

THE STATE UNIVERSITY.

A correspondent to the Eureka Sentinel, writing from Elko, gives the following sketch of the State University, located at that place: This institution, which for several sessions was a prominent bone of contention in our Legislative halls between the members of the Great East and Little West, is flourishing as well as could be expected, considering its remoteness from the earth's grand literary, social and geographical center—Carson City. The building, a handsome brick edifice, two stories high, is one of the principal features of the town, and, next to the resident ladies, commands the highest share of admiration from architectural connoisseurs. It is situated on a slight elevation in the northeastern portion of the city. The grounds, comprising 21 acres, are inclosed with a neat and substantial fence. They are elegantly situated for irrigating purposes, the ditch from the river which supplies the town with water, skirting their upper boundary. The attempt to convert the enclosure into an alfalfa lawn has only been partially successful, the seed taking root only in patches of greater or less extent. It is hoped, however, that further experiments will result in clothing the bare places also in similar verdure. The cultivation of trees has been attended to with decided success. Three hundred young poplars have been planted and over ninety per cent. of them have thrived and are flourishing finely, promising in a few years to transform the sagebrush forest into the most beautiful and stately park on the coast. The University has at present only about twenty pupils, all but four of whom are from this town and county. It has been the purpose of Professor Sessions, the Principal, to raise the standard of the University as a thoroughfare to the higher educational branches, rather than adding numerically to the roll, by conducting it after the manner of our public schools. He is a finished scholar, experienced in teaching, and amply competent to qualify his pupils for entrance either to the higher universities of the east, or, if they prefer remaining here, to conduct them himself through a fair collegiate course. The entire expense of pupils from abroad is only \$30 a month. This includes tuition, board, washing, etc. This is certainly cheaper than any institution of the same standard in California, and it appears strange that Nevadans prefer sending their children to another State, when we have within the boundaries of our own commonwealth a college certainly possessing equal merit, and superior advantages in the matter of economy. Under the present management the running expenses of the institution do not exceed \$4,000 per annum. This will leave from the biennial appropriation of \$12,000 a surplus of \$2,000 for necessary repairs.

An Eastern Journal speaking of the difficulties between Mexico and the United States says: The State Department compares Mexico to a paralytic, whose brain is clear enough, while his arms and legs refuse to execute the orders which it gives; in other words, it is admitted that Diaz is well disposed to the United States, but it is claimed that the local authorities are so inert or hostile that he cannot make them obey his commands. The State Department will do well, however, before prescribing for its patient, to be quite sure of the paralysis. Turkey, up to last May, was thought by Russia to be a Sick Man, and was treated accordingly; but the supposed Sick Man, rising from his couch, manifested such remarkably lively blood and muscles as to make the pill venter feel a great deal sicker than the patient.

A novel operation for consumption was lately performed upon Archibald Chatterton, at Campbellton, New Brunswick. His right lung was softened and broken down, with the exception of a small portion at the top. Dr. Balcom of that town, thinking that he probably could not recover, made a deep incision in the young man's chest at the lower end of the shoulder blade, and inserted a silver tube through which he drew out a large amount of matter. He afterwards washed out the cavity with disinfectants. The patient was immediately relieved, his strength and appetite increased, and he was soon able to leave his bed and walk about. His left lung being comparatively sound, strong hopes are entertained of his life for many years.

San Francisco, Oct. 30.—In accordance with the resolution come to at a meeting of the stockholders of the Swiss American Bank, held at Geneva, September 11th, the Directors of the San Francisco Agency state that it has been decided that the bank shall go into liquidation. They will suspend operations from the 31st of December. Till that date the bank will sell exchange on the principal cities of Europe, as hitherto. The Directors add that the Bank, having always operated with its own capital, and not that of others, the unfounded rumors recently circulated by unthinking or evil disposed persons are simply absurd.

Articles of jewelry have of late found their way to New York from India, of a rare and novel character. They consist of tiger's claws richly decorated with virgin gold. Two claws with the butts placed together, form a crescent, and serve for a brooch, while single claws are used for earrings.

PRESIDENT HAYES'S THANKSGIVING PROCLAMATION.

President Hayes's proclamation for a day of National Thanksgiving and praise is herewith presented: The completed circle of summer and winter, seed time and harvest, has brought us to the accustomed season at which religious people celebrate with praise and thanksgiving the enduring mercy of Almighty God. This devout and public confession of the constant dependence of man upon the Divine Father for all the good gifts of life and health, of peace and happiness, so early in our history made the habit of our people, finds in the survey of the past year new ground for its joyful and grateful manifestation in all the blessings which depend upon benignant seasons. This has indeed been a memorable year. Over the wide territory of our country, with all its diversity of soil and climate and products, the earth has yielded a bountiful return to the labor of the husbandman; the health of the people has been blighted by no prevalent or widespread disasters, and no great disasters of shipwreck upon our coasts or to our commerce on the seas have brought loss and hardship to our merchants and mariners and clouded the happiness of the community with sympathetic sorrow. In all that concerns our strength and peace and greatness as a nation, in all that touches the permanence and security of our government and the beneficial institutions on which it rests, on all that affects the character and dispositions of our people and tests of our capacity to enjoy and uphold an equal and free condition of society now permanent and universal throughout the land, the experience of last year is plainly marked by the protecting providence of God and is full of promise and hope for coming generations. Under a sense of these infinite obligations to the Great Ruler of times and seasons and events, let us humbly ascribe it to our own faults and frailties if in any degree that perfect concord and happiness, peace and justice which such mercies should diffuse through the hearts and lives of our people do not altogether, and always and everywhere prevail: let us, with one spirit and one voice, lift up praise and thanksgiving to God for His manifold goodness to our lands, his manifest care for the nation. Now, therefore, I, Rutherford B. Hayes, President of the United States, do appoint Thursday, the 29th day of November next, as a day of national thanksgiving and prayer, and I earnestly recommend that, withdrawing themselves from secular cares and labors, the people of the United States do meet together on that day in their respective places of worship, there to give thanks and praise to Almighty God for His mercies, and to devoutly beseech their continuance.

R. B. HAYES.

THE EBERHARDT AND AURORA.

We are in receipt of reliable information concerning the development in the Eberhardt and Aurora tunnel, in White Pine. The strike was made at a distance of 2,100 feet from the mouth of the tunnel. At latest accounts the whole face of the tunnel, which is 9x14 feet, was in good ore, assaying \$100 per ton. Great importance attaches to this discovery, as it establishes the depth and permanency of the mines of Treasure Hill beyond any reasonable doubt. We may now hope to see White Pine take on something of her former prosperity. The ores of that section are the richest and freest in the State, and the only question hitherto has been one of depth. The strike in the Eberhardt and Aurora tunnel settles that matter, and it is not improbable that hundreds of old White Piners will now hasten back to look after mines that have long remained idle. Our neighbors are greatly rejoiced at so important a development. The SENTINEL extends congratulations and expresses the hope that the old camp may again become what it was in 1868-9.—Eureka Sentinel, Oct. 28.

- The chairmen of committees appointed by Speaker Randall, are as follows: Elections—Harris, of Virginia. Ways and Means—Wood, of New York. Appropriations—Atkins, of Tennessee. Banking and Currency—Buckner, of Missouri. Pacific Railroads—Potter, of New York. Claims—Bright, of Tennessee. Commerce—Regan, of Texas. Public Lands—Morrison, of Illinois. Military Affairs—Banning, of Ohio. Militia—Miles Ross, of New Jersey. Naval affairs—Whitthorne, of Tennessee. Foreign Affairs—Sevann, of Maryland. Territories—Franklin, of Missouri. Revolutionary Pensions and War of 1812—Mackay of Pennsylvania. Invalid Pensions—Rice, of Ohio. Railways and Canals—Schleicher, of Texas. Post Offices and Post Roads—Waddell, of North Carolina. District of Columbia—Williams, of Michigan. Judiciary—Knott, of Tennessee. War Claims—Eden, of Illinois. Public Expenditures—Hatcher, of Missouri. Private Land Claims—Gunter, of Wisconsin. Manufactures—Wright, of Pennsylvania. Agriculture—Cutter, of New Jersey. Indian Affairs—Scales, of North Carolina.

Jules Grevy, M. Thiers's successor in political life, lives in a style of quiet but decided elegance. His reputation is great as a chess player. In this game and in shooting he finds his chief recreation.

LIBEL SUIT.

In the District Court yesterday the libel suit of Wm. Thompson vs. C. C. Powning was called. The entire day was consumed in trying to get a jury, but without success, and in the afternoon it was found that the case could not be tried, and it was ordered continued for the term, as the Italian murder case comes up to-day, and the Judge thought extra expense would be incurred on the county if it was postponed. The libel case at the close, had eleven jurors, with six peremptory challenges to be exercised, about thirty jurors having been examined. The defense were willing to complete the panel and adjourn the case till the 19th of November, but that time not being convenient for counsel for plaintiff, they wanted the case continued for the term and defense consented. The suit is for \$10,000 damages. Gen. R. M. Clarke and Boardman & Varian, attorneys for Thompson, and Judge J. F. Lewis and District Attorney Cain for defendant.—Reno Journal, Oct. 30.

Says an Eastern paper: Our composite population has had of late years a good variety of race representation in Congress—Irish, German, Negro, and so on; but rather strangely, it has hitherto lacked, except rarely among non-voting territorial delegates, race representatives at Washington for the large Mexican or Spanish-American population of southern California, Arizona, New Mexico, and western Texas. Mr. Pacheco of California who has just taken his seat in the House, adds this element; while, if the California Democrats should fix upon Judge Sepulveda of Los Angeles for the next Senatorship, the same element will be introduced for the first time into the upper branch of Congress.

When the Communists of Paris mobbed the residence of Thiers, they carried away his bronzes and curiosities, which were sold to dealers. The police subsequently seized, wherever they found them, articles bearing the private mark of Thiers, which he had caused to be engraved or stamped upon his articles of vertu. To his surprise, he found many ornaments brought to him bearing this mark, which he had never owned. The dealers had counterfeited the mark, and preferred to be robbed rather than confess the trick.

Indianapolis, Oct. 30.—The physicians express hope that some change may take place that will enable the stomach of Senator Morton to retain nourishment; and with such change they think he might yet survive. There is a bare possibility that such may be the result, but it is scarcely probable. The end of the great statesman, from all human appearances, is now near at hand.

DIED.

In Carson City, October 30th, 1877, John S. Logan, aged 28 years, a native of Lowell, Mass. The funeral will take place this afternoon at 2 o'clock, from the Methodist Church. Friends and acquaintances are invited to attend.

NEW ADVERTISEMENTS.
