

THE FIRST VICER.

The greatest merchantile house in California has been stricken down by the Mills tariff bill, which made unsaleable a borax-producing property formerly valued at two million dollars.

In view of this commercial catastrophe, produced by the mere apprehension of free trade in a single product of comparatively small importance, some idea may be gained of the panic that would follow the adoption of free trade in all the articles now included in the protective tariff.

Deplorable as is the disaster to Mr. Coleman, it will at least have one good effect in opening the eyes of the people of California to the danger involved in the free trade programme of the Democracy.

Give the Couple a Chance.

Some weeks ago a Miss Fellows of St. Paul, married a man on a Reservation who had a strain of Indian blood in his veins, and according to some accounts was a full blooded Indian.

While the lady exercised very questionable taste in selecting a life's partner, people ought to recollect that it is a matter between the contracting parties and no special business of any one else.

If Miss Fellows had married a spindle-shanked, fly-livered, dade, a broken-down lebauchee with money, a hand-painted, wasp-waisted sprig of English nobility or an ex-organ grinding Italian Count she would have made a worse choice than the present one.

It might be a good idea for the American Press to allow this couple to go to housekeeping and run their matrimonial affairs according to their own inclinations.

PACIFIC COAST ITEMS.

Patrick Waters who was shot recently by his wife in Los Angeles, died Wednesday.

Mrs. Blundin of San Francisco received a severe cut in the face by being thrown from a buggy Wednesday at Sacramento.

Perry Bonham, a miner at the "Seventy-six" mine, Forest City, lost part of his scalp by the accidental discharge of a gun Sunday.

At a meeting at Yuba City Wednesday to secure steps to establish a Methodist College at Sutter City, the subscriptions on the spot amounted to nearly \$10,000.

The trial of Prewett at Salinas is still going on. No evidence of a more damaging character than that produced at the trial at Hollister has yet been produced by the prosecution.

The Yuma Indians are preparing to hold a grand pow-wow for purpose of confirming the election of Miguel as Chief, or to elect some one else in his stead. Miguel was elected some twelve months ago for the term of one year.

Charles Anderson reached under the rear steps of his house, seven miles East of Santa Rosa, the other day for a cloth he had stowed there and drew out a rattlesnake with seven rattles. He killed the reptile without being bitten.

Walter Hill and a boy named Espings were playing with an open pocket knife at The Dalles Monday, when Espings threw the knife in the air, and in falling the blade penetrated the breast and lungs of Hill. The wound will probably prove fatal. The boys are aged twelve and fourteen years.

NASAL VOICES, CATARRH AND FALSE TEETH.

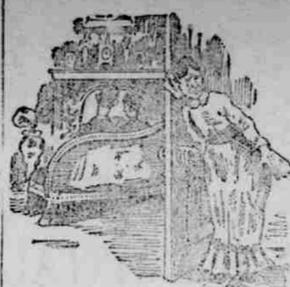

A prominent English woman says the American women all have high, shrill, nasal voices and false teeth. Americans don't like the constant twitting they get about this nasal twang, and yet it is a fact caused by our dry, stimulating atmosphere, and the universal presence of catarrhal difficulties.

But why should so many of our women have false teeth? That is more of a poser to the English. It is quite impossible to account for it except on the theory of deranged stomach action caused by imprudence in eating and by want of regular exercise.

Both conditions are unnatural. Catarrhal troubles everywhere prevail and end in cough and consumption, which are promoted by malnutrition induced by deranged stomach action. The condition is a modern one, one unknown to our ancestors who prevented the catarrh, cold, cough and consumption by abundant and regular use of what is now known as Warner's Log Cabin Cough and Consumption Remedy and Log Cabin Sarsaparilla, two old-fashioned, standard remedies handed down from our ancestors, and now exclusively put forth under the strongest guarantees of purity and efficacy by the world-famed makers of Warner's safe cure.

Comrade Eli Fisher, of Salem, Henry Co., Iowa, served four years in the late war and contracted a disease called consumption by the doctors. He had frequent hemorrhages. After using Warner's Log Cabin Cough and Consumption Remedy, he says, under date of Jan. 19th, 1888: "I do not bleed at the lungs any more, my cough does not bother me, and I do not have any more smothering spells."

Of course we do not like to have our women called nose-talkers and false-tooth owners, but these conditions can be readily overcome in the manner indicated.
