piled up at the Simon Silver Lead mill which will be shipped as soon as the contract is signed and railroad rates become effective. The company has a small smelter at Harbor City, near Los Angeles, for the manufacture of zinc oxides, and sufficient of the zinc product of the mill will be reserved for this plant. Ore from the mine contains lead, zinc and silver. Lead concentrates are shipped to the United States smelter at Midvale, Utah.

The mill is idle at present and will not resume operations until the new three-compartment shaft is completed to the 550 level and station and ore pockets cut. The shaft now is down 300 feet and sinking and timbering is progressing at the rate of four feet per day.
