WANTED TO RENT—House in the
Northern part of the city. Inquire at
this office.

ALL SORTS.

—The Supreme Lodge K. of P.
will meet in Cincinnati in 1888.

—WANTED—A girl to do general
housework. Apply at this office.

—Two sewing machine agents
have lately been "held up" by foot-
pads in the Gabilan Mountains.

—A scheme is on foot to open up
a magnificent boulevard from Los-
Angeles to Santa Monica beach.

—Mr. Moriz Fisher, of the firm
of Fisher & Decker, has gone to
San Francisco for the benefit of
his health.

—While the license collector is
on the war-path he had better go
and make the private boarding
houses puzzle.

—D. M. Birdwell, a teamster,
was found dead from overheat by
the side of his team, near Phoenix,
A. T., a few days ago.

—R. O'Brien, publisher of a paper
at Manaimo, B. C., has been com-
mitted for trial on two charges of
criminal libel, preferred by R. Duns-
muir.

—The friends of Mr. and Mrs.
Henry Laneley will regret to learn
of the death, by drowning, at Aur-
oura, on Monday, of their little son
Harry.

—Lost.—Between the Arlington
Hotel and the Opera House, a
ladies' gold pin, sapphire stone, bug
setting. The finder will be re-
warded by leaving it at this office.

—The citizens of Washington,
Nevada county, Cal., notified A. G.
Hoffman and E. B. McPhetridge, of
Marysville to leave that vicinity
Monday. The people claim that
they were there as spies. The man-
date was obeyed.

—A lady writes: "I have used
Ayer's Sarsaparilla in my family
for many years, and could not keep
house without it. For the relief
of the pains consequent upon fe-
male weaknesses and irregularities,
I consider it without an equal."

—Not a particle of calomel or
any other deleterious substance en-
ters into the composition of Ayer's
Cathartic Pills. On the contrary,
they prove of special service to
those who have used calomel and
other mineral poisons as medicines,
and feel their injurious effects. In
such cases Ayer's Pills are invaluable.

—Eddie Wright, eleven years
old, the son of Rev. M. Wright of
Riverside, while in bathing at Long
Branch, Monday, straddled a log
lying in the water, when a breaker
flung the lad and log on the beach.
The lad was thrown underneath,
and his skull was crushed, death
followed immediately.

—The Omaha correspondent of
the New York World reports that
while the Government had been
furnished rations for 7,300 Indians
at the Pine Ridge Agency, a cen-
sus taken by the new agents shows
that the Indian population is only
4,500. A census had not been
taken for six years. This is the
Agency from which Mr. Mc-Gilli-
cuddy was removed.

—The fall of the snow arch in
the White mountains, which result-
ed in killing a young lad and in-
juring a girl shows extreme care-
lessness on the part of the proprie-
tors. It was their duty to see that
the arch was safe, as much as it
was to determine the good condi-
tion of the road to the summit of
Mount Washington. Daily in-
spection of the arch would be a
simple and inexpensive precaution
which would prevent any accident.

—Cholera, dysentery and diarrhea
come with the Summer imprudence
in fruit diet. Infection and sudden
checks of perspiration cause these
complaints. On the first symp-
tom take four or five Brand-
reth Pills and drink plentifully of
hot water, and you are safe. If
you wish to render the body a fort-
ress against disease, take one or
two Brandreth Pills every night
for ten days and thus remove from
the bowels all irritating substance
and purify the blood.

Meat.

A tough beef-steak and a stringy
and leathery piece of mutton has
disrupted many a family. Good
meat means good spirits, good tem-
per and good health. It is hard to
find good meat and then about as
hard to find some one to cook it
well. To get meat that you can
bet on, go to Meats & Leonard and
pick it out from the various as-
sortment that flanks you on every
side.

TREE-PLANTING AND RAIN.

Should Explain Why People
Should Plant Trees.

The Salt Lake Tribune gives an
interesting scientific explanation of
the connection between trees and
rain-fall.

The rainfall is steadily extend-
ing Westward from the Missouri
River. Good crops are being raised
now in Western Kansas and Ne-
braska, where a few years ago it
was believed the land was valueless
because of the absence of rains.
The change has been brought
by the cultivation of the soil and
by tree-planting. The work has
hardly begun, but the effect already
has been wonderful. Scientists ex-
plain that all air contains much
moisture; that in what we call dry
air the particles of water are so in-
finitely small that they are lighter
than the air and float upon it.
With the cultivation of the soil
and with tree-planting the air near
the surface is cooled. This has
the effect that the pressure of the
hand upon a wet sponge has,
and when enough of the particles
of water are pressed together they
become heavier than the air and
fall in dew, or when the same pro-
cess is continued in greater degree,
the result is a fall of rain. The in-
creasing rainfall in the West is the
drawing from the air of the mois-
ture which was formerly afloat in
particles so small that the air was
heavier than they, and there being
nothing in the form of cool air to
compress the sponge, no rainfall
followed. Every tree that a farmer
plants in Utah will bring a reward
in increased moisture. Had there
been a thousand acre grove in this
valley we should have had a heavy
rainfall a week ago and escaped
much of this terrible heat, for
thousands, and probably tens of
thousands of tons of water have
been taken up by evaporation from
Great Salt Lake during the four-
teen days, and have floated away
on the air because there was nothing
to stop the outward currents and
cool them until they met the
cooler currents in the canyons.
There have been heavy storms in
the adjacent mountains, because
the altitude brought the cool air
necessary to perform the mechani-
cal act of squeezing the great
sponge, but there has been nothing
in the valley, and so people are
sweltering under the heat, and vege-
tation has missed the needed
moisture.

Speaks for Itself.

Webster, of Reno, received from
Theo. Winters Monday morning
and is self explanatory:
SACRAMENTO, Cal., July 26, 1887.

WM. WEBSTER, ESQ., DEAR SIR:—
I regret very much to say
that my business has taken on a
shape that makes it utterly impos-
sible for me to accept the nomina-
tion for Governor, or make any
further attempt for it.

Please notify my friends as early
as possible of this decision, as it is
irrevocable.

Truly yours,

Dooney Harris Gives a Knife
Thrust.

SAN FRANCISCO, July 26.—Dooney
Harris yesterday stabbed Ed-
mund Brophy in the left side of
the throat, near the jugular vein,
the knife cutting the larynx. The
injured man was conveyed to the
Receiving Hospital, where Dr. Dennis
dressed the wound. Harris
was locked up in the city prison on
a charge of assault to murder.
Both men are ex-convicts. Harris
having only been released from
Folsom last week, after serving a
three years' sentence for burglary,
and Brophy having been sent up
more than once for robbing and
other crimes.

Address Cleveland.

UTICA, N. Y., July 27.—Mr. El-
der of the Chicago Literary Life
has gone to confer with Miss Cleve-
land. He speaks to the effect of the
embarrassment he encounters because
of Miss Cleveland's insisting on
largely restricting the adver-
tising patronage of the magazine.

He has been unable to get her
assent to his views by correspon-
dence and is making this visit "to
see if she will listen to reason when
she hears it. The fact is," he says,
"I am not publishing the magazine
exclusively for the editor's benefit."

Has Accepted.

LONDON, July 28.—This morn-
ing's News has authority for the
following statement: Lord Salis-
bury has proffered to Lord Church-
ill the position of leader of the
House of Commons, combined
with the office of Chancellor of the
Exchequer, a post which involves
less office work than any other in
the Government and has therefore
been habitually associated with
the position of leader. Churchill
has accepted the proposal.

Will Elect a New Senator.

SPECIAL TO THE APPEAL.]
SACRAMENTO, July 28.—At the
Republican caucus this afternoon
it was resolved to elect a U. S.
Senator to succeed Senator Hearst,
recently appointed by Governor
Stoneman to fill the unexpired
term of the late Senator Miller.

The Queen of the Turf.

NEW YORK, July 28.—A week
ago Maud S. trotted a quarter of a
mile in 31 1/2 seconds, a 2:06 gait.
Yesterday she made a quarter in
30 1/2 seconds, a 2:03 gait. Bonner
expects to lower her mile record of
2:08 1/2.

Appointed Prime Minister.

LONDON, July 28.—Salisbury,
while at Osborn, performed the
ceremony of kissing the hand of
the Queen, and was appointed her
Prime Minister.

Death of Charles F. Conant.

CAMBRIDGE, Mass., July 27.—
Charles F. Conant, Assistant
Secretary of the Treasury under
Bristow, died here last night.

bar and receive a suitable reward.

BRULE'S PROSPECT.

He Strikes a Rich Silver Ledge

Mr. N. Brule has recently made
a very promising strike about half
a mile East of the North Carson
mine. It is a silver ledge two feet
thick and well defined. It is be-
tween walls of quartz and slate
with two inches of clay between
the ledge and the slate. This was
struck by running a four foot tun-
nel into the hill.

The assays are as follows: No.
1, lead 12.5; silver, \$78.97. No. 2,
silver \$81.07.

This is certainly a good prospect
for a mine, and if the vein holds
out there may yet be a future for
the hill North of this city.

He located the mine for his young
son and he calls it The Boy. The
developments in the hill will be
watched with interest.

Reason it Out.

Suppose you are about to enter London, or some great
metropolis. You are a stranger going there to buy goods
for yourself or family. You will probably be reasoning in
this wise.

"I do not know where to buy. I am unacquainted with
any store. But I shall try and find the largest establish-
ment. For where the most people choose to buy, there the
general styles and assortments will be the most satisfactory
and prices the lowest. It must be so, or else such a concern
would not attract the largest trade. Still there is this diffi-
culty: I do not know the value of all I wish to buy. I
could be charged more for some things than other people,
who are better posted on prices. Therefore, I shall be care-
ful to ask if this largest establishment has a secret way of
marking prices, permitting salesmen to charge me as much
as they think I will pay, or whether its prices are put in
plain figures, insuring me as much for my money as gets
its most favored customers.

A parallel to the above is found in the fact that thousands
of people, all over the Pacific Coast, are now looking to the
large city merchants for their supplies, but do not know
where, or how to send.

Will not the same course of reasoning hold good in both
cases? If so, why not place your trade accordingly? DEAL
WITH THE LARGEST ESTABLISHMENT.

The stock of our house includes nearly a hundred different
lines of goods, and because its business methods have always
afforded protection to inexperienced, or absent buyers, this,
the eleventh year from the acorn, finds it a thriving oak of
vast proportions, its trade reaching into every town and ham-
let, from Montana to New Mexico.

What has thus grown to be a center of interest to so many
thousands of buyers may be of DIRECT INTEREST to you.

If you send your name and address we will mail FREE a
copy of our large Illustrated Catalogue. It gives full infor-
mation about goods, styles and prices, and how to order. It
is worth having as a book of reference, whether you choose to
order goods of us or not.

Anything, to be worn anywhere, by any one, in any station
in life, we keep. Goods not sent as ordered may be returned
at our expense. Address,
