

GANS WINS ON FOUL

Goldfield, Nev., Sept. 3.—Battling Nelson deliberately fouled Joe Gans in the forty-second round of the best and longest fight seen anywhere in many years.

Siler's decision received almost unanimous support. The foul was so obvious that not even men who had bet on Nelson could say that it had not been committed.

Referee Siler stated to the Associated Press that while he would not say that the foul was intentional, that was no doubt it had been committed.

All Nelson would say was that Gans was tired out and quit. Gans in many ways put up a most remarkable battle.

The first fifteen rounds of the fight were very fast. After that the men slowed up and only at intervals was there a rally.

Although Gans was far ahead in points and most of the time looked like a sure winner, Nelson put up a wonderful fight on his side.

A CONVICT ESCAPES FROM PRISON

Yesterday afternoon George Mitchell, an inmate of the Nevada State Prison, walked away from the premises and has not been seen since.

Mitchell was sent from Humboldt county for robbing the United States mail and had three years yet to serve. He is a clever worker and would be taken for a banker rather than an escaped convict.

LABOR DAY IN RENO

Labor Day was a howling success in Reno so far as numbers were concerned, the crowd being so dense that progress on the streets was almost an impossibility.

The first dance of the camp will be held at Ramsey next Friday evening. Better go over; you will have the time of your life if you attend the party.

Miss Clara Woodbury departed last evening for an extended visit to Massachusetts. Mrs. Woodbury accompanied her to Reno, returning this morning.

H. B. Van Elten wife and children, Mrs. Danhauser and Miss Danhauser made a tour of the lake Sunday. They were detained in Truckee until afternoon by the irregular trains.

W. J. Langevin, wife and son were among the tourists around the Lake Sunday. They were on their way home after a vacation at Weber lake.

When it seemed another blow would put the boy out, the gong started him, although in several rounds he apparently had the advantage. He would hit Gans as they broke from a clinch and the colored boxer would hang on and wrestle.

Although Goldfield is a mining camp, it is seldom that a more orderly crowd ever attended a contest. There was no disturbance of any kind and no rough language used.

The attendance was about five thousand, although estimates place it at 6,000. The Goldfield Athletic Club's arrangements were perfect, and the fight could be seen from any point.

There was not a hitch of any kind in the progress of the arena. About 200 women were in attendance. The gate receipts are estimated at \$72,000.

YOUNG MAN ACCUSED OF THEFT

This afternoon a young man named Frank Cziz, was arrested at Lake View, suspected of stealing several articles of clothing from a fellow laborer on the section.

Take in the moving pictures at the opera house tonight. They are said to be the best ever seen.

BRILLIANT ELECTRIC STROKE

When the special train pulled into Carson City last evening and the crowd wended its way down street, nearly everybody stopped in front of Regans' Place and gazed in bewilderment at the electric sign, lately put in place.

Sure enough, there was method in the failure of some of the "glims." The Regan boys, quickly grasping the situation when the returns were in from the fight, cut out the first two letters and G A N S stood out in bold relief, paying a compliment to the winner and demonstrating that a clever man was at the helm at Regans'.

Table with 2 columns: Name and Value. Includes COMSTOCKS, TONOPAHS, and GOLDFIELDS.

Table with 2 columns: Name and Value. Includes GOLDFIELDS, BULLFROGS, and MAN ATTANS.

Miss Agnes Gibson of Reno is the guest of Miss Louise Sweeney.

SUICIDE BECAUSE OF DOMESTIC TROUBLES

SPARKS, Sept. 4.—H. H. Webb, a young man employed by the Humphrey Supply company, of Reno, formerly a resident of Sparks, where he worked for the Southern Pacific, shot himself through the head Sunday morning at the residence of Mrs. Emma Ford.

Webb came to Sparks at 8 o'clock in the morning and went to the Ford home, where he played with his child a few moments, kissed her good eye and stepped into the back yard. Leaning against a box, he placed his revolver against his temple and fired. Death followed immediately.

The recently burned district of Truckee, which was of considerable extent, is rapidly being rebuilt in better style than before.

Professor and Mrs. A. G. Leavitt of Gold Hill are visiting in Reno.

The films for the moving pictures of the Gans-Nelson fight gave out at the end of the thirty-eighth round and the finish had not been shown. This is a great disappointment to the Mills brothers, who had the privilege of taking the pictures, paying \$2500.

TRAVELED OVER CONTINENT; ROBBED IN RENO

Professor Miller, owner and manager of the Wonderland show that is to appear at the opera house tonight, has traveled many times over the continent, has been in many rough places and has always carried larger or smaller sums of money on his person; but not until he reached the thriving city of Reno did he have the distinction of having his pockets picked.

Saturday afternoon while mingling with the immense crowd that was in the riverside town that day, a clever thief abstracted \$165 from an inner pocket. When the loss was discovered by the professor it was too late to do anything about it, even if there had been the least chance to recover the money.

NEW STUNTS AT THE PARK THEATRE

At the Park Theatre tonight an especially attractive bill will be offered. The principal film will be the "Dream of a Race Track Fiend" and the others will be equally as good.

Froeman will give one of his wonderful performances on the slack wire and later will appear with Clark in an entirely new sketch. This team has made innumerable friends in this city and each man receives the highest praise from all who have seen him.

A new San Francisco song, prettier in every way than the first one, will be one of the features and for all this the same admission—10 and 15 cents will be charged.

LEISURE HOUR CLUB

The informal session of the Leisure Hour Club will be held on Wednesday evening, Sept. 5, at Masonic hall. Those desiring to become members the ensuing year will remember that name sure to be balloted on at this meeting.

Among other notables that attended the fight at Goldfield yesterday were Teddy Roosevelt, Jr., and Nan Patterson. The latter attracted more attention from some quarters than the winner.

E. Kirkwood of Mono county is spending a few days in Carson City.

STRIKE IN GOLDFIELD IS SERIOUS

GOLDFIELD, Nev., Sept. 4.—The Goldfield Sun appeared on the streets yesterday and in spite of the threats of the Industrial Workers of the World there was no disturbance.

The mine owners and citizens have taken the matter in hand and a committee representing these two interests have notified the merchants that they are expected to advertise in the Sun in spite of the boycott declared by the union. If a merchant does not advertise in the paper, the committee has announced that it will take steps to compel them to.

The number of spectators at the fight in Goldfield yesterday aggregated 7,000, the receipts approximating \$78,000. This is the greatest amount of money in the history of the ring taken in for a prize fight.

Gans declares himself ready to fight Nelson again at any time.

Henry Rice and family returned this morning from Truckee.

Lichening has struck in several places in the California woods near Truckee and forest fires are the consequence.

SEE THE WONDERLAND PICTURES TONIGHT

A packed house greeted Professor A. D. Miller's electric wonderland and moving pictures at the McKissick Opera house last night. The pictures were excellent, in fact brilliantly thrown on the screen, and were of many subjects. The large audience present was very generous in applause. It was decidedly the most interesting performance of moving pictures ever seen in this city.

Professor Miller will be at the opera house this evening with those films and no one should miss the opportunity to witness them, for there are certainly the best ever shown.

CARSON CITY BOY INJURED

Charley Schulz was injured at Loyaltan, California, last week. He has been employed 1 mile mill at that place and while working slipped and fell into the machinery, receiving severe bruises which necessitated his removal to the hospital and being put under the care of two nurses. No bones were broken and the company surgeon hopes to have him out of the hospital in a few days.

WOOD ELKIN LEASE

During the week work was continued on the north crosscut on the Elkin lease on the Rafter, No. 2, the face of the drift is in such a position and indication are that a ledge is not far off.—Recorder

Eight hundred tickets were sold at the V. & T. ticket office for the two days of hilarity at Reno.

The local train this afternoon was crowded with the last remnants of the people who celebrated circus and labor day at Reno, six coaches being attached to the regular train.

Don't fail to register. Three more days only.

Jack Lester of Silver City is a visitor today.

SCHOOL BELL SOUNDS

The welcome sound of the school bell was heard again this morning—that is, a welcome sound to the mothers who have wrestled with restless boys and girls during the vacation—and it was a pleasure to behold the rosy-cheeked lasses and sturdy lads filing along on their way to the halls of learning.

The term opens with an enrollment of 170 pupils and this number will be increased to fully three hundred before the first of the year. Professor Templeton, himself, will add six names to the roll as soon as he can find a suitable house for his family, his oldest son having entered Stanford University, will not be here.

They will be forty-four pupils in the High School and these will be under the supervision of Professor Templeton, Principal; Prof. G. W. Birsney, vice-principal; Miss Helen Chang, teacher of English and Mrs. E. W. Horine, who will have charge of Latin and paravia work.

The other grades will be arranged as follows: First grade, Miss Bryant; second grade, Miss Swift, third, Miss Culp, fourth and lower fifth, Miss Lewis, upper fifth and lower sixth, Miss Horick, lower sixth and upper seventh, Miss Anna Schulz, lower seventh and upper eighth, Miss Eva Stone. Miss Stone will also have charge of music in all grades from the fifth up to the high school.

Promotions will be made as rapidly as a child demonstrates his or her ability to progress. This will stimulate the pupils who have been slow in the past and recompense the ones who have been faithful and studious.

The term starts out with the brightest outlook, the teaches all expressing themselves as prepossessed in favor of the new principal and willing to do their part in the future as they have always done in the past, ably and well.

M. and Mrs. George McLaughlin, formerly of this city, passed through Truckee last night on their way back to their home in San Francisco.

A UNPRECEDENTED DEMAND FOR LUMBER

The various industries at Hobart Mills under the management of the Sierra Wood and Lumber Company are rushed to their full capacity. Orders for lumber, sashes, and doors are pouring in every day and labor is scarce.

The work turned out by the sash and door factory is very fine and one can procure any design he wishes, no matter how elaborate or intricate.

ORE IN RAMSEY COMSTOCK

There is no doubt that the Ramsey Comstock mine will be one of the richest in the west. On the surface stands the big dyke that has made the mine famous. Under the dyke the shaft has reached a depth of 40 feet and the north wall is in ore. The width of the ore body has not been determined. It is part of the big dyke in its downward continuation. About one foot of ore has been secured off in staking and all of it shows good values, with some showing values exceeding those on the surface croppings.

It has not been decided when a procession will be started, but it will not be delayed for any length of time. The procession will cut the dyke at a depth of 20 or 30 feet and if the surface veins are found at that depth, Ramsey Comstock will be a mine that in itself would be sufficient to support a large city.

During the week the blacksmith shop has been completed and work is in progress on the office building at the mine. A number of men have been engaged grading roads leading to the property.
