

**MORNING APPEAL**

FRIDAY..... JUNE 21

**NONSENSE.**

Under the above caption the White Pine News thus scores the members of the last session of the Legislature:

A great deal of nonsense has been written and printed on the dormitory question by members of the Legislature. What was the appropriation asked for? Or were the members of the Legislature ignorant of the purposes to which it was to be applied? Their letters indicate that the majority of them knew nothing about the use the money was to be put to, or for what it was needed. They admit, over their own signatures, that they lacked ordinary judgment and common sense when they made the appropriation, without knowing or caring, what the money was needed for. Some of these honorables are now writing themselves down ignoramuses.

An exchange tells this: There is an old gentleman in a mountain county who is very fond of hunting. Whenever he walks abroad his wife always bears him company. Recently he went out to drive the cows. During his walk he discovered five squirrels up one tree, and also discovered that he had lost all of his bullets but one. He sat down, drew out his pencil and day book, and carefully surveying the distance up to the first squirrel, he began: If six grains of powder will move a ball three inches, how many grains will it take to carry it up to the first squirrel, a distance of thirty feet? made his calculations, put in the required amount of powder, just enough to kill the squirrel and for the bullet not to pass through. He banged away, and down came bushy tail. He took out his knife, cut out the bullet, loaded up again, and fired until he killed the five squirrels with one bullet, and loaded with it the sixth time.

A jovial chap from the Great East, who has been in town for several days, was remonstrated with by a friend for drinking large quantities of whisky. The friend said whisky destroyed the coating of the stomach. "Well, the weather in Carson is very warm and I've concluded to let my stomach go in its shirtsleeves."

The case of Allen Bragg vs. the State of Nevada was argued and submitted before Judge Rising yesterday morning. The decision will not be rendered until after proceeding in mandamus before the Supreme Court shall have been submitted, which will be some time next month.

Much chloriding is going on in the vicinity of Hamilton, White Pine county. Several of the small mines are producing good ore, which is being shipped to Eureka and Salt Lake.

A solid chunk of wisdom was done up in a neat package by the Presbyterian delegate who said the other day that an ounce of taffy is worth a pound of epitaphy.

The residences of Mrs. Eliza Chadwick and H. B. Moore, the boarding-house of Mrs. M. R. Deming and several barns at Fresno were burned last Sunday.
