ANOTHER CASE.

Cap. Avery Down with Smallpox.

Yesterday Cap. Avery, who for some time had been the barkeeper at the Ormsby House, was taken with the smallpox. Dr. Lee called at once and had him removed to the Pest House at his own request.

The building, which is the brick building where the Justice Court is held, was at once fumigated with sulphur, and Dr. Lee says he will stake his professional reputation that the place is thoroughly disinfected, and there can be no possible danger from that quarter.

The fact that Avery has taken it after being so long in the Ormsby, points to the fact that the sewerage of the hotel must have been responsible for the start of the disease.

Cough! and Cough!! and Cough!!!

What in the world is the reason you will cough and keep coughing and still keep trying inferior medicines when BEGG'S' CHERRY COUGH SYRUP will positively relieve your cough at once? This is no advertising scheme, but an actual fact, and we guarantee it. W. H. Chedic, Druggist.

Art in Chairs.

It is probably a fact that the makers of chairs have been cursed more than any other class of people except the makers of shoes. The chumps who make chairs never seem to have any idea that the contrivances are for any special purpose except to be looked at. The idea that they are intended to afford rest to the weary human body never seems to enter the heads of the blasted idiots who manufacture them. The fiend of discomfort is the thin legged, low backed chair with a tea green bottom. The exertion of trying to assume an easy position in one of these chairs makes a man appear as if he were drunk or crazy.

But now comes a genius who ought to be respected by his countrymen for ever for introducing the Hammoquette Reclining Chair, samples of which may be seen at the Arlington House. You can sit up straight or lie down, or lift your heels higher than your head, or roll over on your side, and the chair gently adapts itself to the changes. The true secret of a good chair is here; it touches every portion of the body from the head to the heels, and gives Oriental comfort and rest; it is just the thing to have on the porch on a summer day, or to use on the lawn in the shade of your fruit trees.

An agency will shortly be opened in this city, and C. Conn representing the firm of Conn & Thyes is now at the Arlington ready to exhibit it.

What on Earth

Is the reason people will not, cannot, or do not see any difference in cheap nos trums put up by Cheap John houses or irresponsible parties at enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at equal price? No medicine in the world is giving such unparalleled satisfaction for purifying the blood as BEGG'S' BLOOD PURIFIER & BLOOD MAKER, and every bottle that does not do its work, will cost you nothing. W. H. Chedic, Druggist.
