ROYAL BAKING POWDER
Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low cost, short-weight, alum or phosphate powders. Sold only in cans. ROYAL BAKING POWDER CO., 106 Wall Street, New York.

Washington Notes.

The President always washes his own hands himself.

Baby McKee's bottle is made of glass and holds three quarts; one each time.

The statement that Russell Harrison whistles at the dinner table is not correct.

Secretary Blaine put twenty-five cents in the plate on Sunday. It bore the date of 1856, and was plugged.

Mrs. Harrison attended church on Sunday morning, and went through the entire service without creating any unusual disturbance.

Russell Harrison purchased three pairs of shoe laces of a fakir on Monday, and refused to have them sent home. He said he felt well enough to carry his own bundles.

Vice President Morton wears a very handsome smile on his face—an effectual refutation of the slander started during the campaign that his stoile is worn on the back of his neck.—Munsey's Weekly.

Every few days, the Grass Valley Telegraph, Ruf. Shoemaker's new paper, comes to us with a changed form. It gets larger and wider every once in a while. We would like the paper to adopt one size and keep it, that is, when it thinks it has grown enough.

To Whom It May Concern.

CHICAGO, March 10th 1889.

This is to certify that the sole agency for Chase & Sanborn's coffee for the City of Carson, Nev., is held by L. H. Bell, whom we shall protect by every means. Outside of the store of said Bell, the genuineness of our goods we can not guarantee.

CHASE & SANBORN.

ALL SORTS.

Dayton claims to have a genuine Chinese leper.

C. N. Noteware has returned from tide water.

Suits and shirts made to order and fit guaranteed at A. Cohn's Emporium. Jail Im

Finest underwear in the market at bed rock prices at A. Cohn's Emporium.

Luxurious, warm and comfortable baths at Cuhna's, opposite State Capitol.

Editor Lovejoy, of the Wabuska Mangler, has added another column to his live paper.

Woodsls, editor and proprietor of the Comstock Miner, came down to Carson last even ng.

In a railway accident in Ontario, Sunday, sixteen people were killed and a large number wounded.

M. Cohn has returned from below and will now mark down his new stock below any previous marking.

Pure wines and choice liquors at Livingston's. French and California Brandies, Domestic and Imported Wines. a27ff

All business will be suspended in this city to-day and the schools closed in honor of the Washington anniversary.

It turns out that Carson has also a "local Four Hundred" and a little over. Look at the city registry list.

It seems that the snobs and bunglers who have in charge the centennial ball, have managed to insult the whole foreign diplomatic corps, who have very properly decided not to attend.

Philip A. Roach, an old pioneer journalist and politician, died in last Saturday in San Francisco. He was a central figure in California politics for forty years and when he died, held the office of Public Administrator. He was a man beloved and respected by a large circle of friends.

The idea of having clerks go with the ocean mail steamers to distribute the postal matter, in order to expedite its transmission on reaching land, is said to be a German suggestion. But it can hardly be considered as a new one. The railway mail service should have suggested it long ago.

The statement that a singing society of San Francisco will send Miss Schneider to Europe to complete her musical education is an error. She is assisted by friends of the family in San Francisco, and the musical organization in question merely accompany her with good wishes. She left for Chicago last evening.

EDITOR OF THE APPEAL:—Please announce in the columns of your valuable paper that we are sole agents for St. Patrick's Pills, the most perfect cathartic and liver pills in the market. They not only physic, but cleanse the whole system; purify the blood and regulate the liver and bowels; they are vigorous but gentle in their action and can always be depended upon. For sale by G. C. Thaxter.

Not a fit, but an expression of delight. "About a week ago," says a Los Angeles, Cal., druggist, "a Chinaman came in with a lame shoulder. I sold him a bottle of Chamberlain's Pain Balm and guaranteed that it would cure him. He came in again last night, and as soon as he got inside the door, began to swing his arms over his head like an Indian club swinger. I thought the blamed fool had a fit, but he finally stopped long enough to say: 'Medicine velly fine, velly fine; atly same make me feel plenty good.'" Chamberlain's Pain Balm is without an equal for sprains, rheumatism, aches, pains or lame back. For sale by G. C. Thaxter.

How Can Parents allow their children to cough and strain and cough and calmly say: "Oh! its only a little cold," and keep giving them cheap and dangerous medicines, until they are down with lung fever or consumption, when they can be so easily relieved by BEGG'S CHERRY COUGH SYRUP? It has no superior and few equals. W. H. Chedic, Druggist.

WANTED—Women to do house work. Apply at this office. tf

ESPERSETT.

Something Further Regarding the Plant.

As a good many letters have been received at this office inquiring as to the result of the espersett experiment, this is written for the information of about two hundred people who have written letters of inquiry on the subject. The writer planted about an acre of espersett in June and gave it no water during the Summer. It sprouted and grew in a dry sandy soil and stood the Winter, coming out again in the Spring. The gophers destroyed a good many of the roots and the plant although alive, seems small and does not give promise of a vigorous growth. Some was planted where it could be irrigated. By the bursting of a dam, however, the seeds were washed away, and going into a ditch, were carried several hundred yards to a piece of worthless clay land which had formerly contained some alkali. A few days ago the writer was walking across it and was astonished to see luxuriant bunches of espersett. It was growing rank and vigorous and in ten times better shape than that which was planted in the sandy soil. From this, it is evident that the clay land of Nevada is well adapted to the growth of the plant, and it will flourish on reclaimed alkali land, there being just enough moisture in the soil to keep it growing well.

THE ST. CHARLES.—J. E. McDonald has leased the St. Charles, and determined to run the house at popular prices. Meals will be but 25 cents, and lodgings the same. Board and lodging per day \$1.

Meals, however, can be cooked to order, and elegant suites can be had at higher figures for those who desire it. He proposes to make the St. Charles the best second-class house in the State, and the experiment will without a doubt pay a good return.

BURIAL OF OSCAR WHITE.—Yesterday the remains of Oscar White, son of George White of the C. & C. R. R. came in on the train and the funeral took place from the depot. The deceased was 7 months old and died at Hawthorne.

WILL CELEBRATE.—The Carson Guards will parade to-day at 3:30 in order to celebrate the day.

Preparations for the Washington Centennial have disclosed the remarkable fact of there being comparatively few direct descendants of American soldiers in the war for independence—at any rate, few of those who can trace a direct lineage. As a rule, Americans are careless about the cultivation of family trees. This is not favorable to the early establishment of a large aristocratic class in this country. Perhaps the greater show of aristocratic tendencies is made by those descended from persons who came to this country on emigrant ships long after the old fellows had "fit into the army with Washington."

It is rumored that fish are being shipped from Wadsworth by some of the professional shippers, which are being caught with grab-hooks, spears and by other unlawful means. The Fish Commissioner's attention is being called to this fact, and the probabilities are that if this business is followed up there will be some prosecutions. If there are those in our neighboring town indulging in this unlawful traffic, it might be well for them to consult the law which looks toward the protection of the finny tribe. A hint in this matter ought to be sufficient.—Gazette.

The citizens of Virginia City, on short notice yesterday determined to have a celebration of the hundredth anniversary of the inauguration of Geo. Washington, the father of his country, and invite the participation of the good people of Carson and adjacent towns. The Virginia and Truckee R. R. will sell tickets to Virginia and return, good on passenger train of today, at half rate to such as desire to attend.

Dr. E. G. Winnie, dentist, Office on Telegraph street, two doors west of Zehner's fruit store. Office hours from 1 p. m. to 7 p. m. *

SHREWD ADVERTISERS.

Readers of the newspapers of the day cannot fail to be impressed with the fact that the modern advertiser is progressive.

He is compelled to be, else competitors more active in the invention of new advertising devices, will outstrip him in public favor.

The value of printers' ink judiciously and scientifically employed cannot be overestimated; it is the medium whereby a meritorious discovery is raised from local fame to a position in the public esteem. Hence the columns of the newspapers are daily used by hosts of advertisers and in the competition which is indulged in to attain the desired end, the reader is oftentimes amused.

The greatest of American advertisers, and it may as well be said in the world, is H. H. Warner of Rochester, N. Y., whose name has been made everywhere familiar in connection with Warner's Safe Cure, widely advertised because of its merit in the prevention and cure of kidney diseases.

By printer's ink this great discovery has achieved world-wide popularity and thousands feel grateful for the knowledge thus acquired of this greatest of modern remedies.

Furthermore, the public has been taught that disorders of the lungs, brain, heart and liver which have hitherto been regarded and treated by the profession as distinctive diseases are not so in fact, but are the attending symptoms of disease of the kidneys; therefore, the consumptive, the apoplectic, the paralytic, and the sufferer from nervous disorders can be restored to health by Warner's Safe Cure, which will remove the true cause of those disorders by restoring the kidneys to healthy action.

The advertising methods employed by this greatest of advertisers are invariably instructive and, although the reader may sometimes be "cau,ht" in reading an advertisement, which was not at first supposed to be such, there is nevertheless no time lost since useful information is invariably gained concerning life's great problem.

INDIANS ON THE RAHPAGE.

They try to Rescue two Prisoners.

Sheriff Cody of Mono passed through Carson Sunday enroute for San Quentin with two Indians, one of whom had killed a white man and the other a Chinaman.

While passing through Antelope Valley a party of Washoe and Pute Indians on ponies attempted a rescue. Sheriff Cody was accompanied by his father-in-law, J. Shaughnessy, a former resident of the Comstock.

They had the prisoners in irons in a rockaway. The rescue party of Indians demanded the surrender of the prisoners by force, but were met with drawn Colt's revolvers in the hands of the Sheriff and his aid and by urging the horses drawing the rockaway to their utmost speed the attacking party was foiled but followed the Sheriff into Carson on ponies.

On Sunday evening the depot platform was thronged with Washoe and Putes when the Sheriff left on the express with his prisoners, but no further attempt at rescue was made. One of the prisoners is a Washoe, sentenced to 21 years in San Quentin for murdering a Chinaman, and the other a Pute sentenced to six years for killing a white man.

THE DOCTOR COUNTED IT.—Some weeks ago, the APPEAL mentioned that Mrs. Berieau of this city had presented her husband with triplets. This was an error, but on Sunday evening, the child, a bouncing ten pounder arrived. Dr. Davison, who made a careful count of the returns, assures the APPEAL that there was but one. The happy father is being congratulated on every side.

Attention Company E.

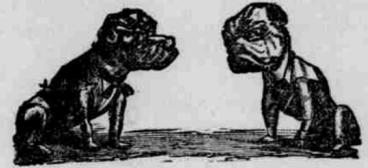

You are hereby ordered to assemble at your Armory to-day at 3:30 o'clock P. M. sharp, for parade, and every member is expected to turn out. By order of GEO. HARK, Captain.

TONIGHT'S BALL.—Captain Hark requests the presence of all members of the Carson Guard in uniform at their dance this evening in Armory Hall. A good way to celebrate the day is to attend the dance.

Mrs. W. O. Leeds, wife of one of the richest men in Indiana, is about to prosecute nineteen saloon-keepers in Michigan City for selling to her husband after she had warned them not to do so. It is rumored that Mr. Leeds has promised to stand back of the saloon-keepers in any proceedings and supply the sinews of war. The amount of money he can control is estimated to be \$5,000,000.

There is still a little chance for rain, but not much.

ROUND TWO.

- McCreary Flour, per 100.....\$3 25
- 5 Cans of Table Fruit..... 1 00
