Surface Indications

When a miner would very properly term "surface indications" of what is beneath, are the Pimples, Sores, Sore Eyes, Boils, and Cutaneous Eruptions with which people are annoyed in spring and early summer. The effluvia accumulated during the winter months, now makes its presence felt, through Nature's endeavors to expel it from the system. While it remains, it is a poison that festers in the blood and may develop into Scrofula. This condition causes derangement of the digestive and assimilatory organs, with a feeling of enervation, lassitude, and weariness—often lightly spoken of as "early spring fever." These are evidences that Nature is not able, unaided, to throw off the corrupt atoms which weaken the vital forces. To prevent this, Nature must be aided by a thorough blood-purifier, medicine; and nothing else is so efficacious

Ayer's Sarsaparilla,

which is sufficiently powerful to expel from the system even the taint of hereditary Scrofula.

The medical profession endorse AYER'S SARSAPARILLA, and many a restoration of the senses effected by it comes from the hands of the world. It is, in the language of the Hon. Francis Jewett, ex-Senator of Massachusetts and ex-Mayor of Lowell, "the only preparation that does real, lasting good."
