

ALL SORTS.

The Legislature has adjourned till Monday.

Have you purchased any church raffle tickets?

FOR SALE—The residence now occupied by Mr. Preble and family. Inquire at residence.

The ladies of the Episcopal Church will hold one of their pleasant socials at the Armory Hall Feb. 8. Dancing and refreshments. Admission 50 cents.

Let it be positively understood that Schneider & Simas, the photographers opposite the Mint, are the artists selected to make the official State group for 1887.

The San Francisco strikers propose to start a cable line of their own. The busses take in \$300 a day and as near as we can learn somebody quietly freezes to all the money.

We do not sound a needless alarm when we tell you that the taint of scrofula is in your blood. Inherited or acquired, it is there, and Ayer's Sarsaparilla alone will effectually eradicate it.

The California Legislature is going after the insurance companies. The companies have pooled on rates until they own all a man's property who insures with them a few years, and when he burns up, the insurance is generally worthless.

Hall's Vegetable Sicilian Hair Renewer imparts a fine gloss and freshness to the hair, and is highly recommended by physicians, clergymen, and scientists, as a preparation accomplishing wonderful results. It is a certain remedy for removing dandruff, making the scalp white and clean, and restoring gray hair to its youthful color.

The bill causing the constitutional amendments to be published in one newspaper in each county passed the Senate unanimously. It is charged that this bill was a "priester's steal." Such was not the fact; none of the newspaper men knew anything about it, nor would they have imagined that such a measure would have passed either House under any circumstances.

Pupils and Patrons.

I will hold my weekly dancing school and social at the Carson Opera House, instead of Armory Hall, Saturday afternoon and evening, February 5th. The Carson Guard having very magnanimously offered the use of their hall for the sum of \$10 for said evening providing I "quit" holding socials thereafter. I have concluded to "quit" said hall but not said socials.

Very Respectfully, MISS J. E. DAVIS.

The Last Sittings.

Yesterday at 4 p. m. religious services were held at the residence of Mr. Glover by the Rev. Geo. R. Davis. A few of the near friends of the late Mr. Schooling were present. At 6:30 p. m. the members of the Masonic Lodge assembled and took charge of the remains escorting them to the depot, where they were forwarded to Reno to receive Masonic burial by the Lodge of which he was an honored member.

Nevada's Commissioner.

Mr. Havenor, Nevada's Commissioner to the New Orleans Exposition, is in the city. Mr. Havenor, in his capacity of Commissioner, has done more practical good for this State than any other man in it that can be named. His work will tell in the State's prosperity long after this generation is dead.

New Virginia Paper.

The Daily Evening Report has made its first appearance in Virginia City, and is run by Brown & Chartz. It is a large, six column paper, and prefers to talk straight out on all State topics, and everything else of importance. It looks like a permanent investment.

Catholic Fair.

The ladies of the Catholic Church will hold a Fair at the Opera House on the 10th, 11th and 12th of February. Admission 50 cents; children 25 cents.

NEVADA TO THE FORE.

Reno Reduction Works, and the Proposed New Railroad.

S. H. Babcock, contracting agent of the D. & R. G. R. R. at Salt Lake City, has been spending a day or two in Reno on business. He says the Reno Reduction Works has an enviable reputation among the people of Utah.

Mr. Babcock also thinks that Nevada will soon have another railroad. He says that President Palmer of the Denver & Rio Grande railroad, is now in London for the purpose of raising funds with which to extend that road from Green River in Central-Eastern Utah to Santa Cruz, a distance of about 800 miles. He thinks it is understood between the managers of this road and Senator Fair that whenever they wish it, and at a price agreed upon, the former may have the South Pacific Coast road, extending from Oakland to Santa Cruz. The proposed extension of this road will be through Lincoln and Nye counties, passing through Pioche. The construction of this road will probably be commenced within the next few months, and when completed there will be an inducement for miners and speculators to open up and develop what are believed to be some of the richest mining sections found anywhere on the Pacific Coast.—Reno Gazette.

Blundering Legislation.

The Constitutional Amendments have been decided to be unconstitutional by the Supreme Court on the grounds that they were not spread on the minutes of the journal as the law directs. Thus all the Legislation which was done to change the Constitution is useless, and will have to be rescinded, and two years are lost. There ought to be a Committee of Inquiry appointed to ascertain who is responsible for this blunder.

The Gas Bill.

The bill to light the Home and State Prison with gas should pass. Kerosene has no place where there are children. It helps to produce diphtheria and the recent burning of the Orphan Asylum in Florida ought to warn the State that kerosene has no place in such an institution. One explosion of a lamp might cost the State \$50,000. Every public building in this city should be lighted with gas. It is cheap and safe.

The Candlemas Ground Hog.

There is a good deal of talk about the ground hog which comes out of his hole on February 2nd, Candlemas Day, and surveys the weather. If he sees the sun he crawls back into his hole for six weeks. We never struck anybody yet who held to this theory who knew a ground hog when they saw it.

THE INDIANA SENATORIAL FIGHT.

David Turpie Declared Elected, but an Appeal to be Taken.

INDIANAPOLIS, Feb. 2.—Turpie was elected United States Senator in the joint session of the Legislature today.

During the call of the roll Representative Robinson rose and made a statement of an agreement entered into by himself and Bates, Glover and Mackey to secure the election of Allen. He added that he was now convinced that it was hopeless to endeavor to elect to the Senate any man who was not a member of one of the two great parties, and as his constituents were urgent in their demands, he had decided to cast his ballot for David Turpie. This announcement was greeted with wild cheers from the Democrats. Bates, Glover and Mackey, Republican-Labor members, then made their brief explanations and cast their votes for Harrison, the vote standing, Turpie, 76; Harrison, 74.

In the Senate Turpie received 32 and Harrison 13. In the House Turpie received 44 and Harrison 56.

Immediately on the termination of the call of the House roll Speaker Sayre announced that there was no election and passed the figures to President Smith, of the Senate, whose privilege it is, under an agreement, to announce the total vote, and he at once called out that David Turpie had been elected Senator of the United States to serve six years from the 4th of March next.

Sayre declared Smith a usurper, and that he had no right to make such an announcement as President of the Joint Convention, but the Speaker's remarks were unheeded and the announcement made as above.

All protests against the votes of members, as recorded on the day of the joint balloting, began after the compromise agreement, and apply to the ballot taken today.

After the announcement of the vote, Gardiner (Rep.) moved that the Joint Convention meet tomorrow, and cast their ballots for Harrison, thus making up a formal case for presentation to the United States Senate.

Hydrographical - Topographical Surveys.

Senator Kaiser has introduced Joint and Concurrent Resolution No. 15, asking Congress to make topographical surveys in Nevada. It reads:

"Your memorialist, the Senate and Assembly of the State of Nevada, respectfully represents: That the arable lands of this State suitable for cultivation and settlement are those which can be irrigated, and none other, that in the disposition of the lands which may be irrigated, a very different system of laws is required. Irrigation and cultivation ought to be conditions precedent for the acquisition of lands which are susceptible of irrigation. Lands which are only fit for grazing may be sold or leased by the Government in larger quantities and subject to less restrictions. For the purpose of segregating the lands which may be irrigated from other lands, a hydrographical and topographical survey is necessary. Such survey should show every source of water supply, either by turning natural streams, damming lakes, constructing reservoirs, or any other means of obtaining a water supply in the season of irrigation. Such surveys should also show what lands may be supplied with water, and the cost of construction of dams, ditches and other hydraulic works for irrigating the same. They should also show what lands are fit only for grazing purposes, and the extent of deserts which are entirely valueless." Referred to Joint Committee on Agriculture.

The V. & T. R. R.

The statement filed by H. M. Yerington, General Superintendent of the Virginia & Truckee R. R. Co., in the office of the Secretary of State shows most favorably for the Co. The net earnings for 1885 were \$282,667.69 while for 1886 the net earnings were \$353,544.83 showing an increase for 1886 over 1885 of \$170,877.16. While the expenses of operation, taxes, etc., had increased only \$32,867.59. The dividends paid in 1885 were \$180,000, those paid in 1886 were \$270,000.
