

MORNING APPEAL

THURSDAY, MAY 24, 1893

L. P. FISHER, Advertising Agent, 21 Merchants Exchange, is sole agent for the Morning Appeal in San Francisco

The "MORNING APPEAL" is the only paper in Carson publishing telegraphic dispatches and afternoon stock reports.

STOCKS.

The concentration of Comstock mining shares to which the APPEAL has repeatedly referred during the past two months has resulted in a boom. The insiders who absorbed stock knew just when the important work was to be inaugurated and therefore loaded up with stock in anticipation of an excitement.

The Stock Report says: Now the public are entering the market and gathering up all such loose stock as may be offering. The most significant feature of the market is its strength in spite of the fact that James G. Fair has just left for the East or Europe with the intention of being absent for several months or possibly longer. Until now the departure of Fair has invariably been followed by a break in the market or a long period of dullness. Now the market appears to be strong enough to stand up alone. Just before he left Fair told his acquaintances that the Comstock situation was not specially favorable and he took pains to bear the Central Comstock. As a matter of fact the "prospects" of the Comstock have improved materially and some of the oldest and most successful Comstockers think it worth their while to closely watch developments.

The APPEAL has it from reliable authority that Mackey and Flood have gone in with Jones and Sharon to make a market and count Fair out, as they have no confidence in him.

Con. Miller, a former resident of this place, is lying very sick at Sacramento.

Carson Opera House.

A large and appreciative audience last evening witnessed the performance of Miss Janet Tuckey's adaptation, in four acts, from the Swedish novel, "The Neighbors," by Frederika Bremer, entitled "Mother and Son." The play is one in which the love of a mother is brought out in strong, emotional effect. The younger son, when a mere youth, becomes accessory to a crime and suffers the penalty, while an elder son, who is the real criminal, escapes and hides his secret until near the hour of his death, when to relieve his conscience he confesses, and the innocent one is set at liberty. The mother, deeming that her boy had committed the crime, cursed him, and her anguish changed in a night her raven hair to gray. None but Madame Janauschek could so perfectly delineate the character of such a mother, and bring out the deep emotions of hatred and anguish, with the opposite contrast of love and forgiveness. She captivated her audience and held them spell-bound, and made her acting so real that in the affecting scenes tears were brought to the eyes of many. Her support was all that was required to help make the play perfect. This evening the company will present Mary Stuart. Every amusement lover who admires art, coupled with brains and genius, should not fail to see Janauschek in this, her greatest creation.

Delayed Mail.

The APPEAL has from time to time called attention to the delay of the mails at Reno, and the following petition is now being circulated: To the Second Assistant Postmaster General, Washington, D. C.: The undersigned, residents of Carson City, State of Nevada, beg leave to present for your consideration certain facts regarding the mail service in its connection with Reno and this city. The mail arrives at Reno from the East (Reno being distant from Carson City thirty-two miles, and connected therewith by rail) at 8:30 p. m., or thereabouts, and is detained at Reno until 7:15 a. m. the day following, certainly a delay of ten hours to us in the reception of our mail matter. We, therefore respectfully represent that this mail is not conveyed with "celerity and dispatch," causing thereby much inconvenience to our population of over three thousand. We ask, if it is in your power, that the proper remedy be applied through which we may obtain relief.

A Remarkable Couple.

A Carsonite who just returned from Death, Elko county, informs the APPEAL of a remarkable couple. They are James Payne Smith, postmaster of the place, and his wife Margaret, both 71 years of age, and they contemplate celebrating their golden wedding on the 31st of next August. They are said to enjoy very good health and are as happy as a newly married pair.

County Watchdog.

An observatory is in process of erection in the rear of the County Building, and a gangway will be built from the second floor to the observatory. No other use for the new building presents itself than to give Commissioner Jones a chance to look out for printing extortionists.—[Tribune.]

This is Queen Victoria's birthday, and during the lifetime of our late public spirited citizen George D. Friday, that anniversary was always gloriously celebrated in Carson by all subjects of her majesty, but since his death our British friends have permitted the day to pass unnoticed.

Many of our residents will remember a bootblack known as "Saxey," who was here off and on for several years blacking boots, and at odd times playing winning games at pool. Well this boy, it is stated, has recently erected a \$20,000 building in Denver.

The bonanza people are going to start up the Morgan mill at Empire. This property has been idle several years.

If Carson contemplates celebrating the Fourth of July, the citizens should begin to bestir themselves. Let's have a rousing celebration and invite Reno and Virginia to participate.

Jeff Work, an attache of the State Prison, was nearly doubled up with rheumatism when he came here several months ago, but has been completely cured by bathing in the prison springs.

As an evidence of the intelligence of the inmates of our State Prison an official quotes the fact that they read more history, biographies and scientific works than any other class of literature. Flash periodicals to them are contraband.

Quite a number Carsonites who have been putting their small savings into old stockings for the past two or three years, are now emptying the footwear for stock speculations.

BUTLER TUBULAR IRON FENCE POSTS. IRON RANCH FENCE.

The Boss Ranch, Farm and Vineyard Fence is now in the Market. It is built with iron posts and barbed wire; the post being made of wrought and cast-iron. The top of the post is made of one-inch gas pipe and pierced with holes through which a plain wire is inserted, which fastens the barbed wire to the post. The post is cast with three flanges and is twenty-one inches long. The flanges render the post immovable when inserted in any soil. These posts are placed two rods apart, with an iron stay between, and there can be any number of wires and any kind of wire used. Three men can build one mile of fence per day on good ground. Fire cannot burn it, cyclones cannot move it, and floods cannot wash it away.

I sell fence at \$1 per rod for three-wire fence, and \$1.25 for five-wire fence complete, and to agents at reduced rates, which enable a good live man to make from \$100 to \$500 a month on an investment of a small capital in territory, and any one wishing to purchase any County, State or Territory, can get a bargain by calling on or writing me of his desire.

This is the name of a new compound made for beautifying the skin, probably called so because one thousand women out of every one thousand and one use it. It can be found no where in the State of Nevada except at Foster's drug store, he being the sole agent for the sale of the compound. No woman who has ever tried it uses anything else. It removes freckles, and all blotches and discolorations of the skin by putting the pores in a healthy state.
