A Successful Lecturer.

Never has a temperance lecturer been better received in Carson than the one given here on Wednesday last night by Miss Willard. It is to be regretted that the lecture was not better advertised, and that a larger building was not procured for the lecturer. However, the church was well filled, and those who heard Miss Willard enjoyed a genuine intellectual treat. The lady's manner is winning in the fullest sense. Her voice is sweet and pure, her enunciation as clear as the tinkle of a bell of perfect tone, her sentences are smoothly and grammatically sounded, and her manner is honest and convincing. Should Miss Willard conclude to favor us with another lecture, or repeat the one of last Wednesday night, she can easily fill with interested listeners Carson's largest building.

A Mysterious Affair.

At 2 o'clock yesterday morning while George Givevich, partner of George C. Bryson, was called to the yard in the rear of his saloon, he was fired upon by an unknown person. Givevich returned the fire, discharged his pistol three times at the would-be assassin without the desired result. Givevich says he cannot imagine an enemy who would wish to take his life. Nothing will be left undone to find out who the cowardly scoundrel is.

The performance of the Janauschek company on Wednesday next will be the best seen here for several years. The house should be well filled.

Janauschek as Mary Stuart.

Madam Janauschek opened a week's engagement at the Walker Opera House, Salt Lake City, on Monday evening last in Mary Stuart, to the largest audience ever assembled in a theater in Zion. The Tribune, which considers Janauschek the greatest of actresses of this age, says:

Madame Janauschek has been lavishly praised by the master critics of two continents. It is not becoming for the Tribune to say much more than that whatever of admiration or enthusiasm has followed her acting, has been but a faint acknowledgement of her artistic worth. She at once places an audience under obligations which they can never meet, applaud as they may. Her personation last night was throughout so lofty, so collected, never for a moment forgetting that she was indeed a Queen, bearing adversity like a Queen, and going to death with the studied dignity and calm courage of majesty, that we could easily understand how now and then when the world was young it was possible for a great spirit to impress upon the common herd of men in the belief in the divine right of royalty.

The leading was splendidly supported. Miss Ada Monk as Elizabeth was excellent. Mr. Stuart as Mortimer and Mr. Chaplin as Leicester were particularly good, and each one of the others deserves particular praise.

There is a general desire to see the tragedienne in Mary Stuart in Carson, and it is to be hoped that arrangements can be made by which we can have two performances, Mother and Son one night, and Mary Stuart the second night.

Dramatic Notes.

John Jack and C. B. Welles are of the company supporting John A. Stevens in the latter's new play, "Her Second Love."

Margaret Mather, under the management of J. B. Hill, has cleared during the season \$44,500.

J. H. Haverly has purchased an elegant residence on Chestnut street, Philadelphia. He contemplates building a fine theater in that city.

Helen Blythe is to be leading lady in Salmi Morse's new company organized to open the Twenty-Third Street Theater, New York City.

Eben Plympton recently refused an engagement because the manager would not agree to have his name printed in larger type than the rest of the cast.

Annie Pixley will probably visit this coast during her theatrical vacation.

During the Denver engagement of the Young Mrs. Winthrop company the leading lady, Carrie Turner, was seriously ill, and Sydney Cowell played the part of Constance with fine emotional power.

Lavinia Shannon late of the Maggie Mitchell party, is now supporting Janauschek, having joined her husband, Giles Shine, for the western engagement. Shine has succeeded Harry Hawk in the company.

Roland Reed, who made a bad failure in San Francisco, opens at the Fourteenth Street Theater, New York City, on the 28th instant.

Nick Long is now playing with the "Tourists."

The Chicago correspondent of the New York Mirror speaks in high praise of the company supporting Janauschek. He is particularly complimentary of George D. Chaplain.

Ladies' Meeting.

There was a meeting yesterday of leading ladies of Carson at the Presbyterian church, called by Miss Willard, for the purpose of organizing a Ladies' Christian Temperance Union. About twenty-five ladies were present, most of whom signed a call for the proposed organization. A committee of ten, to report on Thursday next, was selected, and this committee will choose officers, prepare a constitution and by-laws and make other necessary arrangements for the organization of the Union. The movement is in the interest of temperance, is in excellent hands, and it can not fail to be successful.

Capt. Matt. Canavan was in Carson yesterday, and went out to examine a mining property near this city, "the which" (we mean the mining property) is owned by Charley Brown, the Comstock undertaker.

The Reno Savings Bank Case.

The trial of Jas. H. Kinkead and L. L. Crockett was concluded at Reno on Wednesday last, and resulted in the acquittal of the gentlemen above named. According to the Journal Judge Rising gave the State the widest latitude in the prosecution, it being clear that the evidence did not warrant the conviction of Kinkead, all of whose acts in the bank matter were considered lawful. The Court held that the indictment against Crockett was not good. After stating the law of embezzlement and other propositions, Judge Rising said: It appears from the evidence in this case, that on the 23d day of June, 1880, at the time of the closing of the doors of the Reno Savings Bank, there was in said bank about \$24,000 in coin and securities. It also appears that on the 23d of June, 1880, James H. Kinkead, R. M. Clarke and L. L. Crockett were creditors of the bank. R. M. Clarke in a large amount, James H. Kinkead in the sum of \$11,505 in coin, and bonds to the amount of \$5,000; making in all \$16,505; that L. L. Crockett was a creditor in the sum of \$8,278. It further appears that there was drawn from said bank by Jas. H. Kinkead on the 23d of June, 1880, upon his check, \$12,787. Also that L. L. Crockett on the same day drew \$1,111 65. Further, to secure the said Crockett, Jas. H. Kinkead as Manager of the bank, endorsed or assigned to Crockett securities of the bank amounting to \$10,507, upon which had been endorsed previous to the assignment \$929, leaving a balance due upon the securities of \$9,578. So far as the acts of Jas. H. Kinkead are concerned (Crockett being out of the

case), as a matter of law he had a perfect right to pay Jas. H. Kinkead the \$12,787 specified—L. L. Crockett the \$1,111 75 specified: also to assign to Crockett the securities aforesaid; and, further, it is the opinion of the Court that the prosecution in this case so far as the evidence is concerned have failed to show any act on the part of the defendants that will warrant you in finding a conviction.

Bitter Bread.

Complaint is frequently made by those who use baking powders that they leave in bread, biscuit or cake raised by them a disagreeable, bitter taste. This taste follows the use of all impure baking powders, and is caused either by their containing alum (introduced to make a cheap article), by the impure and adulterated character of other ingredients used, or from the ignorance of their manufacturers of the proper methods of combining them. These baking powders leave in the bread a residuum formed of lime earth, alum, or other deleterious matters, not always, though frequently, tastable in the food, and by all physicians classed as injurious to health. The Royal Baking Powder is free from this serious defect. In its use no residuum is left, and the loaf raised by it is always sweet, light and wholesome, and noticeably free from that peculiar taste complained of. The reason of this is because it is composed of nothing but absolutely pure materials, scientifically combined in exactly the proportions of acid and akali to act upon and destroy each other, while producing the largest amount raising powder. We are justified in the assertion from the unqualified statements made by the Government chemists, who after thorough and exhaustive tests recommended the "Royal" for Governmental use because of its superiority over all others in purity, strength and wholesomeness. There is no danger of bitter bread or biscuit where it alone is used.

BUTLER TUBULAR IRON FENCE POSTS. IRON RANCH FENCE.

The Boss Ranch, Farm and Vineyard Fence is now in the Market. It is built with iron posts and barbed wire; the post being made of wrought and cast-iron. The top of the post is made of one-inch gas pipe and pierced with holes through which a plain wire is inserted, which fastens the barbed wire to the post. The post is cast with three flanges and is twenty-one inches long. The flanges render the post immovable when inserted in any soil. These posts are placed two rods apart, with an iron stay between, and there can be any number of wires and any kind of wire used. Three men can build one mile of fence per day on good ground. Fire cannot burn it, cyclones cannot move it, and floods cannot wash it away. I sell fence at \$1 per rod for three-wire fence, and \$1.25 for five-wire fence complete, and to agents at reduced rates, which enable a good live man to make from \$100 to \$500 a month on an investment of a small capital in territory, and any one wishing to purchase any County, State or Territory, can get a bargain by calling on or writing me of his desire.
