WHAT THE MINERS' UNION OWE TO HIM.

His Telling Support of Cummings for Sheriff.

To the Editor of the Enterprise—Sir: Since the nomination of C. C. Stevenson for Governor there has been much talk among the miners in this community with regard to him and his opponent, Governor Adams, and their respective attitudes towards the Miners' Union. I will not occupy space in a statement of Mr. Stevenson's career as a miner and employer of miners for the last twenty years in Storey county. It is a fact too well known to need repeating that he has individually employed more men and disbursed more money than any other person who ever operated on the Comstock.

But I desire to call attention to a matter which all miners who were here in 1868 must remember. There has been for some time a good deal of friction between the Miners' Union as an organization and the mine managers, and much jealousy existed between them. Senator Stewart was at the same time a candidate for election to a second term in the United States Senate. The members of the Miners' Union requested him to allow that organization to name the Republican candidate for Sheriff, and Mr. Stewart told them to do so, and he would do all he could to nominate and elect their man. William I. Cummings was the man designated by the Union. Mr. Stevenson was a delegate to the Convention from Gold Hill and a friend of Mr. Cummings, and took an active part in securing delegates favorable to him. He also placed him in nomination, and stated to the Convention that it was the desire of the miners that Mr. Cummings should be the Republican candidate for Sheriff.

After the nomination was made a combination of mine managers demanded of Mr. Stewart that the name of Mr. Cummings should be taken from the ticket, which Mr. Stewart peremptorily refused. This created a good deal of bitter feeling, and Mr. Stewart was informed that the mine managers would defeat Mr. Cummings at all hazards, and that it would endanger the Legislative ticket. Mr. Stewart told them whatever happened he would stand by the nominee for Sheriff at any sacrifice to himself. The Democratic Convention met a few days after the Republican, and Jewett W. Adams was selected on account of his relations with the mine managers at the time. He was engaged in hauling quartz from the mines to the mills, and dependent upon the mine managers for employment, and they undertook to elect him against the Republican nominee. A fierce contest ensued. Colonel Stevenson stood by his friend Mr. Cummings, throughout the entire contest, and rendered material aid in his election. Mr. Stewart kept his word, and his friends told me at the time that he expended more money for the election of Mr. Cummings than he did for the entire Legislative ticket in the State.

The result was that Cummings was elected and a precedent was established in Storey county which allowed the miners to name the candidate for Sheriff, which has been followed to the present time. This fight, in which Adams was defeated, not only taught him, but convinced the mine managers of Storey county, that it would not do to trifle with the Miners' Union. Is it fair for the miners to treat Mr. Adams as a friend and Colonel Stevenson as an enemy, when Stevenson acted so important a part in defeating Mr. Adams when he was a candidate in hostility to the Miners' Union, and taught him to respect that organization? The subsequent friendly conduct of Mr. Adams to the Union may be attributed to that defeat, for he then learned that his political ambition could only be gratified by the friendship of that organization. On the contrary, Colonel Stevenson befriended the Union from the beginning, and required no punishment from it to make him respect the rights of the miners.

A COMSTOCK MIXER.

Silver City, Nev., Oct. 7, 1886.

—The United Ireland describes Lord Randolph Churchill as "a little monster."

The Impression he Makes in Esmeralda.

The Walker Lake Bulletin has the following:

Ex Senator W. M. Stewart arrived last Thursday, according to announcement, and in the evening addressed one of the largest and most attentive audiences ever assembled in Esmeralda county. His masterly elucidation of the silver question is yet a subject of conversation, and "approval" is by no means a strong enough word to express the sentiments of those who heard him. Entirely master of the subject, with the gift of eloquence and the arts of rhetoric and logic, he made the audience feel and think with him as he unraveled the usually dull thread of statistics with which the silver question is entangled. Under his thoroughly able interpretation of the causes and effects in connection with the use of silver as money, the topic was not simply of economic or political interests but it became a matter of deep personal concern. He went abroad for facts, marshaled them in perfect order, united with them the irresistible array of theory and reality supplied at home, and presented a logical statement in glowing words which aroused an enthusiasm seldom felt over questions of political economy.

While showing the path of direct reasoning on general topics of political discussion he did not neglect the claims of candidates on our Republican State ticket. Had C. C. Stevenson been before unknown, to his listeners, his splendid effort in his behalf would have been sufficient to create an enthusiasm in his favor, which, no amount of Democratic hand shaking or smiling could efface. As he spoke his words seemed flashes from a soul on fire.

When he said: "All say he is a good man, an able man and will make the best Governor the State ever had; then"—here there was a slight pause; and as the speaker seemed to rise high as he prepared to finish the sentence, there was probably not two people in the assemblage who drawn by his eloquence into thorough communion, did not supply for themselves the words: "Why not elect him?" The impression produced was profound; and it can not be doubted that the able assistance of Mr. Stewart will assure the success of the entire State ticket and if he can visit every county there will be no question about the success of Republican County Tickets. It is such men as he who make the Republican party strong. With the intellect has an instant preception of right, courage to pursue, and the heart that gives warmth to pursuit, they keep the great party ever in advance. Always alert, they are never unprepared for new issues and by their active sympathy with the people, keep the Republican party constantly working, not for the greatest good for the greatest number, but for the greatest good for all.

The Races Next Week.

Denied a New Trial.

CHICAGO, Oct. 7th. —Judge Geary overruled the motion for a new trial in the cases of the eight Anarchists charged with the Haymarket massacre and confirmed the verdict of the jury that Spies, Parsons, Fielding, Schwab, Engel, Fisher and Linnig, should be hung, and that Niebe should be imprisoned for fourteen years in the State Penitentiary.

When baby was sick, we gave her Castoria. When she was a Child she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

The present State Fair has proven very successful.

The attendance has been larger; the exhibits of a high grade and the speed programme highly satisfactory. They do say however that the Carson sports have been rather badly let on the pool box. People who bet on horse races at State Fairs however, do it with their eyes open and shouldn't squeal. No one ever won any considerable amount on a horse race and no one ever will. Men cannot make a business of racing and training fast horses without some sort of fair compensation; the pool box affords it and a State Fair furnishes the necessary victims who illustrate the old saw that the "fool and his money are soon segregated." The display of thoroughbred cattle has been particularly fine and shows a growing and stable interest in the industry in this State which promises future wealth to Nevada.

On every side one hears unqualified praise of C. C. Stevenson in his zeal and activity in the management of the Fair and the expression is everywhere heard that these executive abilities can no where be better applied than at the head of the State Government.

ALL HORTS.

—Wizard Oil at Geo. Thaxter's.

—The latest rumor is that Secretary of War Endicott may, within the next sixty days, tender his resignation.

—H. S. Mason's team ran away yesterday running into Chedie's and breaking a wheel. Frank Collins' also ran away but there was no damage done.

—It is now stated that by the 15th of October the Statue of Liberty on Bedlow's Island will be completed, and that the inauguration will take place on the 28th.

—C. C. Stevenson devotes his time and money managing the State Fair which is a direct benefit to the whole State. Jewett Adams did not even have an exhibit.

—A peculiar virtue in Ayer's Sarsaparilla is that while it cleanses and purges the blood from all corruptions and impurities, and thereby roots out disease, it builds up and invigorates the whole system, and makes one young again.

—Many forget that the hair and scalp need cleansing as well as the hands and feet. Extensive use of Ayer's Hair Vigor has proven that it is the best cleansing agent for the hair—that it prevents as well as removes dandruff, cools and soothes the scalp, and stimulates the hair to renewed growth and beauty.
