

LAND FOR NEVADA

The Virginia Report has the following:

We not long since had the pleasure to overhear Senator Jones in conversation with other gentlemen on the cars make certain statements which if carried out would be of great advantage to Nevada.

We delighted to overhear the Senator speak in this strain for some length of time and that he intends to bestir himself for our good. The plan is a very feasible one, and it would not take long to raise a fund that would enable us to test the irrigation question to the best advantage.

The Senator made another strong point in favor of the Government donating to Nevada all of its lands, and that was that the State Government could better pass laws that would stop men from buying and taking up long narrow strips of land on streams of water, and thus being able to command and virtually own and receive the benefit of thousand upon thousands of broad acres without paying a cent of taxes upon them.

Possibly there are but few things that so well show the utter incapacity of the average legislative material that has been ranting in the halls of State and nation, as the fact that a few men have been enabled by the purchase of comparatively small tracts of land to absorb the living resources of thousands of men.

It is now conceded that if there is ever a horse that will trot in two minutes, it will be one that has the blood of these two great strains, Boston and Messenger. Anyone having doubts of the breeding of Royal George, Junior, can have his record proven by calling on his owner, J. M. BENTON, Carson City, Nev.
