

The Lake Tahoe Tap.

The Virginia Report hits the nail square as follows:

Nothing will come of the scheme to tap Lake Tahoe for at least two years. All the company desired of the Legislature was a franchise.

Anyway the franchise was not given. One member of the enterprising gentlemen who desired to tunnel the Sierras was ready to plank down \$500,000, but being a resident of the State of California, he would not do so only under the protecting aegis of a franchise.

Not an Irish Dish on the List. The San Francisco Report says the most rabid Know-Nothings could not accuse the Knights of St. Patrick of adhering to closely too the customs traditions and language of the old country.

A One-Cent Paper. "To fill a long felt want" there has just been issued a new paper in New York called the Evening Sun.

Impotent Nevada. The Ogden News asks: What does the editor of the Herald know about impotency, that he should allude to the "Battle Born" State as "Impotent Nevada?"

Another new swindle is being practiced upon the guileless stranger. Two rogues watch papers for stray notices, when one of them goes and looks at the animal.

Russian Nihilists are adopting the safer and surer method of overthrowing the Government by stabbing the Czar in his pocket.

Charles Dudley Warner is in San Francisco, and the papers there speak of him as "the eminent author and magazine writer."

Ingersoll says that contemplating the average rich man's son he loses all ambition for wealth.

A LESSON WITH A MORAL.

When will Our Eyes be Opened to This Great National Calamity?

The year 1886 played sad havoc with many prominent men of our country.

Many of them died without warning, passing away apparently in the full flush of life. Others were sick but a comparatively short time.

It is singular that most of our prominent men die of these disorders. Any journalist who watches the telegraph reports, will be astonished at the number of prominent victims of these disorders.

Many statements have appeared in our paper with others to the effect that the diseases that carried off so many prominent men in 1886, are really one disease, taking different names according to the location of the fatal effects.

When a valuable horse perishes, it becomes the nine days' talk of the sporting world, and yet thousands of ordinary horses are dying every day, their aggregate loss is enormous, and yet their death creates no comment.

So it is with individuals. The cause of death of prominent men creates comment, especially when it can be shown that one unsuspected disease carries off most of them, and yet vast numbers of ordinary men and women die before their time every year from the same cause.

We are told that if the kidneys are maintained in perfect health, the uric acid, kidney, acid is kept out of the blood, and these sudden and universal diseases caused by uric acid will, in a large measure disappear.

Because public attention has been directed to this great remedy by means of advertising, some persons have not believed in the remedy. We cannot see how Mr. Warner could immediately benefit the public in any other way, and his valuable specific should not be condemned because some nostrums have come before the public in the same way, any more than that all doctors should be condemned because so many of them are incompetent.

It is astonishing what good opinions you hear on every side, of that great remedy, and public opinion thus based upon an actual experience, has all the weight and importance of absolute truth.

At this time of the year, the uric acid in the blood invites pneumonia and rheumatism, and there is not a man who does not dread these monsters of disease; but he need have no fear of them we are told, if he rid the blood of the uric acid cause.

These words are strong, and may sound like an advertisement, and be rejected as such by unthinking people, but we believe they are the truth and as such should be spoken by every truth-loving newspaper.
