

MOBING APPEAL

Official Paper of Ormsby County

Sunday, January 9 1887.

ALL SORTS.

—Wizard Oil at Geo. Thaxter's.
—Harry Armstrong, reporter for Bradstreet's Mercantile Agency, is in the city.

—The Democrats have held two caucuses and both times it was a tie, seven for Cassidy and seven for McMillan.

—W. M. Boardman and D. Allen, of Washoe, are mentioned for Regents of the University. Both are anti-Powinine men.

—Dies has dissolved partnership with Leonhard and will continue the business of selling juicy steaks at the old stand next the St. Charles.

—There will be a foot race at the Track today, for \$50; \$5 entrance; free for all. The following entries have been made: Musgrove, Butts, Donnelly, Ham, and the Unknown.

—Some say "Consumption can't be cured." Ayer's Cherry Pectoral, as proved by forty years' experience, will cure this disease when not already advanced beyond the reach of medical aid. Even then its use affords very great relief, and ensures refreshing sleep.

—No sufferer from any scrofulous disease, who will fairly try Ayer's Sarsaparilla, need despair of a cure. It will purge the blood of all impurities, thereby destroying the germs from which scrofula is developed, and infuse new life and vigor throughout the whole organization.

—A teacher in a San Francisco public school was informed by a lawyer at 2 P. M., that she was heir to \$200,000. He expected to hear her whoop, and to see her grab her bonnet and run, but instead of that she calmly replied: "I will hear the class in geography, lick three boys and be at your office in an hour."

—Senator Poujade has introduced an Act to encourage the construction of railways in Lincoln county. The bill provides for the issuance of county bonds to the extent of \$2,000 and will go to aid any road which will go through the county. If the road is not built in seven years the bonds are null and void. The bill is strongly favored by the citizens of Lincoln county which appears to be anxious to encourage instead of to retard railroad building in Nevada.

A Card of Thanks.

We desire to return our heartfelt thanks for the assistance rendered and sympathy shown us during the extended illness of our son "Ed," and in this, our hour of sorrow and trouble. Also for the many kind words spoken of our dear, departed boy, and we will cherish in memory every kind act and sympathizing word of the dear friends who were so willing and eager to do all in their power during his recent sickness, and to assist at the funeral of our beloved one.

M. A. AND M. J. MURPHY.

The Artistic Bootblack.

Carson at last has an artistic bootblack, Bob Christy, a man who has blacked boots under every flag on earth. Carson never saw such an artistic bootblack before. He holds out on Sweeny's corner and fingers over his work like an artist painting a Venus. You can tell a pair of boots shined by Christy as far as you can see them.

Today's Races.

There will be a trotting match between Carson and Reno horses today at the track for \$100, mile heat, best 3 in 5. There will be a large crowd there to see if Carson's luck still holds out. Sumner and Gregory will also shoot a pikeon match, 50 birds each, for \$100 a side. It will be an exciting day all round.

A Public Reception.

Senator Stewart and wife will hold a public reception at their residence, on next Thursday evening.

When the boys were out, we gave her a card.
When she was a child she cried for candy.
When she became Miss, she cried for candy.
When she was a child she cried for candy.
When she became Miss, she cried for candy.

STEWART'S ELECTION.

Opinions of California Papers.

The Oakland Tribune says: The Republicans of the Nevada Legislature held their caucus yesterday, and very wisely nominated Hon. William M. Stewart for the United States Senate. Mr. Stewart served Nevada two terms in the United States Senate, and took rank among the able men of that august body of Statesmen. He will be re-elected to that body on Tuesday next, and will take his place as one of the experienced legislators in Congress; and will be found in his seat at all times, an active representative of the Pacific Coast, looking after the interests of our people, and efficient in protecting those interests. The Pacific Coast will have in him a man alive to all that concerns its welfare, as one of the divisions of the Republic, and in conjunction with Senator Stanford and the Oregon Senators, it is hoped and expected that this coast will assume her right for position in the National Legislature, and the much needed legislation so long delayed will be accomplished, in part at least, for Senator Stewart is as energetic as he is able. The interests of California and Nevada are so intimately connected that what benefits one benefits both States. Nevada is simply a child of California; her people are mostly Californians, and Senator Stewart will be as much a representative of California as of Nevada. We congratulate not only Nevada, but California, in the choice made by the Republicans of the Silver State, and shall look for much good to both States by having a live and able man in the upper House of Congress to assist our own representatives in accomplishing the needed legislation for both Nevada and California.

The Grass Valley Union says: Hon. Wm. M. Stewart has been nominated by the Republican caucus of the Nevada Legislature for United States Senator. The vote was 44 in all of which Stewart received 34; Wren, 9, and C. C. Powning, 1. This is as it should be. Senator Stewart is the ablest representative now before the people on the silver coinage question; a question in which Nevada State is vitally interested.

The San Francisco Argonaut says:

Mr. Wm. M. Stewart, formerly a Senator of the United States from Nevada, has been chosen for another term from that State. The selection is a good one. None could have been better, and this gives to the weakest and less populous of the States the best and strongest Senatorial delegation in the Senate of the United States. There is no State in the Union that is represented by Senators more thoroughly equipped for their duties than are John P. Jones and William M. Stewart. There are none so strong in debate.

The election of Mr. George Hearst would contribute to the social representatives of our Coast a lady the equal of those in the highest social circle of our Nation's Capital—the equal in all respects. Then let us consider the position of Mrs. Leland Stanford, the ranking lady of our delegation and first in the character of her entertainments and the generous hospitalities of her home, the place occupied by the wives of our Nevada Senators, one of whom is a daughter of the Hon. Eugene Sullivan, and a native of San Francisco, and one, the accomplished wife of Senator Stewart, is the daughter of Governor Foote, of Mississippi. Of the wives of the Oregon Senators we must speak from other than personal knowledge; but if they are to be estimated by their daughters, who are the recognized ranking beauties of the Capital, we may be proud of the social standing of our Coast delegation in the Senate of the United States. This circle Mrs. Hearst would adorn. We have reason to be proud of the Pacific Coast delegation at Washington, and while we recognize the important work that is accomplished in Legislative halls, we do not underrate the influence of those allies of the gentle sex who bring up their social reserves in their own homes and around their own hearthstones.

Episcopal Church.

Full morning and evening service at the usual hours. Public invited.
GEO. R. DAVIS,
Rector.

DANGEROUS DRUGS.

How to Control Effectually All Such Horrible Habits.

Rochester, N. Y. Post-Express.

A gentleman who has spent the summer abroad, said to our reporter, that the thing that impressed him most of all was the number of holidays one encounters abroad and the little anxiety the people display in the conduct of business affairs. "Men boast here," he said, "that they work for years without a day off; in Europe that would be considered a crime."

Mr. H. H. Warner, who was present at the time, said, "This is the first summer in years that I have not spent on the water. Been too busy."

"Then, I suppose you have been advertising extensively?"
"Not at all. We have always heretofore closed our laboratory during July, August and September, but this summer we have kept it running day and night to supply the demand, which has been three times greater than ever before in our history at this season."

"How do you account for this?"
"The increase has come from the universal recognition of the excellence of our preparations. We have been nearly ten years before the public and the sales are constantly increasing while your newspaper advertising is constantly diminishing. Why, high scientific and medical authorities, now publicly concede that our Warner's safe cure is the only scientific specific for kidney and liver diseases and for all the many diseases caused by them."

"Have you evidence of this?"
"Abundance! Only a few weeks ago Dr. J. L. Stephens, of Lebanon, Ohio, a specialist for the cure of narcotic, etc., habits told me that a number of eminent scientific medical men had been experimenting for years, testing and analyzing all known remedies for the kidneys and liver, for, as you may be aware, the excessive use of all narcotics and stimulants destroys those organs, and until they can be restored to health the habits cannot be broken up! Among the investigators were such men as J. M. Hall, M. D., President of the State Board of Health of Iowa, and Alexander Neil, M. D., Professor of Surgery in the college of Physicians and Surgeons and president of the Academy of Medicine at Columbus, who, after exhaustive inquiry, reported that there was no remedy known to schools or to scientific inquiry equal to Warner's safe cure!"

"Are many persons addicted to the use of deadly drugs?"

"There are forty millions of people in the world who use opium alone, and there are many hundreds of thousands in this country who are victims of morphine, opium, quinine and cocaine. They think they have no such habit about them—so many people are unconscious victims of these habits. They have pains and symptoms of what they call malaria and other diseases, when in reality it is the demand in the system for these terrible drugs, a demand that is caused largely by physicians' prescriptions which contain so many dangerous drugs, and strong spirits, and one that must be answered or silenced in the kidneys and liver by what Dr. Stephens says is the only kidney and liver specific. He also says that moderate opium and other drug eaters, if they sustain the kidney and liver vigor with that great remedy, can keep up these habits in moderation."

"Well does not this discovery give you a new revelation of the power of safe cure?"

"No, sir; for years I have tried to convince the public that nearly all the diseases of the human system originate in some disorder of the kidneys or liver, and hence I have logically declared that if our specific were used, over ninety per cent. of these ailments would disappear. The liver and kidneys seem to absorb these poisons from the blood and become depraved and diseased."

"When these eminent authorities thus publicly admit that there is no remedy like ours to enable the kidneys and liver to throw off the frightful effects of all deadly drugs and excessive use of stimulants it is an admission of its power as great as any one could desire; for if through its influence alone the opium, morphine, quinine, cocaine and liquor habits can be overcome, what higher testimonial of its specific power could be asked for?"

"You really believe then, Mr. Warner, that the majority of diseases come from kidney and liver complaints?"

"I do! When you see a person moping and groveling about, half dead and half alive, year after year, you may surely put him down as having some kidney and liver trouble."

"The other day I was talking with Dr. Fowler, the eminent oculist of this city, who said that half the patients who came to him for eye treatment were affected by advanced kidney disease. Now many people wonder why in middle life their eye sight becomes so poor. A thorough course of treatment with Warner's safe cure is what they need more than a pair of eye glasses. The kidney poison in the blood always attacks the weakest part of the body; with some it affects the eyes; with others the head; with others the stomach or the lungs, or rheumatic disorders follows and neuralgia tears them in pieces, or they lose the powers of taste, smell or become impotent in other functions of the body. What man would not give his all to have the vigor of youth at command?"

"The intelligent physician knows that these complaints are but symptoms; they are not the disorder, and they are symptoms not of disease of the head, the eye, or stomach, or of virility, necessarily, but of the kidney poison in the blood and they may prevail and no pain occur in the kidneys."

"It is not strange that the enthusiasm which Mr. Warner displays in his proclamation of his own remedy, which restored him to health when the doctors said he could not live six months, should become infectious, and that the entire world should pay tribute to its power. For, as Mr. Warner says, the sales are constantly increasing, while the newspaper advertising is constantly diminishing. This speaks volumes in praise of the extraordinary merits of his preparations."

A FAMILY FIGHT.

Something of the Internal War in Washoe.

Washoe county has had many family rows. Heretofore the parties have been kept within the imaginary lines that include the territory of that subdivision of Nevada. To the outside world all would appear to be peace and harmony. They have had a peculiar way of hiding their skeletons in a closet. If any one was killed politically they gave him a quiet but respectable burial with fitting ceremonies, and let him rest till ready for resurrection. For years, there has been a contest as to whether General Powning or Judge Boardman should be the "political boss" down there. The zeal in that direction has divided the Republicans into two factions, headed by these two men who are ever at sword's points and hate each other cordially. When Boardman was a candidate for Attorney General before the Republican Convention four years ago, Powning was a candidate for Congress. The former was defeated in Convention and the latter nominated. After the State Convention Boardman was offered the salve of Judgeship for that county. He was nominated and he and Powning buried the hatchet. Both ran ahead of the ticket but Boardman was elected and Powning not. The truce they had made was soon ended. At the last election for delegates to the State and County Conventions each had tickets in the field. Boardman having the strongest allies got away with the fight. He was a candidate for Judgeship and was bitterly fought by Powning and defeated. Boardman and his allies had formulated a Legislative ticket and carried it at the primaries. They were met by the opposing element who joined hands with the Democracy, and the result is Washoe has four Democratic members in the two Houses, and the power of only one man in the several caucuses. Powning aspired to be the United States Senator from this State. His Democratic forces were of little avail to him in his hour of need.

We always did enjoy an artistic fight. This has been an interesting one. The united strength of Washoe county has been broken by it. It is a lesson that should have its moral, and, our neighbors on the North should profit by it. They should join hands to heal the present political wounds and at the next election place one of the most prosperous counties in the State where she belongs in the Republican ranks. The defection of the few, should not effect the many. Fortunately, the party could afford the loss caused by the local wrangle.

Reno has been a formidable rival of Carson City. She, by her bent of will, secured the Luanne Asylum and the University. These institutions are a credit to the State, and belong to her. They should be and will be liberally cared for. The good sense of the Legislature, and justice to the intelligence and integrity of wealthy and advancing of Washoe, will not permit any of her local interest to suffer. Her taxes pour liberally into the State Treasury. Her interests are the State's interests. What helps her, helps Ormsby and Storey counties. What helps these helps Nevada.

We now have won the fight, and can afford to forgive and forget, and put our shoulders together and work for the good, not only of the sister counties, but for the whole State. Let us do it.

Sweeny's Restaurant.

Sweeny has taken extra pains to have things in toothsome shape for the new members. Fresh invoices of lobsters, crabs, oysters and clams three times a week, turkey, chicken, quail, etc., together with upper crust champagne and everything else that makes a good meal enjoyable.

Ichi Ban Tea Prizes.

The sale of the Ichi Ban tea prizes began last evening at the store next to Wells, Fargo's. There was a large crowd present. See list of prizes in another column. The auction of tea and coffee will continue during the week.
